REPORT OF INDEPENDENT AUDITORS

To the Verizon Employee Benefits Committee:

We were engaged to audit the accompanying statements of net assets available for benefits of the Verizon Corporate Services Group Inc. et. al Pension Plans (the “Plans”) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the years then ended, as listed in the table of contents. These financial statements are the responsibility of the Plans’ management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 5, which was certified by Bank of New York Mellon, the trustee of the Plans, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plans’ investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VERIZON CORPORATE SERVICES GROUP INC. ET AL PENSION PLANS

Notes to Financial Statements

December 31, 2009

NOTE 1 DESCRIPTION OF THE PLANS

The following description of the Verizon Corporate Services Group Inc. et al Pension Plans (the "Plans"), as listed in the table of contents, provides only general information on the Plans' provisions. Participants should refer to their respective Summary Plan Description (the "SPD") for a more complete description of the Plans' provisions.

General

The Plans are sponsored by Verizon Communications Inc. ("Verizon") or one of its subsidiary companies (the "Companies" or "Plan sponsors") and provide pension benefits as set forth in the respective Summary Plan Descriptions. The assets of the Plans are included in the Bell Atlantic Master Trust (the "Master Trust") maintained by Bank of New York Mellon (the "Trustee"). The Verizon Employee Benefits Committee (or the Chairperson thereof) is the administrator of the Plans.

Plan Merger

Effective December 31, 2009, the Hourly Employee Retirement System of GTE Hawaiian Telephone Company Inc. (the "Hawaii Hourly Plan") was merged into the Verizon Management Pension Plan (the "VMPP"). The merger was implemented in a manner that preserved the separate provisions of each plan including accrued benefits and all legally-protected forms of benefit distribution available prior to the merger. As a result of the merger, net assets of approximately \$433 million were transferred from the Hawaii Hourly Plan to the VMPP.

Information Certified by the Trustee

With the exception of the Fair Value Hierarchy table, all investment information disclosed in the financial statements and footnotes, including investments held at December 31, 2009 and 2008, and the Plan's allocable share of the Master Trust investment activities for the years ended December 31, 2009 and 2008, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

Pension Benefits

The Plans are trustee, noncontributory, defined benefit plans, which cover many of the employees of the sponsoring Companies.

VERIZON CORPORATE SERVICES GROUP INC. ET AL PENSION PLANS

Notes to Financial Statements

December 31, 2009

NOTE 1 DESCRIPTION OF THE PLANS *(continued)*

Retirement income is based on compensation and service or on service only, as defined by the applicable plan. The Plans provide normal retirement, early retirement, disability retirement, deferred vested and surviving spouse's pension benefits.

The Plans provide vesting with five years of vesting or Employee Retirement Income Security Act ("ERISA") service or, in some cases, for employees attaining normal retirement age. Eligible employees, as defined in the respective Plan, have the opportunity to elect a lump-sum payment option as a form of retirement benefit payment. Benefit payments to participants are recorded upon distribution.

Verizon management employees no longer earn pension benefits. Management employees are entitled to the benefits they have earned as of June 30, 2006. In addition, new management employees hired after December 31, 2005, are not eligible for pension benefits.

Funding Policy

The Companies contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plans have met the ERISA minimum funding requirements for the years ended December 31, 2009 and 2008.

In accordance with the Pension Protection Act of 2006, all plans are required to use the Unit Credit Cost Method to determine the minimum contributions to the ongoing plan.

401(h) Account

The Master Trust includes a health and welfare component in addition to normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (IRC). A separate account has been established and maintained in the Master Trust for such net assets. In accordance with IRC Section 401(h), the Plan's investment in the 401(h) account may not be used for, or diverted to, any purpose other than providing health and welfare benefits for retirees and participants. The related obligations are not a component of the Master Trust's obligations but are reflected as obligations in the Plan for Group Insurance, for which separate financial statements are prepared. Plan participants do not contribute to the 401(h) account. Employer contributions or qualified transfers to the 401(h) account are at the discretion of the Plan Sponsor.

NOTE 2 **BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of Net Assets Available for Benefits at the date of the financial statements and the actuarial present value of accumulated benefits as of the benefit information date, the Changes in Net Assets Available for Plan Benefits during the reporting period, the changes in actuarial present value of accumulated benefits, and when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Administrative Expenses

Administrative fees are charged directly to the Plans as incurred or allocated to the Plans based on their pro rata share of Master Trust assets or other allocation method.

