SMOKEY BONES SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 and 2008

Note 1 – Plan Description

The following description of Smokey Bones Savings Plan, a non-standard 401(k) Profit Sharing Plan (the "Plan"), provides only general information. Participants should refer to the Summary Plan Description or Legal Plan Document for a more complete description of the Plan.

General

The Plan is a participant directed, defined contribution plan covering substantially all full-time Barbeque Integrated, Inc. (the "Company") employees, except the following excluded employees: Union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, highly compensated employees and leased employees. Employees become eligible to participate in the Plan immediately following completion of 12 months of service (1,000 hours or more of service) and attaining the age of 21. Wachovia Bank, N.A., the trustees and plan custodian, is responsible for holding and investing Plan assets. WySTAR Global Retirement Solutions is the Plan record keeper. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Plan participants may voluntarily contribute, on a pre-tax basis, up to 100% of their compensation as allowed by the Internal Revenue Service. All investments are participant directed. The maximum allowable pre-tax voluntary contribution, as determined by the Internal Revenue Service, for the years 2009 and 2008 was \$16,500 and \$15,500, respectively. Participants over 50 may be able to contribute an additional \$5,000 and \$5,500 for 2009 and 2008 respectively.

According to the Plan Document, contributions are matched at the discretion of the Company equal to a uniform percentage of salary deferral. There have been no matches during 2009 or 2008 as the Company elected not to match contributions in these years.

Participant Accounts

Each participant account is credited with the participant's contribution, their pro rata share of Company contributions and an allocation of Plan earnings including market value adjustments on Plan investments. Allocations of profit sharing contributions are based on participant compensation to total compensation of all participants as defined in the Summary Plan Description.

SMOKEY BONES SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 and 2008

Note 1 – Plan Description – Continued

Distribution of Participant Accounts

The entire vested balance of a participant's account may be distributed as soon as administratively possible after the date of the participant's retirement, disability, death or qualified hardship. The normal retirement age, as defined by the Plan, is 65.

Upon termination of service, a participant with an account valued at less than \$5,000 shall receive a lump sum distribution within a reasonable amount of time after termination. For accounts exceeding \$5,000, the participant may elect a lump sum distribution, or some type of systematic payout. In some circumstances participants may elect to defer their benefits.

Vesting

All participants are immediately vested in their contributions and actual earnings thereon. Vesting in the Company's contribution to their account is as follows:

<u>Years of credited service</u>	<u>Percent vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 and greater	100%

Payment of Administrative Expenses

Substantially all of the custodial and investment expenses of the Plan have been paid by the Plan. If expenses are paid using the Plan's assets, then the expenses will generally be allocated among the accounts of all participants in the Plan.

Investment Options

The contributions of the Plan, both employee and employer, are allocated to the various funds at the direction of the participant. Plan participants have various investment options.

SMOKEY BONES SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 and 2008

Note 1 – Plan Description – Continued

Participant Loans

Under the terms of the Plan, participants may borrow from their accounts \$1,000 up to \$50,000 or 50%, whichever is less, of their vested account balance. The loans are collateralized by the balance in the participants' accounts and bear interest at a rate commensurate with local prevailing rates. Loan terms range from one to five years or if the loan is for the purchase of a principal residence, the administrator may permit a longer repayment term. Principal and interest is paid ratably not less frequently than quarterly through bi-weekly payroll deductions.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and their changes and disclosure of contingent assets and liabilities as of the year then ended. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market value. Mutual fund shares are valued at its quoted market price. Purchases and sales are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate.

Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rates, credit and overall volatility risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

SMOKEY BONES SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 and 2008

Note 2 – Summary of Significant Accounting Policies – Continued

Payment of Benefits

Benefits are recorded when paid.

Note 3 – Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service dated August 30, 2001, which states that the Plan, as a prototype non-standard profit sharing plan, qualifies under the applicable provisions of the Internal Revenue Code and that it is therefore exempt from federal income taxes. The Plan has subsequently been amended to conform to various tax acts. In the opinion of the plan administrator, the Plan, as amended, continues to meet the Internal Revenue Code requirements and is currently operating such that its exempt status has been maintained.

Note 4 – Investments

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the record keeper of the plan, as agent for Wachovia Bank (Trustee and Custodian for 2009 and 2008), as complete and accurate, except for comparing such information certified by the Trustees to the information included in the Plan's financial statements and supplemental schedule.

The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008 are as follows:

Note 5 – Fair Value Measurements

Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements* (FASB Statement No. 157), establishes a framework for measuring fair value. This pronouncement was adopted in 2008. The framework provides a fair value hierarchy with three levels that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;

Note 5 – Fair Value Measurements – continued

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
