INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Curtain Wall Design & Consulting, Inc.
Employee Savings Plan

We were engaged to audit the financial statements of Curtain Wall Design & Consulting, Inc. Employee Savings Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedule as of and for the year ended December 31, 2009 as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Standard Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and December 31, 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CURTAIN WALL DESIGN & CONSULTING, INC. EMPLOYEE SAVINGS PLAN
Notes to Financial Statements

Note 1 - Description of Plan

The following description of Curtain Wall Design & Consulting, Inc. Employee Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Curtain Wall Design and Consulting, Inc. ("Company" or "Employer"), other than those nondiscriminatory classifications specified in the Plan agreement, who have one month of service and are age 20 or older, with entry dates of March 1, June 1, September 1 and December 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company consolidated its prior qualified retirement plans, including The Curtain Wall Design & Consulting, Inc. Employee Stock Ownership Plan, into a single savings plan effective September 1, 1994.

Contributions

Each year, participants may contribute a percentage of pre-tax or after-tax annual compensation, as defined in the Plan, up to the maximum percentage allowable not to exceed the limits of IRS code sections 401(k), 402(g), 404 and 415. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions, as well as any Company matching or profit sharing contributions, into various investment options offered by the Plan. The Plan currently offers 21 mutual funds, one insurance investment contract, and an individual self directed brokerage account as investment options for participants. Effective January 1, 2009, the Company elected to change their qualified automatic matching contribution to 100% of the first 1% of compensation contributed to the Plan, plus 50% of the remaining contribution up to 6% of compensation. Employer qualified automatic matching contributions totaled $349,847 for 2009. For 2009, the Employer made additional discretionary matching contributions of 50% of compensation contributed to the Plan over 6% of compensation, totaling $204,824. The Company may, at its sole discretion, contribute and allocate to each eligible participant's account a profit sharing contribution in proportion to their compensation for the fiscal year ending August 31. For 2009, the Company made profit sharing contributions totaling $300,000. Contributions are subject to certain limitations.

Note 1 - Description of Plan (continued)

Automatic Enrollment

If a participant does not affirmatively elect to receive cash or have a specified amount of compensation deferred as an elective contribution to the Plan, that participant shall automatically have five percent of his compensation for each payroll period deferred to the Plan as an elective contribution. The initial automatic deferral amount shall increase to six percent of compensation in the fifth year of participation in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and, (b) Plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested in the Company's safe harbor nonelective contributions after two years of credit service and 100% vested in discretionary matching or profit sharing contributions after six years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1% at the time the loan is made, with rates currently ranging from 3.25% to 8.75%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, or annual installments under the terms defined in the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 1 - Description of Plan (continued)

Voting Rights

Each Participant who has Employer stock allocated to his Account may direct the vote of such shares if such shares are to be voted with respect to any merger, consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all of the assets of any trade or business of the Employer, and such other issues as may be required by regulations adopted by the Secretary of the Treasury. The pass-through of such voting rights shall be required without regard to whether such issues must be decided by more than a majority vote of outstanding shares. In the event that a participant fails to exercise such voting rights in accordance with the rules adopted by the Plan administrator, the Plan administrator may direct the vote of such shares.

Right of First Refusal

Employer stock under the Plan is subject to a right of first refusal in favor of the Company, the Trustee or both, in the order of priority determined by the Plan administrator. Such right of first refusal shall not apply if such stock is publicly traded at the time the right may be exercised.

Put Option

Under Federal income tax regulations, the Employer stock that is held by the Plan and its participants is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participants owning Employer stock have the ability to ultimately obtain cash in exchange for the Employer stock.

Note 1 - Description of Plan (continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Employer stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Forfeited Accounts

At December 31, 2008 and 2009 forfeited nonvested accounts totaled $807 and $21,450, respectively. These accounts will be used to reduce future employer contributions.

Note 2 - Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through June 23, 2010, the date which the financial statements were available to be issued.

Basis of Accounting

The Plan's policy is to prepare its financial statements on the modified cash basis of accounting; consequently, contributions and investment income are recorded as received and expenses when paid. Investment transactions are recorded as cash is received and disbursed, rather than at the trade-date, as required by generally accepted accounting principles.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The common shares of the Employer are valued at fair value on December 31, 2009 and 2008, as determined by annual independent appraisals performed as of August 31 of each year. The Plan's other investments are stated at fair value as determined by the trustee, using market quotations and other available information. Securities are valued at the last reported sales price on the last business day of the Plan's fiscal year. Net appreciation or depreciation of investments is reported in the Statement of Changes in Net Assets Available for Benefits – Modified Cash Basis and consists of the realized gains or losses and the unrealized appreciation or depreciation of these investments. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded as cash is received and disbursed. Dividends are recorded when received.

Guaranteed Investment Contracts

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits – Modified Cash Basis presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits – Modified Cash Basis is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits – modified cash basis. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using:	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)

Total	$12,178,667	$ 7,162,103	$ 5,016,564

Note 3 - Fair Value Measurements (continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company, employer common stock and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer, the fair value of the employer common stock is determined by annual independent appraisals and the fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Note 3 - Fair Value Measurements (continued)

Level 3 Fair Value Measurements (continued)

Note 4 - Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2009 and/or December 31, 2008. All investments other than the Employer common stock are participant directed.

	December 31, 2009	December 31, 2008

Harbor International Fund Institutional, 15,645 and 14,955 shares, respectively	984,823	683,984
	$ 7,431,036	$ 7,539,000

Note 4 - Investments (continued)

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Pooled separate accounts	$ 2,259,302
Employer common stock	53,281
Self directed brokerage accounts	22,086
	$ 2,334,669

Note 5 - Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive investment contract with Standard Insurance Company (Standard), the trustee of the Plan. Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits – modified cash basis at contract value as reported to the Plan by Standard. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $3,718,361 and $3,121,509, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Note 5 - Investment Contract with Insurance Company (continued)

Certain events limit the Plan's ability to transact at contract value with Standard. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2009	2008
Average yields:		
Based on actual earnings	3.33%	3.51%
Based on interest rate credited to participants	3.16%	3.41%

Note 6 - Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee:

	2009	2008
Investments, at fair value:		
Pooled separate accounts	$ 10,022,545	$ 7,141,048
Guaranteed investment contracts	3,725,440	3,191,727
Employer common stock	1,446,262	1,587,091
Self directed brokerage accounts	78,309	21,055
Investment income	2,464,443	

Note 7 - Related Party Transactions

The Plan owned 3,616 and 4,101 shares of the Company's common stock at December 31, 2009 and 2008, respectively.

Note 8 - Tax Status

The Internal Revenue Service has determined and informed the sponsoring organization by a letter dated March 31, 2008, that the prototype plan adopted by the Company was designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Employer contributions.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits – modified cash basis.