Plan Transfers

The Plans are permitted to transfer benefit obligations subject to the provisions of ERISA. The net assets available for benefits of the Plans at December 31, 2009 and 2008 include assets relating to obligations that were transferred among the Plans during the prior year. Subsequent to December 31 each year, the Plans are expected to transfer assets relating to these obligations. The amounts are actuarially determined and are valued at January 1.

VERIZON CORPORATE SERVICES GROUP INC. ET AL PENSION PLANS

Notes to Financial Statements

December 31, 2009

NOTE 2 **BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** *(continued)*

Investment Valuation and Income Recognition

In accordance with Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, fair value of financial and non-financial assets and liabilities is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The three-tier hierarchy for inputs used in measuring fair value, which prioritizes the inputs used in the methodologies of measuring fair value for assets and liabilities, is as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities

Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities

Level 3 – No observable pricing inputs in the market

Financial assets and financial liabilities are classified in their entirety based on the lowest level of inputs that is significant to the fair value measurements. The Plan sponsors’ assessment of the significance of a particular input to the fair value measurements requires judgment, and may affect the valuation of the assets and liabilities being measured and their placement within the fair value hierarchy.

Purchases and sales of investments are reflected as of the trade date. Realized gains and losses on sales of investments are determined on the basis of average cost. Dividend income is recorded on the ex-dividend date. Interest earned on investments is recorded on the accrual basis.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (“FASB”) issued a new accounting standard to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability has significantly decreased in relation to its normal market activity. The standard also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan prospectively adopted the new standard for the reporting period ended December 31, 2009. The adoption of the new standard did not have a material effect on the Plans’ Net Assets Available for Benefits or its Changes in Net Assets Available for Benefits.

NOTE 2 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

In May 2009, the FASB issued an accounting standard on subsequent events, which was codified into ASC 855, to provide general standards of accounting for and disclosures of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In September 2009, the FASB issued an accounting standard to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in this standard update for the reporting period ended December 31, 2009 and utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. The adoption of this standard update did not have a material effect on the Plan's Net Assets Available for Benefits or its Changes in Net Assets Available for Benefits.

In January 2010, the FASB issued an accounting standard that requires entities to disclose additional information regarding assets and liabilities that are transferred between levels of the fair value hierarchy and to present information about purchases, sales, issuances and settlements on a gross basis in the reconciliation of fair value measurements using significant unobservable inputs ("Level 3 Reconciliation"). Additionally, the standard clarifies existing guidance regarding the level of disaggregation of fair value measurements and disclosures regarding the valuation techniques and inputs utilized in estimating Level 2 and Level 3 fair value measurements. This guidance is effective for reporting periods beginning after December 15, 2010 except for the disclosures regarding purchases, sales, issuances and settlements in the Level 3 Reconciliation, which will be effective for reporting periods beginning after December 15, 2011. The Plan is evaluating the possible effect of this standard on the Plan's financial statements.

Subsequent Events

Management evaluated subsequent events through October 13, 2010, the date the financial Statements were available to be issued.

NOTE 3 PLAN TERMINATION

Except as limited by plan terms, any Plan may be terminated at any time by action of the Board of Directors of the sponsoring Companies. All hourly and union plans are subject to the terms of their respective collective bargaining agreements. Upon termination of any Plan, distribution of the assets to provide for pension benefits will be made in the following order:

- (A) To provide for payment of pensions which were being paid to retired employees or beneficiaries on the date three years prior to the date of termination, and for employees or beneficiaries which would have been receiving benefits three years prior to the date of termination if the employee had retired prior to such earlier date and if the employee's pension had commenced as of the beginning of such three-year period.
- (B) To provide for that portion of the pensions, this is guaranteed by the Pension Benefit Guaranty Corporation.
- (C) To provide for pensions to the extent that they are non-forfeitable.
- (D) To provide for pensions accrued as of the date of termination.

To the extent that Net Assets Available for Benefits exceed the amounts described above, such excess will be allocated among participants or their beneficiaries or returned to the Companies pursuant to the priorities set forth in the Plan Document.

NOTE 4 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future payments that are attributable under the Plans' provisions to the service employees have rendered to date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated vested employees or their beneficiaries, (b) present employees or their beneficiaries.

