Independent Auditors' Report

The Administrative Committee
Pension Plan for the Employees of
Advanced Silicon Materials LLC:

We were engaged to audit the financial statements and supplemental schedules of the Pension Plan for the Employees of Advanced Silicon Materials LLC as of July 31, 2009, 2008, 2007, 2006, 2005, and 2004, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 6, which was certified by Union Bank of California, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of July 31, 2009, 2008, 2007, 2006, 2005, and 2004 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As further discussed in note 1(g), the Plan was not timely amended to bring it into compliance with certain regulatory requirements. The plan sponsor has also identified certain other errors and operational issues. The plan sponsor intends to file an application under the Voluntary Compliance Program to correct these defects.

Notes to Financial Statements

(1) Description of Plan

(a) General

The following description of the Pension Plan for the Employees of Advanced Silicon Materials LLC (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is a defined benefit plan covering all nonunion employees of Advanced Silicon Materials LLC (the Company). All nonunion employees become eligible for Plan participation upon employment.

Effective September 20, 2002, the Company entered into a joint venture with Renewable Energy Corporation, forming a new company called Solar Grade Silicon. Certain employees of the Company became employees of Solar Grade Silicon. These participants ceased accruing benefits in the Plan and became fully vested.

In July 2005, Komatsu Ltd. (Komatsu) the former parent company of the Company sold 75% of the ownership interest of the Company to Renewable Energy Corporation establishing REC – Advanced Silicon Materials, LLC (REC Silicon). On December 31, 2005 REC Silicon amended to freeze the Plan by closing entry and freezing accrued benefits. All active participants as of December 31, 2005 were vested, regardless of company service time.

(b) Contributions

Contributions to the Plan are made by the Company in amounts determined by management with the assistance of its actuary. Contributions met the minimum funding requirements of ERISA in the July 31, 2009, 2008, 2007, 2006, 2005, and 2004 plan years.

(c) Vesting

Prior to July 31, 2005, participants in the Plan were fully vested after five years of service. All active participants as of December 31, 2005 were vested, regardless of company service time.

(d) Administrator of the Plan

An employee of the Company is designated as the administrator of the Plan, with actuarial services provided by Altman & Cronin.

(e) Plan Benefits

The Plan provides that eligible employees who had any service prior to 1996 receive a monthly pension benefit calculated using the greater of the regular, alternate, or minimum formulas. Eligible employees who were hired after 1995 and prior to December 31, 2005 receive a monthly pension benefit using the greater of the regular or minimum formulas.

- The regular formula is based on 1.2% of the average monthly compensation and years of credited service plus \$12.

**PENSION PLAN FOR THE EMPLOYEES OF
ADVANCED SILICON MATERIALS LLC**

Notes to Financial Statements

July 31, 2009, 2008, 2007, 2006, 2005, and 2004

- The alternative formula is based on 1.5% of the average monthly compensation, and years of credited service through December 31, 1995 reduced by 1.5% of monthly 1995 Primary Social Security Benefit.
- The minimum formula is based on 2% – 10% (depending on years of credited service) of the average monthly compensation, years of credited service and \$12.

Payments to plan participants or beneficiaries are payable, at the participants' or beneficiaries' option, in one of the following ways:

- Single life annuity
- Joint and survivor annuity
- Level Income (Social Security Adjustment Option)
- Lump-sum payment (only applicable if the total value of the benefit is less than \$5,000)

(f) Termination of the Plan

In the event of termination of the Plan, the rights of each participant to benefits accrued to the date the Plan was frozen (December 31, 2005) shall continue to be vested and nonforfeitable, and the right of each participant to any other benefits accrued to the date the Plan was frozen (December 31, 2005) shall be fully vested and nonforfeitable to the extent then funded under the priority rules set forth in Section 4044 of ERISA.

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

For added security, the Company pays premiums to PBGC to insure certain benefits under the Plan. If the Plan terminates, PBGC generally guarantees most vested normal and early retirement benefits.

