INDEPENDENT AUDITORS' REPORT

To the Cameron Benefits Committee:

We were engaged to audit the financial statements and supplemental schedules of NATCO Group Profit Sharing and Savings Plan (the Plan) as of March 17, 2010 and December 31, 2009, and for the period from January 1, 2010 to March 17, 2010 and the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in note 6, which was certified by J.P. Morgan Chase Bank, N.A., the trustee, except for comparing the information with the related information included in the 2010 and 2009 financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of March 17, 2010 and December 31, 2009, and for the period from January 1, 2010 to March 17, 2010 and the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2010 and 2009 financial statements and supplemental schedules that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 and 2009 financial statements and supplemental schedules taken as a whole. The form and content of the information included in the 2010 and 2009 financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The statement of net assets available for benefits of the Plan as of December 31, 2008 was audited by other auditors, and in their report dated June 26, 2009, they expressed their opinion that such financial statement presents fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

NATCO GROUP PROFIT SHARING AND SAVINGS PLAN
Notes to Financial Statements
March 17, 2010, December 31, 2009 and 2008

(1) Merger with Cameron International Corporation

On November 18, 2009, NATCO Group, Inc. (NATCO) was acquired by Cameron International Corporation ("Cameron"), after which the sponsorship of the NATCO Group Profit Sharing and Savings Plan ("the Plan") was transferred from NATCO to Cameron. In accordance with the provisions of the Amended and Restated Agreement and Plan of Merger dated June 1, 2009 (the "Agreement"), all NATCO common stock held in participant investment accounts in the Plan was converted to Cameron common stock at an exchange ratio of 1.185 Cameron shares for each NATCO share at the time of the acquisition. For the year ended December 31, 2009, there were no changes to the benefits offered under the Plan except that after the acquisition of NATCO by Cameron, participants had the option to direct some or all of their contributions as an investment in Cameron common stock rather than NATCO common stock.

Effective January 1, 2010, all participants in the Plan became eligible to receive benefits in accordance with the provisions of the Cameron International Corporation Retirement Savings Plan (the "Cameron Plan"). Also, the Plan was frozen for participation in and all contributions and deferrals were temporarily suspended.

Effective March 17, 2010, the Plan was merged into the Cameron Plan.

(2) Description of the Plan

The following description of the Plan is as of immediately prior to the merger of the Plan into the Cameron Plan, unless otherwise noted, and is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all eligible employees of the Plan's former sponsor, National Tank Company (National Tank), and adopting affiliates, Total Engineering Services Team, Inc. and NTC Technical Services Inc., who have 30 days of continuous service and are age 18 or older. Effective November 18, 2009, these entities became wholly-owned subsidiaries of Cameron.

In January 2008, NATCO acquired Linco-Electromatic, Inc. (Linco). All Linco employees became eligible to participate in the Plan effective March 2, 2008 and participation in Linco's plan was frozen at that date. In January 2009, the Linco plan's assets were transferred into the Plan.

Prior to the acquisition of NATCO by Cameron, the Plan was administered by the NATCO Group Profit Sharing and Savings Plan Committee appointed by NATCO's Board of Directors. Subsequent to November 18, 2009, the Cameron Plans Administration Committee assumed responsibility for administering the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The assets of the Plan are managed by American Century Investment Management, Inc., Charles Schwab & Co., Inc., Artio Global Investors, American Funds, Pacific Investment Management Company LLC and J.P. Morgan Funds. The assets of the Plan are held by J.P. Morgan Chase Bank, N.A. The record keeper for the Plan is J.P. Morgan Retirement Plan Services LLC and the trustee for the Plan is J.P. Morgan Chase Bank, N.A.

(b) Contributions

Prior to January 1, 2010, participants could contribute from 1% to 50% of their pre-tax annual compensation, as defined in the Plan document, subject to statutory limits. Participants who were age 50 or older before the close of the Plan year could elect to make a catch-up contribution. Contributions were subject to certain limitations specified under the Internal Revenue Code of 1986, as amended (IRC). At anytime during a Plan year, participants could change their contribution percentage. Participants could also elect to rollover funds held in other qualified plans into the Plan, as specified in the Plan document.