The Plans' actuaries determine the actuarial present value of accumulated Plan benefits by applying actuarial assumptions to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The actuarial present value of accumulated Plan benefit information as of January 1, 2009, and changes in the actuarial present value of accumulated Plan benefits for the year ended December 31, 2008, is presented on pages 36 and 37.

NOTE 4 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS *(continued)*

The significant actuarial assumptions used in the valuations as of January 1, 2009 and 2008, for the actuarial present value of accumulated plan benefits are as follows:

- (A) The present values were based on a 6.75% discount rate for 2009 and a 6.5% discount rate for 2008.
- (B) The assumed retirement age is based on rates of retirement which are based on past experience and expectations of future retirements.
- (C) The mortality tables used for the January 1, 2009 present values are as follows:
 - Healthy lives- The RP-2000 Combined Healthy Mortality Table projected to 2009 using Scale AA.
 - Disabled lives- The RP-2000 Disabled Retiree Mortality Table.
- (D) The mortality tables used for the January 1, 2008 present values are as follows:
 - Healthy lives- The RP-2000 Combined Healthy Mortality Table for healthy lives.
 - Disabled lives- The RP-2000 Disabled Retiree Mortality Table for disabled lives.

These actuarial assumptions are based on the assumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 5 INVESTMENT IN MASTER TRUST

Master Trust

The Master Trust holds both defined benefit and defined contribution assets. Assets in the Master Trust are either pooled between defined benefit plans and defined contribution plans or specific to defined benefit plans.

On a monthly basis, investments, investment income and expenses are allocated to the Plans in accordance with their proportionate interest in the Master Trust.

The total fair value of the Master Trust at December 31, 2009 and 2008 was approximately \$28 billion and \$27 billion respectively. Of these total Master Trust assets, approximately \$1.3 billion and \$674 million, respectively, are specific to the defined contribution plans, for which separate financial statements are prepared.

Valuation of Investments

Investments in securities traded on national and foreign securities exchanges are valued by the Trustee at the last reported sale prices on the last business day of the year or, if no sales were reported on that date, at the last reported bid prices. Over-the-counter securities, government obligations, corporate bonds and international bonds, are valued at the bid prices or the average of the bid and ask prices on the last business day of the year from published sources or, if not available, from other sources considered reliable such as multiple broker quotes. Commingled funds not traded on national exchanges are priced by the Trustee based on statements received from the investment manager. Commingled funds held by third-party custodians appointed by the fund managers are priced by the respective custodian or fund administrator. The fund's custodian provides the investment manager with a net asset value and the investment manager has the responsibility for providing this information to the custodian of the respective plan. Commingled funds are classified by the asset class of the underlying holdings.

NOTE 5 INVESTMENT IN MASTER TRUST *(continued)*

The following table summarizes redemption restrictions for investments of the Trust for which fair value is estimated using net asset value per share:

<u>Asset Type</u>	<u>Unfunded Commitments</u>	<u>Liquidation Period</u>	<u>Redemption Frequency</u>	<u>Redemption Notice</u>	<u>Redemption Restrictions</u>
<u>Commingled funds</u>					
U.S. equity securities	Not applicable	Daily	Daily	None	None
International equity securities	Not applicable	Twice a month	Twice a month	Trade date less 2	None
U.S. fixed income securities	Not applicable	Daily	Daily	None	None
International fixed income securities	Not applicable	Daily	Daily	None	None
Other commingled funds	Not applicable	Daily	Daily	None	None
Hedge Funds	None	1 year	Quarterly	30-90 days	None

The general partner of the entity values venture capital, corporate finance, and natural resource limited partnership investments. Real estate investments are valued at amounts based upon appraisal reports prepared by independent real estate appraisers. Loans secured by mortgages are carried at the lesser of the unpaid balance or appraised value of the underlying properties. The values assigned to these investments are based upon available information and do not necessarily represent amounts which might ultimately be realized. Because of the inherent uncertainty of valuation, those estimated fair values might differ significantly from the values that would have been used had a ready market for the securities existed. These differences could be material.

Forward currency contracts, futures, and options are valued by the Trustee at the exchange rates and market prices prevailing on the last business day of the year. Both exchange rates and market prices are readily available from published sources. These securities are classified by the asset class of the underlying holdings.

