NOTE 1 DESCRIPTION OF PLAN

The following description of the JAL Chemical Company, Inc. 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective October 1, 2004. The Plan has been amended throughout the years to comply with tax legislation and most recently amended effective January 1, 2008. All employees of JAL Chemical Company, Inc. (Employer) are eligible to participate in the Plan after attaining the age of 18 and completing one year of service and 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code. Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax 401(k) contributions to the Plan. Participants age 50 or older are allowed to make catch-up contributions.

The Employer may, at its discretion, elect to make a qualified matching contribution or profit sharing contribution to the Plan. The Employer has elected to make qualified matching contributions under a Safe Harbor 401(k) Plan arrangement. The Employer matching contribution for 2009 and 2008 was 100% of the first 4% of the participants' eligible compensation. There were no Employer profit sharing contributions for the years ended December 31, 2009 and 2008.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans or conduit IRA's.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. Income is allocated daily based on the shares in the participant's account.

Vesting

Participants are fully vested immediately for Employer matching contributions, Employer profit sharing contributions and their deferral contributions.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon retirement, death, disability, or resignation of a participant, or upon termination of the Plan, a participant or beneficiary may elect to receive a distribution under one of the following methods: (a) lump sum or (b) periodic installment payments. In-service withdrawals of employee contributions for reasons of hardship (as defined in the Plan agreement) or attaining age 59½ are allowed. A hardship withdrawal results in a suspension of employee contributions to the Plan for six months. If a participant terminates employment and the participant's account balance does not exceed $1,000, the Plan Administrator will authorize the benefit payment without the participant's consent.

Forfeitures

Forfeited non-vested accounts are used to reduce future Employer contributions. Forfeitures consist of erroneous Employer contributions made to the plan during 2007 and 2006. Forfeited non-vested accounts as of December 31, 2009 and 2008 totaled $0 and $24,475, respectively. There were $24,475 and $0 of forfeitures used to reduce Employer contributions for the years ended December 31, 2009 and 2008, respectively.

Participant Loans

Participants may borrow from their accounts up to the lesser of $50,000, as reduced by the participant's highest outstanding Plan loan balances during the year proceeding the date of the loan, or 50% of their vested account balance. Loan terms range from one to five years for general purpose loans and a maximum of 30 years for the purchase of a primary residence. The loans are secured by the participant's account and bear interest at rates ranging from 5.25% to 9.75%. Principal and interest are paid primarily through payroll deductions on at least a quarterly basis. Interest paid by the participant is credited to the participant's account.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2009 and 2008.

Fair Value Measurements

During 2009, Financial Accounting Standards Board (FASB) released guidance that requires disclosures to include the nature of any restrictions on the ability to redeem certain investments at the measurement date, any unfunded commitments, and the investment strategies of the investees effective for fiscal years ending after December 15, 2009. See Note 3 for more information.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Mutual funds represent investments with various investment managers. The fair values of mutual funds are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value. The collective fund represents investments with various investment managers. The respective fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Participant loans are valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

For the years ended December 31, 2009 and 2008, substantially all administrative expenses of the Plan were paid by the Employer on behalf of the Plan.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions, for potential recognition or disclosure through September 16, 2010, the date the financial statements were issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

JP Morgan Chase Bank, the trustee of the Plan, has supplied the Plan Administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2009.

The Ready Asset Trust Funds objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the Fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. However, there is no assurance that this objective can be achieved.

NOTE 7 TAX STATUS

The Plan is operating under a prototype plan designed by the Trustee. The Trustee has received a determination letter from the Internal Revenue Service dated November 6, 2001, which indicates that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the Trustee received the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer reserves the right to amend, suspend, or discontinue the Plan in whole or in part at any time, subject to the provisions of ERISA.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan provides for investment in a variety of investment funds. In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
