GOLD STANDARD ENTERPRISES, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

A. DESCRIPTION OF PLAN

The following description of the Gold Standard Enterprises, Inc. Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General. The Plan is a defined contribution plan covering all employees of the Company who have completed six months of service, and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The custodian of the plan assets is Great-West Life & Annuity Insurance Company (Great-West).

2. Investments. All investments are participant-directed. The Plan currently offers twenty-seven pooled mutual funds and two guaranteed return investment contracts as investment options for participants. A participant may maintain their entire account in one of the investment options or may elect to split their account among the investment funds in accordance with the terms of the Plan.

3. Contributions. Each year, participants may contribute any amount of pretax annual compensation, subject to certain Internal Revenue Code limitations, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. All account holders direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50 percent of the first six percent of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

4. Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and may be charged administrative fees for distributions. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are first used to reduce future Company contributions. If any forfeiture balances remain, they are allocated to the participants based upon their respective match amounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

A. DESCRIPTION OF PLAN (Continued)

6. Payment of Benefits. On termination of service, a participant may receive a lump sum distribution of his entire vested account balance or a single sum distribution of a portion of his vested account balance. Benefits will also be paid to a participant or beneficiary who is required to receive lifetime required minimum distributions (RMD) and may receive the distributions payable in monthly, quarterly or annual installments equal to or exceeding the annual RMD amount.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. The pooled separate accounts are comprised of variable annuity contracts held with Great-West and are assigned a unit value at the end of each day.

The annuity values are obtained using the quoted net asset value (NAV) price of the underlying mutual fund and adjusting the NAV price to apply an administrative expense factor as disclosed in the annuity contract. The unallocated investment contracts, all non-benefit responsive fixed annuity contracts, held with Great-West, are valued at fair value which approximates contract value. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the company.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2010, the date the financial statements were available to be issued.

C. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets.

	December 31

D. FAIR VALUE MEASUREMENTS

Financial Accountings Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

D. FAIR VALUE MEASUREMENTS (Continued)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the far value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled Separate Accounts: Valued by using the closing NAV at year end of the underlying mutual fund and adjusting the NAV by applying an administrative expense factor as disclosed in the annuity contract.

Unallocated Investment Contracts: Valued at fair value based on the valuation formula of similar annuity contracts with comparable durations and consideration of the credit-worthiness of the issuer (See Note B).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believe its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008.

E. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

F. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian, Great-West:

	2009	2008
Investments	$4,223,800	$2,879,700
Investment Income -		
Net appreciation in fair value of investments	800,139	
Interest	15,138	

G. TAX STATUS:

The Internal Revenue Service has determined and informed the Plan Administrator by a letter dated March 31, 2008, that the Prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

G. TAX STATUS:

The Plan is classified as a tax-exempt employee benefit plan under Section 401 of the Federal Internal Revenue Code and, therefore, has no provision or liability for income taxes.

The Plan adopted the new accounting for uncertainty in income taxes guidance on January 1, 2009. The Plan files a United States return of an employee benefit plan which is exempt from income tax. All returns of the Plan for 2006, 2007, 2008 and 2009 are subsequent to examination by the Internal Revenue Service generally for three years after they were filed.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31, 2009	December 31, 2008
Net assets available for benefits per the financial statements	$4,433,195	$3,067,926
Less:		
Employer contributions accrued - current year	(209,395)	(189,106)
Add: Accounts payable	-0-	880
Net assets available for benefits per Form 5500	$4,223,800	$2,879,700

The following is a reconciliation of contributions per the financial statements to Form 5500 for the year 2009:

	Participant	Employer
Contributions per financial statements	$550,159	$209,395
Add: Contributions accrued - prior year	-0-	189,106
Less: Contributions accrued - current year	-0-	(209,395)
Less: Accounts payable - prior year	(880)	-0-
Contributions per Form 5500	$549,279	$189,106

These differences relate to the fact that the financial statements were prepared using the accrual method and Form 5500 was prepared using the cash method.