(g) Tax Status

The Internal Revenue Service has determined and informed the Company in a letter dated May 17, 2005 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has subsequently been amended. Management believes the Plan and trust continue to be designed in accordance with the IRC. The Plan was not timely amended to bring it into compliance with the requirements of the Pension Funding Equity Act, the Pension Protection Act and certain other requirements. The Company has also identified certain other errors and operational issues. The Company intends to file an application under the Voluntary Compliance Program (VCP) to correct these defects. The Plan's administrator expects that the final outcome of the VCP will not have a material effect on the Plan's financial statements or any impact to the Plan's

qualified tax status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(h) Expenses

Trustee and investment management expenses are paid by the Plan. All other expenses including actuarial expenses are paid by the Company.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to, and deductions from, net assets during the reporting period. Actual results could differ from those estimates.

(c) Investments

Investments in common stock and registered investment company funds are stated at fair value, based on quoted closing market prices. Commercial paper is stated at fair value based on yields currently available on comparable securities of issuers with similar credit ratings. Repurchase agreement is stated at fair value based on the carrying value due to the short period of time between issuance and maturity. Bankers acceptance is stated at fair value based on the discounted value of the face value. The Stable Value Fund, a common commingled trust fund, invests primarily in guaranteed investment contracts and is valued at fair value based on the fair value of the underlying assets using discounted cash flows. The average yield and crediting rate for 2006, 2005 and 2004 was 3.83%, 3.49%, and 3.32% respectively.

(d) Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographic, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The plan assets are invested in a variety of investments, Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(e) *Income Recognition*

Net appreciation (depreciation) in fair value of investments represents realized gains and losses and the change in unrealized gains and losses from one period to the next. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

(f) *Payment of Benefits*

Benefit payments to participants are recorded upon distribution.

(g) *Fair Value of Financial Instruments*

The Plan adopted Financial Accounting Standards Board (FASB) Statement of Financial Standards No. 157, *Fair Value Measurements* (SFAS 157), effective August 1, 2008. In accordance with SFAS 157, fair value is defined as the price that the Plan would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. SFAS 157 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs, and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1 – quoted prices in active markets for identical investments
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Plan's own assumptions in determining the fair value of investments)

Following is a description of the valuation methodologies used for assets measured at fair value as of July 31, 2009.

Registered investment company funds: Valued at the net asset value (NAV) of shares held by the Plan at the year-end based on quoted market prices.

Commercial paper: Valued based on yields currently available on comparable securities of issuers with similar credit ratings.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different

methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below summarizes the fair values of the Plan's investments as of July 31, 2009. No Level 3 investments were held by the Plan as of July 31, 2009.

Accumulated benefits are those future benefit payments that individual participants have accumulated under the Plan's provisions based on the employee's compensation and service rendered to date. The actuarial present value of accumulated benefits is the sum of accumulated benefits adjusted to reflect the probability of payment (by means of death, disability, termination, or retirement) and the time value of money (through discounts for interest). The actuarial valuations for each year were prepared as of August 1st. Had the valuations been prepared as of July 31st, there would be no material difference. The significant actuarial assumptions used in the valuations are as follows:

Discount rate/investment return	2005 and 2006:	8% per year
	2007, 2008 and 2009:	5% per year
Mortality	2005:	Based on the 1983 Group Annuity Mortality Table with separate rates for males and females.
	2006 and 2007:	For nondisabled participants, the RP2000 Mortality Table for males and females. For participants on Disability Retirement, the RP2000 Disabled Mortality Table for males and females.
	2008 and 2009:	Based on the IRS 2008 Static Mortality Table stipulated under IRS proposed regulations 1.430(h)(3)-1(b). The IRS 2008 Static Mortality Table is the RP-2000 Mortality Table for annuitant and nonannuitants projected for mortality improvement by Scale AA.
Normal retirement age	Expected retirement beginning at age 58 with 100% assumed to retire at age 65.	

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, then different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

(5) Accumulated Plan Benefit Obligation

A summary of the actuarial present value of accumulated plan benefit obligation at July 31, 2009, 2008, 2007, 2006, 2005, and 2004 is as follows:

Notes to Financial Statements

July 31, 2009, 2008, 2007, 2006, 2005, and 2004

Changes to the actuarial present value of accumulated plan benefit obligation for the years ended July 31, 2009, 2008, 2007, 2006, 2005 and 2004 were a result of the following:

