SEALED AIR CORPORATION 401(K) THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following brief description of the Sealed Air Corporation 401(k) Thrift Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering certain employees of Sealed Air Corporation (the "Company") and certain participating subsidiaries. Eligible employees include all full-time and part-time employees who are normally scheduled to work 32 or more hours per week, except those who are covered by certain bargaining agreements, certain nonresident aliens, leased employees or independent contractors, temporary or part-time employees who are scheduled to work less than 1,000 hours in any 12 month period, and employees working at specific divisions, departments, or other business units of the Company that are not covered by the Plan. An employee becomes eligible to participate in the Plan on the first day of employment, however, a participant must complete 6 months of service in order to receive matching contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may contribute from 2% to 20% of their annual compensation, as defined in the Plan. Participant contributions may be made on a before-tax basis by salary reduction, on an after-tax basis, or in a combination of before-tax and after-tax basis. Newly hired employees are automatically enrolled at an employee contribution rate of 3% on a pre-tax basis unless the participant elects otherwise. If a participant does not elect an investment, contributions are deposited into the Fidelity Freedom Fund which most closely corresponds with the participant's retirement date. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company will make matching contributions equal to 100% of each participant's contributions up to a maximum of 2% of each participant's compensation, and an amount equal to 25% of each participant's contributions up to the next 5% of each participant's compensation, as defined. Certain participants are covered by collective bargaining agreements that do not provide for the Company's matching contributions. Contributions are subject to certain limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

SEALED AIR CORPORATION 401(K) THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan (concluded):

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested upon the earliest of the employee's attainment of age 60, disability, death or completion of 24 months of credited service.

Participant loans:

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 11.5%, which are commensurate with local prevailing rates as determined quarterly by the Plan sponsor. Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

Upon termination of employment, as defined, or at certain later times provided for in the Plan, a participant may elect to receive either a lump sum cash payment equal to the value of the participant's vested interest in his or her account, or in the form of monthly, quarterly or annual cash installment payments. When being paid a lump sum, participants with an account balance that has an investment in the Sealed Air Common Stock Fund, participants may only elect to receive the investment distributed in whole shares of Sealed Air Corporation common stock rather than cash.

Forfeited accounts:

At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$130,287 and \$77,141, respectively. Also, in 2009, employer contributions were reduced by \$6,411 from forfeited nonvested accounts.

Note 2 - Summary of accounting policies:

Basis of accounting:

The accompanying financial statements are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

SEALED AIR CORPORATION 401(K) THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of accounting policies (concluded):

Basis of accounting (concluded):

The Plan invests in investment contracts through The Sealed Air Corporation Master Trust ("Master Trust"). The statement of net assets available for benefits presents the fair value of the investment in the Master Trust as well as the adjustment of the investment in the Master Trust from fair value to contract value relating to investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Valuation of investments and income recognition:

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investments held by the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Subsequent events:

The Plan has evaluated subsequent events through October 15, 2010, the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Note 3 - Interest in Master Trust:

A portion of the Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and the Profit-Sharing Plan of Sealed Air Corporation. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Fidelity Management Trust Company ("Fidelity"). At December 31, 2009 and 2008, the Plan's interest in the net assets of the Master Trust was approximately 63.7% and 65.4%, respectively. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the Plan based upon the monthly balances invested by each plan.

The following table presents the investments of the Master Trust:

	<u>2009</u>	<u>2008</u>
Investments at fair value:		
Mutual funds	\$400,179,407	\$299,994,830

Note 4 - Fair value measurements:

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements (continued):

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Master Trust has the ability to access.

Level 2: Inputs to valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stock is valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds are valued at the net asset value of shares held by the Master Trust at year end.

Common/collective trusts are valued based on information reported by the investment advisor using the audited financial statements of the common/collective trust at year end. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Note 4 - Fair value measurements (continued):

Participant loans are valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes by level, within the fair value hierarchy, the financial assets of the Master Trust at fair value as of December 31, 2009:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