Hedge funds are recorded by the Trustee based on statements received from the investment manager. These funds are priced in accordance with the terms of their corresponding offering or private placement memoranda.

NOTE 6 DERIVATIVE FINANCIAL INSTRUMENTS AND OFF-BALANCE SHEET RISK ANALYSIS *(continued)*

Verizon Investment Management Corp. (“VIMCO”), the fiduciary that oversees the investment of the plans, has established a control environment, which includes policies and procedures for risk assessment and the approval, reporting, and monitoring of derivative financial instrument (“derivatives”) activity.

For the years ended December 31, 2009 and 2008, the Master Trust utilized both internal and external investment managers to invest in derivatives. The derivative transactions of the Master Trust include financial futures, options, foreign currency forwards, and securities lending agreements.

The fair value of the Master Trust’s net receivables in futures contracts approximated \$2.1 billion and \$2.6 billion at December 31, 2009 and 2008, respectively. These receivables represented 7.7% and 9.9% of the net assets of the Master Trust at December 31, 2009 and 2008, respectively. The following table presents open futures contracts at December 31, 2009 (in thousands):

The fair value of the Master Trust's investment in options contracts was approximately \$8 million net payable and \$227 million net receivable at December 31, 2009 and December 31, 2008, respectively. Both balances represent less than 1% of the net assets of the Master Trust for both years.

The fair value of the Master Trust's investment in swaps was approximately \$2 million and \$117 million at December 31, 2009 and 2008, respectively. Both values represent less than 1% of the net assets of the Master Trust for both years.

Also, at December 31, 2009 and 2008, the fair value of the Master Trust's net investment in foreign currency forward contracts was a \$28 million net receivable and a \$21 million net payable, respectively. These amounts represented less than 1% of the net assets of the Master Trust at December 31, 2009 and 2008.

For the year ended December 31, 2009, the net-trading gain related to the derivatives allocated to the Plans was \$183 million. For the year ended December 31, 2008, the net trading loss related to the derivatives allocated to the Plans was \$1.1 billion. These net-trading gains and losses represented 1% and 4% of the net assets of the Master Trust at December 31, 2009 and 2008, respectively.

NOTE 7 SECURITIES LENDING

For the years ended December 31, 2009 and 2008, the Master Trust maintained a Securities Lending Agreement (the "Agreement") with the Trustee. The Agreement, dated as of March 2, 2000, includes domestic and international securities.

Securities on loan at December 31, 2009 and 2008, approximated \$1.4 billion and \$1.6 billion, or 5.2% and 5.9%, of the net assets of the Master Trust, respectively.

The Master Trust's exposure to credit loss is reduced as the Agreement provides full indemnity against broker default by the Trustee. In addition, the Agreement requires collateral from the borrowing brokers of an amount equal to 102% and 105% of the fair value of the securities loaned for loans of US securities and non-US securities, respectively. The collateral primarily consists of cash, which was invested in financial instruments that did not utilize derivatives as an investment vehicle.

For the years ended December 31, 2009 and 2008, the Master Trust's net earnings derived from the Agreement were approximately \$10 million and \$8 million, respectively.

NOTE 8 TAX STATUS

The Plans have received determination letters from the Internal Revenue Service stating that the Plans are qualified under Section 401(a) of the Internal Revenue Code (the "Code") and therefore the related trust is exempt from taxation. Once qualified, the Plans are required to operate in conformity with the Code to maintain their qualification. The Plan Administrator believes the Plans are being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plans are qualified and the related trust is tax-exempt.

NOTE 9 RELATED PARTY TRANSACTIONS

VIMCO, an indirect, wholly owned subsidiary of Verizon Communications Inc., qualifies as a related party. VIMCO is the investment advisor for certain investment funds and received no compensation from the Plans other than reimbursement of certain expenses directly attributable to its investment advisory and investment management services rendered to the Plans. Verizon Communications Inc., or one of its subsidiaries, (collectively "Verizon") is the sponsor of the Trust and one or more of the plans whose assets are held in the Trust.

