INDEPENDENT AUDITORS' REPORT

To the Participants of and Administrative Committee of
Autobahn Imports, Inc. 401(k) Savings & Retirement Plan
Fort Worth, Texas

We were engaged to audit the accompanying statement of net assets available for benefits of the Autobahn Imports, Inc. 401(k) Savings & Retirement Plan (the "Plan") as of December 31, 2009 and the related statement of changes in net assets available for benefits and supplemental schedules as of and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by the John Hancock Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the custodian as of December 31, 2009 and for the year ended December 31, 2009 that the information provided to the Plan Administrator by the custodian is complete and accurate.

Because of the significance of the information in the Plan's 2009 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule as of and for the year ended December 31, 2009. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have audited the statement of net assets available for benefits of the Plan as of December 31, 2008, and in our report dated March 4, 2010, we expressed our opinion that such financial statement presents fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

NOTE A - DESCRIPTION OF PLAN

The following description of the Autobahn Imports, Inc. 401(k) Savings & Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the employees of Autobahn Imports, Inc. (the "Company"). Employees become eligible to participate in the Plan with a minimum of 1,000 hours of service and attaining the age of 21, as defined in the Plan Document. John Hancock Life Insurance Company took custody of the Plan's investments on June 4, 2009. Prior to that date, the Plan's investments were held by another custodian. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute compensation, as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may, at its discretion, make a contribution, on behalf of all employees that qualify as Plan participants (discretionary company contributions). The Company elected not to make contributions during 2009. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's elective deferral and allocations of the Plan's earnings, and charged with benefit payments and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferral contributions and rollover contributions plus actual earnings thereon. That portion of the participant's account attributable to employer discretionary contributions plus actual earnings thereon vests 20% after two years credited service increasing 20% each following year until 100% vested after six years of service. Participant accounts will be 100% vested due to retirement, death or disability regardless of years of service.

NOTE A - DESCRIPTION OF PLAN (Continued)

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. Participants may change their investment options at any time. The Plan currently offers various pooled separate accounts as investment options.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 3.25% to 8.75%, which is commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon death, disability, or retirement a participant may elect to receive either a lump sum amount equal to the value of the participant's vested account or annual installments. Lump sum distributions must be made on participant accounts with a value of less than $1,000. Distributions due to termination of service for other reasons are payable as a lump sum distribution.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts will be used to reduce employer contributions or pay Plan expenses. Forfeited non-vested account balances at December 31, 2009 and 2008, totaled $26,196 and $0, respectively.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

NOTE B - SUMMARY OF ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Administrative Fees

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2010, the date the financial statements were available to be issued.

NOTE C - TAX STATUS

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the Internal Revenue Code (the "IRC"). The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the third party administrator by a letter dated February 4, 2002 that the prototype plan document was designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE D - INVESTMENTS

	2009	2008

Lifestyle Balanced GIFL	427,042	*

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value, as follows:

Mutual funds	$ 235,411
Pooled separate accounts	458,103
	$ 693,514

NOTE E - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board issed a statement that defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies use for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled Separate Accounts

These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

NOTE E - FAIR VALUE MEASUREMENTS (Continued)

Mutual Funds

These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Participant Loans

Loans to participants are valued at amortized cost, which approximates fair value and are classified within Level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Fair Value

	Participant Loans
Balance, beginning of year	$ 90,026
Issuances and settlements, net	(6,336)
Balance, end of year	$ 83,690

NOTE F- UNAUDITED INFORMATION CERTIFIED BY CUSTODIAN

The accompanying financial statements and supplemental schedule include the following unaudited information as of December 31, 2009 and for the year then ended that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian:

	2009
Investments	$ 3,150,436
Net appreciation in fair value of investments	$ 458,103
Interest income	$ 1,990

The certification mentioned above includes all investment information discussed in Notes D and E and in the Supplemental Schedule of Assets (Held at End of Year).

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE H - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by John Hancock. John Hancock is the custodian defined by the Plan and, therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services totaled $2,349 for the year ended December 31, 2009.

NOTE I - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE J - DELINQUENT PARTICIPANT CONTRIBUTIONS

Participant contributions of $57,244 were withheld from participants' pay during the months of August and September, 2009, but were not remitted to the Plan within the time frame required by the Department of Labor rules. This constitutes a loan from the Plan to the Company. The late deposits were remitted to the Plan in September and October, 2009. No interest has been remitted to the Plan.
