Independent Auditors' Report

To the Retirement Committee
Graphic Packaging Retirement Plan
Marietta, Georgia

We were engaged to audit the financial statements of Graphic Packaging Retirement Plan (the "Plan") as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

A. PLAN DESCRIPTION

The following description of the Graphic Packaging Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more information.

General. The Plan was established in connection with the spin-off of Graphic Packaging International, Inc. from Adolph Coors Company. The Plan is a defined benefit pension plan covering all eligible employees at Graphic Packaging International, Inc. and its subsidiaries (collectively the "Company"). Certain participants are subject to minimum service requirements, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2009, the Plan was restated to incorporate all prior amendments.

Funding Policy. The Company's funding policy is to make contributions to the Plan in amounts sufficient to provide for the participants' benefits and to satisfy the minimum funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2009 and 2008.

Pension Benefits. Participants are generally entitled to normal retirement benefits beginning at the age of 65 (normal retirement age). The Plan permits early retirement benefits for qualified participants who are at least age 55 and have met the early retirement eligibility requirements. Effective January 1, 2007, normal retirement benefits under the Plan for salaried and non-union hourly participants are based upon the participant's years of credited service and either average final salary (generally the highest four consecutive years of pensionable earnings in the last ten years of employment) or the benefit rate in effect at the participant's termination date. There is a flat minimum benefit of \$1,200 per year for all salaried and non-union hourly employees of the Company. Effective December 31, 2007, the Plan was closed to new salaried and non-union hourly participants hired or rehired on or after January 1, 2008. Benefits for collective bargained employees covered by the Plan are based on years of benefit service and fractions thereof multiplied by the benefit amount in effect on the date of retirement. Early retirement benefits are based upon the participant's earned benefit reduced by a certain percentage, as defined by the Plan, for each year prior to normal retirement age or age 62 for salaried and non-union hourly participants with at least 25 years of vesting service. For participants hired prior to January 1, 2007, the accrued benefit as of December 31, 2006 applies as a grandfathered minimum benefit. Effective December 31, 2007, vested North Portland union participants who did not elect to waive future participation will accrue additional benefits and non-vested North Portland union participants accrue vesting service only.

Participants may elect to receive their benefits in various forms including a single life annuity and optional forms of payment available under the Plan.

Death and Disability Benefits. If an active participant dies, a death benefit in the form of a survivor annuity representing the participant's earned benefit is paid to the participant's beneficiary. Participants covered by the collective bargaining agreement under the age of 65 who become totally disabled and who met the age and service requirements will be eligible to receive an immediate disability benefit as defined by the Plan. All other eligible participants under the age of 65 who

Notes to Financial Statements (Continued)

become totally disabled will be eligible to receive a Deferred Disability Pension as defined by the Plan.

Vesting. If employees terminate before rendering five years of service, they forfeit the right to receive benefits under the Plan.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition. Investments in the GPI Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statement of changes in net assets available for benefits an allocation of the GPI Master Trust's net income (loss) which consists of realized gains or losses, unrealized appreciation (depreciation) on investments and interest and dividend income.

Management fees and operating expenses charged to the Master Trust for investments in mutual funds and common/collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Valuation of Financial Instruments. The carrying values of the Plan's receivables and payables approximate fair value.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein and disclosures of contingent assets and liabilities. Actual results may differ from these estimates.

Risks and Uncertainties. The Plan invests in a Master Trust which invests in a combination of stocks, bonds, mutual funds, common/collective trusts and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Notes to the Financial Statements (Continued)

Payments of Benefits. Benefits are recorded when paid.

Administrative Expenses. Generally, the Plan pays for expenses incurred for plan administration. Certain other costs of the Plan have been paid by the Company.

Recent Accounting Pronouncements. In April 2009, the Financial Accounting Standards Board ("FASB") issued guidance under FASB Accounting Standards Codification (the "ASC") subtopic 820, formerly known as *FASB Staff Position ("FSP") SFAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This ASC emphasizes that even if there has been a significant decrease in the volume and level of activity for the asset or liability and regardless of the valuation technique(s) used, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. This guidance was adopted by the Plan during 2009 and did not have an impact on the financial statements.

In June 2009, the FASB issued guidance under ASC 105, *Generally Accepted Accounting Principles*, which was formerly referred to as *FASB Statement of Financial Accounting Standards No. 168, FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – A Replacement of FASB Statement No. 162*. This guidance establishes the FASB ASC as the source of authoritative U.S. generally accepted accounting principles ("GAAP") for nongovernmental entities. The ASC supersedes all existing non-SEC accounting and reporting standards. Rules and interpretive releases of the SEC under authority of federal security laws remain authoritative GAAP for SEC registrants. The guidance and the ASC did not change existing GAAP; the adoption did not have an impact on the financial statements.