NOTE 9 **RELATED PARTY TRANSACTIONS** *(continued)*

Verizon employs the Plan Administrator of the various plans and members of the Plan Administrator's staff. Verizon received no compensation from the Plans other than reimbursement of certain expenses directly attributable to administrative services rendered to the Plans. In addition, The Bank of New York Mellon, as Trustee of the Trust, rendered various trustee services to the Trust for which it was compensated in accordance with its agreements with Verizon and VIMCO. VIMCO, Verizon and The Bank of New York Mellon are all parties in interest (as that term is defined by ERISA) to the Trust and the plans whose assets are held in the Trust. All of the related party transactions described in this section are exempt from the prohibited transaction rules pursuant to statutory or administrative exemptions.

NOTE 10 **RISKS AND UNCERTAINTIES**

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits and footnotes.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 11 **COMMITMENTS**

The Master Trust has outstanding investment commitments whereby the Master Trust has pledged private equity capital contributions of \$3.6 billion and \$3.5 billion as of December 31, 2009 and 2008, respectively. The Master Trust has pledged real estate contributions of \$1.3 billion at both December 31, 2009 and 2008. Historically, pledged contributions are subject to drawdown over the term of the investment (generally 10 years). However, drawdowns could occur more rapidly on the basis of demonstrated need by the partnerships. Other investments held by the Master Trust will be liquidated to meet these capital commitments.

NOTE 12 LITIGATION

Certain plans are subject to litigation in the normal course of business. At this time, the resolution of such litigation cannot be determined.

NOTE 13 SUBSEQUENT EVENTS

On July 1, 2010, Verizon spun-off wireline operations serving residential and small business customers in predominantly rural areas in fourteen states, through a Verizon subsidiary holding defined assets and liabilities of these operations and subsequently merged this subsidiary with Frontier Communications Corporation ("Frontier"). As a result of the spin-off and merger, approximately \$550 million will be transferred from the plans listed below to new plan(s) sponsored by Frontier. This amount will be adjusted for gains and losses attributed to their relative benchmarks from July 1, 2010 to the date of transfer.

The initial transfers were as follows (in thousands):

<u>Verizon Plan</u>	<u>Transfer Amount</u>
California Hourly	\$ 2,750
Florida Hourly	60
Illinois Hourly	40,379
Michigan Hourly	40,453
Northwest Hourly	109,327

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age.

5.00% per year for ages less than 40, and 3.50% per year for ages 40 and over.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, expected earnings, and asset transfers. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under Section 430(h)(2)(C)(iii).

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC Section 415 maximum benefit of \$195,000 and the Section 401(a)(17) compensation limit of \$245,000.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	September 1, 1929. Most recently amended December 2008.
Participation	Date of hire for all regular, hourly-paid employees.
Normal Retirement Eligibility	The later of age 65 or the fifth anniversary of the date of hire.
Amount	The benefit determined under (1) or (2), whichever is applicable. (1) For employees who are not former Contel employees, the greater of (a) or (b): (a) 1.35% of Average Annual Compensation times Accredited Service. (b) Minimum benefit shown in Table A based on years of Accredited Service and the hourly plan applicable to the employee. (2) For former Contel employees, the greater of (a) or (b): (a) The benefit calculated under the Contel pension plan as of the date of transfer to the GTE hourly plan. plus The benefit equal to 1.35% of Average Annual Compensation times Accredited Service measured from the date of transfer to the GTE hourly plan (subject to the minimum benefit from Table A based on service from the date of transfer to the GTE hourly plan). (b) The benefit described in (1) above (including the minimum), using Accredited Service under the Contel pension plan plus Accredited Service under the GTE hourly pension plan. The pension determined under (1) or (2) above is offset by the annual amount payable from any other pension plan to which the company (or any other member of the controlled group) has contributed, but only to the extent that the benefit is attributable to employer contributions.

Early Retirement
Eligibility

Employees are eligible for early retirement after attaining:

- (1) At least 15 years of Accredited Service and age plus Accredited Service (both unrounded) equal to or greater than 76 (Rule of 76), or
- (2) At least 30 years of Accredited Service (regardless of age).

Amount

The benefit is computed in the same manner as the normal retirement benefit, but based on Average Annual Compensation and Accredited Service at termination of employment.

- (1) For employees who are not former Contel employees, the pay-related benefit is reduced 3% for each year retirement precedes age 55, up to a maximum reduction of 18%. There is no reduction if the participant has 30 years of Accredited Service.

Early retirement reductions, if applicable, are applied to the pay-related formula prior to comparing to the minimum benefit shown in Table A.

