Notes to Financial Statements
December 31, 2009

NOTE 1 – DESCRIPTION OF PLAN

The following description of the DataVox Inc. 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Plan Sponsor is DataVox, Inc., a Texas-based company.

General

The Plan is a defined contribution plan. All employees are eligible to participate in the Plan following the attainment of age 18 and the completion of three months of service.

The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to make annual salary deferral contributions to the Plan of up to $16,500, adjusted for cost-of-living pursuant to Section 401(g) (5) of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions pursuant to Section 414(v) of the Internal Revenue Code.

Effective January 1, 2009, the Company makes safe harbor matching contributions equal to 100% of an eligible participant's deferred compensation up to 4% of the eligible participant's annual compensation. Participants are eligible to participate in the plan and receive an employer match after three months of service.

The Company may also make additional discretionary contributions to the Plan for eligible participants. There were no additional discretionary contributions during 2009.

Participants are at all times fully vested in their contributions, the Company's safe harbor matching contributions, and the appreciation or depreciation thereon. Other nonelective employer matching contributions vest over five years of service. Participants may rollover contributions representing distributions from other qualified defined benefit or defined contribution plans to the Plan and are fully vested in these contributions. The Plan is participant-directed and participants may change their contribution rates and investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Plan Sponsor's contribution and Plan earnings and the allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan agreement. Certain fees for administering the Plan are deducted from the investment earnings.

Cash and Cash Equivalents

Cash and cash equivalents include cash and all highly liquid financial instruments with original purchased maturities of three months or less.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Benefits are payable to participants or to a designated beneficiary only upon the occurrence of the following: retirement on or after age 65, attainment of age 59-1/2, hardship, disability, death, or termination of service with the Company.

A participant may receive the distribution in a lump sum or installments over a period of not more than the participant's life expectancy. Distributions are equal to the vested value of the participant's account, which results from participant and employer contributions, earnings on those contributions and any valuation adjustments.

Vesting

Participants are at all times fully vested in their elective deferrals and the safe harbor employer matching contributions. If a participant terminates employment prior to normal retirement age for any reason, other than death or disability, the participant's interest in the Company's nonelective matching contributions to the Plan for his or her benefit vests as follows based on years of service:

Less than one year	0%
One to two years	20%
Two to three years	40%
Three to four years	60%
Four to five years	80%
Five years or more	100%

Forfeitures

When certain terminations of participation in the plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents forfeiture. Total forfeitures during 2009 were $444, all of which were reallocated to participants accounts to reduce future employer contributions.

No amounts were held, as of December 31, 2009, in accounts of participants who had elected to withdraw from the plan.

Participant Loans

Plan participants may borrow up to 50% of their vested account balance in amounts of not less than $500 and not exceeding $50,000. Interest rates on loans are based on the prime rate plus 2%. Loans are repaid in level installments through payroll deductions for periods ranging up to five years, except for the purchase of a primary residence. Loans are secured by the participant's account balance. All payments, including interest, are credited to the respective participant's account.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Termination of the Plan

Although they have not expressed any intent to do so, the Company has the right to amend or terminate the Plan at any time subject to the provisions of ERISA. Upon termination, participants would become 100% vested in all amounts credited to their account and would receive distributions based on their account balance accumulated to the date of termination of the Plan.

Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at a fair value. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

All expenses of the Plan's administration were paid by the Plan sponsor.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Participant's benefits are included in distributions during the period payment is made.

Risks and Uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through the date these financial statements were available to be issued, October 7, 2010.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefit.

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used when valuing the interest in common or collective trusts, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of interests in common/collective trusts is determined by the fair values of the investments held, which seek to mirror the allocation of the S&P 500 Index. The inputs used are the observable quoted market prices of these assets, but as the interest in the trust is not actively traded, the valuation is considered to be Level 2.

Level 3 Fair Value Measurements

The participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The brokerage accounts are measured using inputs that are not observable by the Plan, as the accounts are participant-directed accounts from which the Plan receives and evaluates summary information regarding gains and losses, fees, contributions and other transactions. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Brokerage Accounts	Participant Loans
December 31, 2009		
Beginning Balance	$ 54,965	$ 76,640
Total gain/loss (realized or unrealized) included in changes in net assets available for benefits	(1,075)	-
Purchases, sales, issuances and settlements, net	52	(5,280)
Ending Balance	$ 53,942	$ 71,360

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

Fair Value Measurements Using Significant Unobservable Inputs (Level 3) (continued)

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments or brokerage account losses.

NOTE 4 – INVESTMENTS

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Benefits are payable to participants or to a designated beneficiary only upon the occurrence of the following: retirement on or after age 65, attainment of age 59-1/2, hardship, disability, death, or termination of service with the Company.

A participant may receive the distribution in a lump sum or installments over a period of not more than the participant's life expectancy. Distributions are equal to the vested value of the participant's account, which results from participant and employer contributions, earnings on those contributions and any valuation adjustments.

Vesting

Participants are at all times fully vested in their elective deferrals and the safe harbor employer matching contributions. If a participant terminates employment prior to normal retirement age for any reason, other than death or disability, the participant's interest in the Company's nonelective matching contributions to the Plan for his or her benefit vests as follows based on years of service:

Less than one year	0%
One to two years	20%
Two to three years	40%
Three to four years	60%
Four to five years	80%
Five years or more	100%

Forfeitures

When certain terminations of participation in the plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents forfeiture. Total forfeitures during 2009 were $444, all of which were reallocated to participants accounts to reduce future employer contributions.

No amounts were held, as of December 31, 2009, in accounts of participants who had elected to withdraw from the plan.

Participant Loans

Plan participants may borrow up to 50% of their vested account balance in amounts of not less than $500 and not exceeding $50,000. Interest rates on loans are based on the prime rate plus 2%. Loans are repaid in level installments through payroll deductions for periods ranging up to five years, except for the purchase of a primary residence. Loans are secured by the participant's account balance. All payments, including interest, are credited to the respective participant's account.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Termination of the Plan

Although they have not expressed any intent to do so, the Company has the right to amend or terminate the Plan at any time subject to the provisions of ERISA. Upon termination, participants would become 100% vested in all amounts credited to their account and would receive distributions based on their account balance accumulated to the date of termination of the Plan.

Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at a fair value. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

All expenses of the Plan's administration were paid by the Plan sponsor.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Participant's benefits are included in distributions during the period payment is made.

Risks and Uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through the date these financial statements were available to be issued, October 7, 2010.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefit.

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used when valuing the interest in common or collective trusts, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of interests in common/collective trusts is determined by the fair values of the investments held, which seek to mirror the allocation of the S&P 500 Index. The inputs used are the observable quoted market prices of these assets, but as the interest in the trust is not actively traded, the valuation is considered to be Level 2.

Level 3 Fair Value Measurements

The participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The brokerage accounts are measured using inputs that are not observable by the Plan, as the accounts are participant-directed accounts from which the Plan receives and evaluates summary information regarding gains and losses, fees, contributions and other transactions. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Brokerage Accounts	Participant Loans
December 31, 2009		
Beginning Balance	$ 54,965	$ 76,640
Total gain/loss (realized or unrealized) included in changes in net assets available for benefits	(1,075)	-
Purchases, sales, issuances and settlements, net	52	(5,280)
Ending Balance	$ 53,942	$ 71,360

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

Fair Value Measurements Using Significant Unobservable Inputs (Level 3) (continued)

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments or brokerage account losses.