During 2009, the Plan adopted FASB Statement No. 165, *Subsequent Events*, or ASC 855, which was issued in May 2009 and is effective for fiscal years and interim periods ending after June 15, 2009. ASC 855 requires evaluation of subsequent events through the date of financial statement issuance. On February 24, 2010, the FASB issued ASC Update 2010-09 to amend ASC 855, *Subsequent Events*. As of result of the ASU, Security & Exchange Commission ("SEC") registrants are not required to disclose the date through which management evaluated subsequent events in the financial statements, either in originally issued financial statements reissued financial statements. This change addresses practice issues for SEC registrants with respect to processes around issuing financial statements and SEC registration requirements. The adoption of this guidance is reflected in these financial statements.

In September 2009, the FASB issued ASC Update 2009-12, *Fair Value Measurements and Disclosures (Topic 820) – Investment in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. This update provides guidance on estimating the fair value of a Plan's investments in investment companies when the investment does not have a readily determinable fair value. It permits the use of the investment's net asset value as a practical expedient to determine fair value. This guidance also required additional disclosure of the attributes of these investments such as: (i) the nature of any restrictions on the reporting entity's ability to redeem its investment; (ii) unfunded commitments; and (iii) investment strategies of the investees. This guidance is effective for periods ending after December 15, 2009. The adoption did not have a material impact on the Plan's financial condition or results of operations and all applicable disclosures are included in these financial statements.

Notes to the Financial Statements (Continued)

In January 2010, the FASB issued ASC Update 2010-06, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements*. This guidance requires (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) disclosures by class of assets and liabilities; and (iii) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 disclosure requirements which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years. The adoption of this guidance is reflected, where applicable, throughout these financial statements.

C. INTEREST IN MASTER TRUST (UNAUDITED INFORMATION)

The Plan's investments are in the Riverwood International Corporation Master Pension Trust (the "Master Trust"). The Master Trust was established for the investment of assets of the Plan and certain assets of other retirement plans sponsored by the Company. Each participating retirement plan has an undivided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100 percent allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Master Trust.

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), the trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. Therefore, in accordance with the request of the Company and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to auditing procedures generally accepted in the United States of America by the Plan's independent public accountants.

On March 27, 2009, two other retirement plans sponsored by the Company entered into the Master Trust.

At December 31, 2009 and 2008, the assets of the Master Trust were held by the Trustee of the Plan. The Plan's interest in the net assets of the Master Trust was approximately 40% and 42% at December 31, 2009 and 2008, respectively.

D. FAIR VALUE MEASUREMENTS

In 2008, the Plan adopted ASC 820, *Fair Value Measurements and Disclosures* ("ASC 820"), formerly SFAS 157. ASC 820 established a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities inputs (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2009 and 2008.

Cash and cash equivalents: Valued at cost, which approximates fair value.

Short-term debt instruments: Value is stated at amortized cost, which approximates fair value.

Corporate debt instruments and U.S. Government securities: Values are determined on the basis of last reported sales prices, or if no sales prices are reported, based on quotes obtained from a quotation reporting system, established market makers, or pricing services.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end, based on quoted market prices.

Derivatives (futures and options): Valued daily by the exchange with daily variation margin being exchanged based on the closing price of each instrument for each day.

Common/collective trusts: The Master Trust's interest in the common/collective trusts are stated at fair value. The value is determined by the net asset value, based on the underlying investments, as

Notes to the Financial Statements (Continued)

reported by the common/collective trusts on the valuation date.

103-12 investment entities (LLCs): The Master Trust's interest in the LLCs are stated at fair value. The value is determined by the net asset value, based on the underlying investments, as reported by the LLCs on the valuation date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2009 and 2008. There were no level 3 investments as of December 31, 2009 and 2008.

E. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based upon the participant's years of service and Average Final Salary or the benefit rate in effect, as defined by the Plan, on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the most recent valuation dated December 31, 2008 were:

Discount Rate:	8.25% per year
Mortality basis - healthy lives:	RP - 2000 2009 PPA Annuitant and Non-annuitant Mortality (sex distinct)
Normal retirement age:	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The mortality tables used to determine the plan funding contributions were changed to those prescribed by the Pension Protection Act of 2006. The Medicare Part B Premium annual assumed

Notes to the Financial Statements (Continued)

increase changed from 2.0% per annum to 3.0% per annum. The effect of these changes was to increase the actuarial present value of accumulated plan benefits by \$8,483,781.

F. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. governmental agency, up to the applicable limitations discussed below.
3. All other vested benefits (vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits of the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and on the level of benefits guaranteed by the PBGC.

G. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 25, 2003, that the Plan and related trust qualifies in accordance with the applicable regulations of the Internal Revenue Code ("IRC") as a tax-exempt entity. Although the Plan has been amended since receiving favorable determination, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements. Since the January 1, 2009 restatement, the Plan has applied for a determination letter for the restated Plan.

Notes to the Financial Statements (Continued)

H. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During 2009 and 2008, the Plan incurred and accrued trustee fees of \$97,089 and \$98,093, actuary fees of \$694,749 and \$825,844, investment management fees of \$458,446 and \$534,186 and miscellaneous fees of \$12,429 and \$104,742, respectively.

Schedule SB, Part V – Summary of Plan Provisions

The Graphic Packaging Retirement Plan, as amended and restated effective 1/1/2009. The following summary describes the key plan provisions as interpreted for the valuation.

Definitions

Average Monthly Compensation	The average of the participant's pensionable earnings (limited to \$245,000 per year as indexed by law) using the 4 highest consecutive plan years in the last 10 plan years of employment. Pensionable earnings prior to January 1, 2007 shall be base pay. Pensionable earnings after December 31, 2006 are generally equal to the base pay plus annual bonuses, commissions, and overtime pay.
Covered Compensation	Covered compensation is equal to the 35-year average of the Social Security wage bases ending with the calendar year in which Participants attain Social Security retirement age.

Participation in Plan

Non Union	An Employee becomes a participant after completing one year of service while completing 1,000 or more hours. Plan participation is closed to employees hired or rehired after December 31, 2007.
Union	An Employee becomes a participant immediately. For North Portland Employees hired after 3/10/2002, an Employee becomes a participant after completing one year of service. Plan participation is closed to North Portland employees hired after December 31, 2007.

25	8.55%
30	6.75
35	5.35
40	4.65
45	4.35
50	4.05
55	3.75
60	3.65
64 and over	3.55

Social Security: The Social Security wage base is assumed to increase at a rate of 4.00% per annum.

Medicare Part B Premium: Only the standard monthly premium is reimbursed and not the salary-related premium. Medicare Part B Premium is assumed to increase 3.0% per annum.

Termination with Vested Rights: Non Union: 50% of participants terminated after 1/1/2007 are assumed to commence benefits at age 55 while all others are assumed to commence benefits at age 65.

Kalamazoo Union: 50% of terminated participants are assumed to commence benefits at age 55 and all others are assumed to commence benefits at age 62.

All Other Union: 100% of the terminating participants are assumed to commence benefits at age 65.

Form of Payment: All participants are assumed to elect the normal form of payment. The value of optional forms of payment on actuarial valuation assumptions was determined to be immaterial.

Future Expenses: Expected expenses of \$1,900,000 were added to Target Normal Cost.

Loading or Contingency Reserves: None.

Valuation Method: Traditional unit credit cost method for minimum funding. Projected unit credit cost method for maximum funding.

Asset Valuation Method: The Valuation Assets are determined using a method that spreads asset gains/(losses) over 2 years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Valuation Assets.

The expected return on plan assets is 8.25% per annum, limited by PPA to the applicable Third Segment Rate as follows:

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

2008 measurement period: 6.43%

2007 measurement period: 6.09%

Spouses' Assumption: 85% of participants are assumed to be married. Husbands are assumed to be 3 years older than their wives.

Miscellaneous: No allowance has been made for certain additional liabilities that may arise if some or all of the units of the employer are closed down. The actuarial assumptions anticipate a modest rate of future inflation. The valuation was based on participants of the Plan as of the valuation date and did not take future participants into account. No provision has been made for contingent liabilities with respect to non-vested terminated participants who may be re-employed.

Summary of Actuarial Method and Assumption Changes from the January 1, 2008 Valuation

- The interest rate used to determine the plan's funding target was changed to the November 2008 PPA full yield curve from the January 2008 PPA full yield curve.
- The mortality rates used to determine the plan funding contributions were changed to the RP-2000 2009 PPA Annuitant and Non-Annuitant Mortality Tables from the RP-2000 2008 PPA Annuitant and Non-Annuitant Mortality Tables.
- The expected expenses of \$1,900,000 were added to Target Normal Cost. No expected expenses were assumed in the prior valuation.
- The asset valuation method was changed to a two-year annual averaging method from market value with contributions receivable.
- The assumed increase in the Medicare Part B premium was changed to 3.0% per annum from 2.0% per annum.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