Each eligible employee hired on or after July 3, 2007, after meeting the applicable eligibility requirements, was automatically deemed to have elected to defer 3% of his compensation into the Plan effective on the first day of the month coincident with or immediately following the end of the 30-day period subsequent to hiring unless the employee had affirmatively elected to make no pre-tax contributions or elected to make pre-tax contributions in a different amount.

Through December 31, 2009, the Plan's sponsor matched 100% of the first 3% and 50% of the next 2% of each participant's compensation.

Additional supplemental employer matching contributions and discretionary contributions are allowed under the Plan document. No supplemental matching or additional discretionary contributions were made to the Plan participants for the year ended December 31, 2009.

In no event could the aggregate employer matching contributions for any Plan year exceed 6% of the participant's eligible compensation.

Employer contributions could be made in the Plan sponsor's common stock, cash or a combination of the two. During 2009, all employer contributions were made in cash.

(c) Investment Options

Each participant could elect to invest all or a portion of his or her contributions in various investment options offered by the Plan. These investment options included common stock of the Plan's sponsor, a common / collective trust fund (as described in Note 3) and various registered investment companies. Participants could also invest up to 50% of their account through the Schwab Personal Choice Retirement Account (Personal Choice Account) offered by Schwab Institutional Investments. The Personal Choice Account allows participants to invest in additional money market funds, registered investment companies, bonds and individual stocks subject to certain minimum balance requirements and other restrictions.

(d) Participant Accounts

Each participant's account was credited with the participant's contributions, employer matching contributions, allocations of the employer discretionary contributions, if any, and Plan earnings or losses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the amount in the participant's account.

(e) Vesting

Each participant's pre-tax contributions, after-tax contributions from prior plans, rollovers, employer contributions and the earnings thereon were fully vested when made.

(f) Participant Loans

Participants could borrow from their fund accounts a minimum of \$1,000 and a maximum of the lesser of \$50,000 (reduced by the highest outstanding balance of loans from the Plan in the prior twelve months) or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at prime plus 1% at the end of the month prior to the month in which the loan was issued. Principal and interest are paid ratably through weekly or bi-weekly payroll deductions over a period of up to five years, unless the loan qualifies as a principal residence loan, for which the term may be up to ten years. The term of the loan was specified under the loan procedures adopted by the committee administering the Plan from time to time, which was incorporated into the Plan document. No participant could have more than one loan outstanding at any given time. Interest rates ranged from 4.25% to 10.5% at December 31, 2009 and maturity dates ranged from January 15, 2010 to September 14, 2019.

(g) In-service Withdrawals

While employed, a participant could make withdrawals from his or her after-tax and rollover accounts and certain prior plan accounts, as defined in the Plan document. Certain additional in-service withdrawals were permitted upon attainment of age 59½ or in the event of proven financial hardship.

(h) Payment of Benefits

Upon retirement, death, or disability, participants or beneficiaries are entitled to a distribution equal to the total value of their account. On termination of service, participants could elect to receive a lump-sum amount equal to the total value of their account or, if the benefits exceed \$1,000, defer distribution until normal retirement age or death. Participants with holdings in the Plan sponsor's common stock could request the distribution in the form of common stock.

(3) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The financial statements reflect the application of accounting standards for fully benefit-responsive investment contracts as described in Subtopic 962-325 of the Financial Accounting Standards Board's Accounting Standards Codification. As required by the guidance, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts and the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for the fully benefit-responsive investment contracts.

(b) Investment Valuation and Income Recognition

Investments in the Plan sponsor's common stock, other common stocks, money market funds, bonds, and mutual funds are stated at fair value based upon quoted market prices. The Plan also invested in a common/collective trust fund, J.P. Morgan Chase Bank Commingled Pension Trust Funds—Stable Value Fund (Stable Value Fund), as of December 31, 2009 and 2008, whose underlying assets consisted of a variety of investment contracts such as guaranteed investment contracts (GICs) issued by insurance companies and other financial institutions and other investment products (separate account contracts, synthetic GICs and collective investment trusts) with similar characteristics. The fair value of the common/collective trust fund equals the fair value of the common/collective trust fund's underlying assets as reported in its annual report. The fair value unit price in the common/collective trust fund has been determined by the

NATCO GROUP PROFIT SHARING AND SAVINGS PLAN
Notes to Financial Statements—(Continued)
March 17, 2010, December 31, 2009 and 2008

total reported fair value of the common/collective trust fund, the Plan's percentage interest in the common/collective trust fund and the number of units owned by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Investment income was recorded as earned. Net appreciation in fair value of Plan sponsor's common stock, mutual funds, common collective trust, and the Personal Choice Account includes realized gains (losses) from the sale of investments and unrealized appreciation (depreciation) resulting from changes in market prices of investments measured at fair value.

(c) *Participant Loans Valuation and Income Recognition*

Participant loans have been valued at amortized cost. Interest earned from participant loans was recorded on the accrual basis.

(d) *Use of Estimates*

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) *Payment of Benefits*

Benefit distributions were recorded when paid.

(f) *Administrative Expenses*

The Plan's sponsor pays the record keeping expenses and certain audit expenses related to the Plan. Administrative expenses reflected on the Statement of Changes in Net Assets Available for Benefits represent the charges to individual participant accounts of the costs for participants initiating loans or investing in the Personal Choice Account.

(g) *Subsequent Events*

The Plan sponsor has evaluated subsequent events through October 12, 2010 which is the date the financial statements were available to be issued.

(4) *Investments*

As described in Note 3, the common/collective trust fund investment contracts are fully benefit-responsive investment contracts recorded at contract value at which all qualified participant withdrawals are guaranteed to occur. Contract value is defined as principal plus accrued interest. For the years ended December 31, 2009 and 2008, the average yield earned by the fund was 3.88% and 5.61%, respectively. The average yield based on interest rates credited to participants for the year ended December 31, 2009 and 2008 was 2.29% and 3.19%, respectively. The following table presents investments representing 5% or more of the Plan's net assets.

(5) Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Financial Accounting Standards Board's Accounting Standards Codification Topic 820, Fair Value Measurements, establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices for identical assets or liabilities in active markets.

Level 2 Other significant observable inputs such as quoted prices for similar assets or liabilities in active and inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Unobservable inputs supported by little or no market activity, including an entity's own assumptions about the fair value of investments.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Common/collective trust fund: Valued at fair value which is determined on the basis of last reported sales prices, or if no sales are reported, based on quotes obtained from a quotation reporting system, established market makers, or pricing services.

NATCO GROUP PROFIT SHARING AND SAVINGS PLAN

Notes to Financial Statements—(Continued)

March 17, 2010, December 31, 2009 and 2008

The disclosed fair value may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, a summary of the Plan's investments measured at fair value as of December 31, 2009:

Description	Fair Value Measurements at Reporting Date Using

(6) Information Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended. Accordingly, J.P. Morgan Chase Bank, N.A. has certified that the following data compiled in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of March 17, 2010 and December 31, 2009 and notes to the financial statements.
- Net appreciation in fair value of investments, dividends and interest as shown in the statements of changes in net assets available for benefits for the period January 1, 2010 to March 17, 2010 and the year ended December 31, 2009.
- Supplemental schedule of assets (held at end of year) -- December 31, 2009.

(7) Plan Tax Status

The Plan received a favorable determination letter from the Internal Revenue Service on January 22, 2003, which states that the Plan is designed to be qualified under Section 401(a) of the IRC and the related trust is, therefore, exempt from taxation under Section 501(a) of the IRC. The document submitted for determination has been subsequently amended. However, the Plan administrator believes that the Plan is currently designed and has been operated in compliance with the applicable requirements of the IRC and continues to be tax-exempt.

(8) Party-in-Interest Transactions

One of the Plan investments is shares of the Plan sponsor's common stock, and participants also could invest in the Plan sponsor's common stock through a Personal Choice Account. As both NATCO and Cameron were the Plan sponsors at various times during the year, transactions involving both company's common stock qualified as party-in-interest transactions. In addition, certain Plan investments included shares of mutual funds and a common/collective trust fund issued by affiliates of J.P. Morgan Chase Bank, N.A. As such, these transactions also qualified as party-in-interest transactions. These transactions were covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC.

(9) Reconciliation of Financial Statements to Form 5500

A reconciliation of net assets available for benefits presented in the financial statements to the Plan's Form 5500 follows:
