NOTES TO FINANCIAL STATEMENTS

Note 1 - DESCRIPTION OF THE PLAN

The following description of The Towbes Group Salary Savings Plan (the "Plan") is provided for general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of The Towbes Group Inc. and Montecito Bank & Trust ("the Employers") who have completed three months of credited service (250 hours) and are age twenty-one or older. Effective December 15, 2006, new employees are eligible for immediate participation in the Plan. Employees are eligible for matching contributions when they have one year (1,000 hours) of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute 100% of their annual pretax wages up to the amount as defined in the Plan.

The Employers will contribute annually a 100% match of the employee's contribution not to exceed 5% of the employee's eligible salary. Additional amounts may be contributed at the option of the Employers' board of directors.

Investments

Investments are held in participant-directed Fidelity Management Trust Company (Fidelity) investment funds. The participants select the percentage of contributions to be allocated to each investment option. Participants' contributions are withheld from their paychecks and remitted to Fidelity. The participants' accounts are credited with the actual earnings on the underlying investments and are charged for Plan withdrawals by Fidelity. Earnings on investments include interest income, realized and unrealized gains and losses, and dividends from pooled separate accounts. The pooled separate accounts as reported by Fidelity are included in the statements of net assets available for benefits at December 31, 2009 and 2008, at fair value.

Participant Accounts

Each participant's account is credited with the participant's contributions and distributions, and an allocation of the Employers' contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and earnings. Employer contributions and earnings are vested over a six-year period as follows: 20% after two years of service, an additional 20% for each year of service thereafter, with 100% vesting after six years of service.

Payment of Benefits

Benefits are recorded when paid. On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account, or annual installments over a time period designated by the participant.

Note 1 - DESCRIPTION OF THE PLAN (continued)

Forfeited Accounts

Forfeited accounts will be used to reduce future employer contributions. For the year ended December 31, 2009, forfeitures totaled $20,706.

Death Benefits and Disability

Upon the death or disability of a participant before retirement or termination of employment, the current balance of the participant's individual account becomes fully vested and will be paid to his designated beneficiary in either a lump sum or installment payments, as chosen by the beneficiary.

Loans to Participants

Participants in the Plan may borrow up to 50% of their vested account balance (with a minimum of $1,000 and a maximum of $50,000). Loan transactions are treated as transfers between the investment fund and the loan fund. Monthly repayments are automatically deducted from the participant's wages. Loan terms range from one to five years, or greater than five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a fixed rate of prime plus 2%.

Note 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America. In accordance with generally accepted accounting principals, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Mutual funds are stated at fair value as determined by quoted market prices, which represents the net asset value of shares held by the Plan at year end. The Plan's interest in the collective trust is based on the fair value of the collective trust's underlying investments as based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end. Participant loans are valued at cost which approximates fair value.

Note 3 - INVESTMENTS

The following are investments that represent 5% or more of the Plan's beginning of the year net assets available for benefits:

	2009
Fidelity Investment Contract (Note 9)	$ 2,224,240
JP Morgan Equity Index A	699,076
Oppenheimer Global A	942,778
Oppenheimer Developing Markets	654,895
PIMCO Total Return	638,961
Fidelity Diversified International	667,280
Oppenheimer Value A	1,178,643
Fidelity Freedom 2020	557,063
Fidelity New Insights	1,432,135
Fidelity Mid Cap II	950,689

	2008
Fidelity Investment Contract (Note 9)	$ 2,140,878
Fidelity New Insights	1,222,706
Oppenheimer Value A	945,698

Note 4 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplementary schedule is complete and accurate.

Note 5 - PLAN EXPENSES

Accounting and administrative expenses incurred in the administration of the plan are paid by the Employers and are not allocated to individual participant accounts.

Note 6 - EXCESS PARTICIPANT CONTRIBUTIONS REFUNDABLE

At December 31, 2009, excess contributions amounting to $3,041 are recorded as a liability in the accompanying statement of net assets available for benefits and as a reduction of participant contributions for the year. The Plan reimbursed these excess contributions to its participants in March, 2010.

Note 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employers have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - TAX STATUS

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan obtained its latest determination letter on January 17, 1995, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter, however, the Plan's administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in accordance with the applicable requirements of the Internal Revenue Code.

The Plan evaluates uncertain tax positions, whereby the effect of the uncertainty would be recorded if the outcome was considered probable and reasonably estimable. As of December 31, 2009, the Foundation had no uncertain tax positions requiring accrual.

The Plan files tax returns in California and U.S. federal jurisdictions. The Foundation is no longer subject to U.S. federal, state and local tax examinations by tax authorities for years before 2006.

Note 9 - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

Prior to 2005, the Plan entered into a benefit-responsive investment contract with Fidelity. Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield was 2.70% and the crediting interest rate was 1.35% for the year ended December 31, 2009. The issuer resets the crediting interest rate annually. The minimum guaranteed interest rate varies for each contract year and may be modified by the custodian prior to the renewal date of the contract upon occurrence of specific events as provided in the contract. The interest crediting rate is calculated semi-annually based upon many factors, including estimated future earnings rate, that rate at which investments mature and future cash flows.

Note 10 - PARTY-IN-INTEREST TRANSACTIONS

Fidelity Management Trust Company is a party-in-interest with respect to the Plan. The records of the Plan indicate no party-in-interest transactions which are prohibited by ERISA Section 406 and for which no statutory or administrative exemption exists.

Note 11 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priory to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1	Inputs that reflect unadjusted quoted prices in active markets for identical assets accessible at the measurement date;
Level 2	Inputs other than quoted prices that are observable for the asset either directly or indirectly, including inputs in markets that are not considered to be active;
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for asset measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds	Valued at the net asset value of shared held by the Plan at year end.
Common Stocks	Valued at the closing price reported on the active market on which the individual securities are traded.
Guaranteed Investment Contract	Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer.
Participant Loans	Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value of reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 11 - FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level within the fair value hierarchy the Plan's assets at fair values as of December 31, 2009:

Note 12 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits .
