NOTE 1 - DESCRIPTION OF PLAN

The following description of the Ellcon National, Inc. (the "Company") 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed one year of service and have reached the age of twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 100 percent of their eligible compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into various investment options. The Plan permits the Company to contribute a discretionary matching amount for a plan year as determined by the Plan's retirement committee each year. The Company discontinued the discretionary match amount as of March 15, 2009. In addition, the Company may also make a discretionary profit sharing contribution each year for all eligible personnel employed by the Company. No profit sharing contributions were made in 2009. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant accounts

Each participant's account is credited with the participant's and Company contributions and allocations of plan earnings, and charged with distributions and allocations of administrative expenses. Allocations are based on participant contributions or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 20 percent vested after two years of service and an additional 20 percent vested for each year of service thereafter. A participant is fully vested after six years of credited service.

Participant loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at the prime lending rate plus 1 percent. Interest rates range from 4.25 percent to 9.25 percent. Principal and interest is paid ratably through periodic payroll deductions.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN, Continued

Payment of benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant with an account balance in excess of $1,000 may elect to receive the value of the vested interest in his or her account as a lump-sum payment, combination of lump-sum and installment payments, or installment payments. Participants with vested account balances less than $1,000 may only receive a lump-sum payment. For termination of service for other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution. Active employees may withdraw vested funds subject to certain withdrawal rules as defined in the Plan.

Forfeited accounts

If a participant terminates employment prior to becoming fully vested, the nonvested portion of the participant's account is forfeited. Forfeited non-vested accounts will be used to reduce future employer matching contributions and nonelective contributions. At December 31, 2009 and 2008, forfeited non-vested accounts totaled approximately $5,000 and $10,000, respectively. During the year ended December 31, 2009, the company used approximately $5,000 of forfeited non-vested accounts to reduce employer contributions.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES AND ACTIVITIES

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES AND ACTIVITIES, Continued

Investment valuation and income recognition

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2009-12).* ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 5 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

Administrative expenses

Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the Plan document.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through October 12, 2010, the date the financial statements were available to be issued.

NOTE 3 - TRUSTEE CERTIFICATIONS

Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by ING Insurance and Annuity Company ("ING"), the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule:

NOTE 5 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value ("NAV") of units held by the Plan at year-end.

ING Fixed Account: Valued at fair value which is the amount plan participants would receive currently if they were to withdraw or transfer funds prior to their maturity. The guaranteed interest contracts are recorded at fair value since the contracts are not fully benefit responsive.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 - RELATED PARTY TRANSACTIONS

Certain Plan investments are units of pooled separate accounts managed by ING. ING is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for transaction fees amounted to $1,505 for the year ended December 31, 2009.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 7 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan provides an investment option to invest in a non benefit-responsive guaranteed interest account with ING. ING maintains the contributions in a general account. The account is credited with a guaranteed and fixed rate of return. The guaranteed interest account is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan by ING.

Since the guaranteed interest account is non benefit-responsive, fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest account.

The guaranteed interest account promises contract value for a benefit event, such as a termination, death, disability or retirement. However, there is a market value adjustment, which is also called a surrender charge, when funds are withdrawn prior to their maturity or for a non-benefit event, such as a withdrawal from the account for a change in investment option.

The guaranteed interest account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield of the guaranteed interest account was 3.2% for 2009.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

NOTE 9 - TAX STATUS

The Plan adopted a prototype plan document which received a favorable opinion letter dated November 7, 2001, in which the Internal Revenue Service stated that the prototype plan document, as then designed, was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has since been amended, the plan administrator and the Plan's trustee believe that the Plan is designed and being operated in compliance with current applicable requirements of the IRC.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 - EXCESS CONTRIBUTIONS

Excess contributions payable represent excess contributions of $7,060 and $9,440 as of December 31, 2009 and 2008, respectively, which were refunded to certain active participants to satisfy the relevant nondiscrimination provision of the Plan.