- (2) For former Contel employees, the benefit accrued under the Contel formula is reduced 4% for each year retirement precedes age 60. The benefit accrued under the GTE formula is reduced as described in (1) above.

Deferred Vested Retirement
Eligibility

Five years of Vesting Service.

Amount

The benefit is computed in the same manner as the normal retirement benefit, but based on Average Annual Compensation and Accredited Service at termination of employment.

The minimum benefit for a deferred vested participant is equal to the applicable benefit from Table A based on Accredited Service projected to normal retirement then multiplied by the ratio of Vesting Service at termination of employment to projected Vesting Service at normal retirement. There is no minimum benefit for a deferred vested participant with less than 15 years of projected Accredited Service.

EIN: 95-0510200 PN: 001

Participants with at least 15 years of Accredited Service at termination of employment may commence an actuarially reduced benefit as early as the date the Rule of 76 is met. Participants with at least ten years of Accredited Service at termination of employment may commence an actuarially reduced benefit as early as age 55.

Disability Retirement
Eligibility

15 years of Accredited Service and total and permanent disability.

Amount

The benefit is computed in the same manner as the normal retirement benefit, but based on Average Annual Compensation and Accredited Service at disability. There is no reduction for benefit commencement prior to normal retirement.

Preretirement Survivor's Benefit
Eligibility

Five years of Vesting Service.

Amount

The benefit that would have been payable had the participant been eligible for a service pension and terminated employment on the date of death, elected the 65% joint and survivor annuity and then died. There is no reduction for early commencement if the participant died while an active employee. Otherwise, the benefit is reduced under the provisions of the deferred vested retirement benefit.

Forms of Payment
Normal Form

If married: A reduced benefit in the form of a 50% joint and survivor annuity with the spouse as contingent annuitant.

If single: A life annuity.

Optional Forms

- Single life annuity.
- 100% joint and survivor annuity.
- 75% joint and survivor annuity.
- 66-2/3% joint and survivor annuity.
- 50% joint and survivor annuity.
- 33-1/3% joint and survivor annuity.
- 5-year certain and life.

Definitions

Monthly Compensation

Monthly base rate of pay. Monthly Compensation excludes overtime, differentials, premiums, and other similar types of payment, but includes bonuses and commissions on account of sales and team-oriented short-term incentives as specified by the employee benefits committee.

Average Annual Compensation

Monthly Compensation during the highest 60 consecutive months divided by five. If less than 60 months of Monthly Compensation, the average is based on the number of months available.

Accredited Service

One year for each calendar year the employee is credited with 2,080 hours. If the employee is credited with less than 2,080 hours during a calendar year, Accredited Service for the year is equal to the number of hours credited during the year divided by 2,080. For employees with in-service distributions, Accredited Service begins on the later of January 1, 2000 or the distribution election date.

Vesting Service

One year for each calendar year the employee is credited with 1,000 hours. If the employee is credited with less than 1,000 hours during a calendar year, Vesting Service for the year is equal to the number of hours credited during the year divided by 2,080.

Special Benefit Provisions

Retention Bonus

Eligibility

Designated fGTE participants who remained employed throughout the Retention Bonus Period (April 1, 1999 through September 30, 2000)

Benefit Amount

An additional lump sum equal to 2% of the total monthly compensation for the 12-month period ending on the date the participant separates from service times the number of full calendar months (up to 18) worked during the Retention Bonus Period.

In-Service Distribution

Active participants age 55 or older who satisfied the Rule of 76 (76 age/service points with 15 years service) on January 1, 2000 are eligible to elect an in-service distribution. The pension payable at subsequent retirement will be based on service after the election date.

The actuarial valuation was conducted on an ongoing (not termination) basis using personnel data furnished as of January 1, 2009 by Verizon Communications Inc. Asset information and the dates and amounts of contributions are based on information supplied by Verizon Communications Inc.

Schedule SB, line 25—Change in Funding Method

- An asset method change was made to compute the Value of Plan Assets on a two-year smoothing basis rather than market value basis.
- A change in interest rate basis was made from the 24-month average segment rates (without lookback) to the full yield curve with a two-month lookback (October rates).
- The Target Normal Cost now includes an estimate for administrative expenses paid by the plan. This estimate is approximately equal to 2008 expenses adjusted for the change in PBGC premiums from 2008 to 2009.

These changes have automatic approval under final regulations, Notice 2009-22 or other IRS guidance.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