	<u>2009</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>
Accumulated plan benefit obligation, beginning of year	\$ 27,627,750	27,648,469	17,897,872	16,871,777	16,626,756	16,142,002
Benefits paid	(1,386,527)	(1,393,692)	(1,358,413)	(1,329,005)	(1,344,649)	(1,364,309)
Actuarial variance	—	—	—	—	—	35,991
Change in actuarial assumptions	—	—	9,067,489	397,047	—	—
Increase for interest due to decrease in the discount period	1,346,724	1,347,581	1,377,493	1,296,582	1,276,355	1,237,735
Benefits accumulated	161,351	25,392	664,028	661,471	957,628	575,337
Change in plan provisions	—	—	—	—	(644,313)	—
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Actuarial plan benefit obligation, end of year	\$ <u>27,749,298</u>	<u>27,627,750</u>	<u>27,648,469</u>	<u>17,897,872</u>	<u>16,871,777</u>	<u>16,626,756</u>

The change in plan provisions for 2005 represents the freeze of the Plan as of December 31, 2005. Beginning December 31, 2005, no new entrants are permitted into the Plan and the average monthly compensation is frozen as of that date.

The change in actuarial assumptions for 2006 represents a change in the mortality table as described above.

The change in actuarial assumptions for 2007 represents a change in the investment return from 8% to 5% based on the change in investment allocation.

(6) Information Certified by the Trustee

The following information was certified by Union Bank of California (UBOC), the trustee, as being complete and accurate:

- Investments at fair value
- Interest income
- Dividend income
- Net appreciation (depreciation) in fair value of investments
- Investment information included in notes 2 and 3
- Schedule of assets (held at end of year)
- Schedule of reportable transactions

(7) Party-in-Interest Transactions

Certain plan investments are shares managed by UBOC. UBOC is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Plan Sponsor: REC Advanced Silicon Materials, LLC

EIN / PN: 20-3097239 / 002

Schedule B, line 6 – Statement of Actuarial Assumptions/Methods

Actuarial Basis

Projected Unit Credit Method

Liabilities and contributions shown in this report are computed using the Projected Unit Credit method of funding.

The objective under this method is to fund each participant's benefits under the Plan as they would accrue, taking into consideration future salary increases. Thus, the total pension, to which each participant is expected to become entitled, is broken down into units, each associated with a year of past or future credited service. When this method is introduced, there will be an initial liability for benefits credited for service prior to that date. To the extent that the liability is not covered by assets of the Plan, there is an unfunded liability to be funded over a chosen period in accordance with an amortization schedule.

A description of the calculation follows:

An individual's **accrued benefit** for valuation purposes related to a particular separation date is the accrued benefit described under the Plan, but determined using the projected salary that would be used in the calculation of the benefit on the expected separation date.

The **benefit** deemed to accrue for an individual during a plan year is the excess of the accrued benefit for valuation purposes at the end of the plan year over the accrued benefit for valuation purposes at the beginning of the plan year. Both accrued benefits are calculated from the same projections to the various anticipated separation dates.

An individual's **accrued liability** is the present value of the accrued benefit for valuation purposes at the beginning of the plan year, and the normal cost is the present value of the benefit deemed to accrue in the plan year. If multidecrements are used, the accrued liability and the normal cost for an individual are the sum of the component accrued liabilities and normal costs associated with the various anticipated separation dates. Such accrued liabilities and normal costs reflect the accrued benefits as modified to obtain the benefits payable on those dates and the probability of the individual separating on those dates.

The Plan's **normal cost** is the sum of the individual normal costs, and the Plan's **accrued liability** is the sum of the accrued liabilities for all participants under the Plan.

Schedule B, line 6 – Statement of Actuarial Assumptions/Methods (Cont'd)

Asset Valuation Method

The Actuarial Value of Assets is determined as the market value of assets minus aggregate deferred investment gains and losses. Investment gains and losses are recognized ratably over five years. For any year, the aggregate deferred investment gain or loss will equal a decreasing fraction (80%, 60%, 40%, and 20%) of the gains and losses that occurred in each of the past four plan years. Investment gains and losses are measured as the excess or shortfall of total actual return over expected return, where expected return is determined based on the funding interest rate.

The asset value determined under this method will be adjusted to be within 20% of the market value of assets.

Valuation Procedures

The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

No actuarial liability is included for participants who terminated nonvested prior to the valuation date.

The Plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the Plan's eligibility requirements are included in the valuation of liabilities.

Schedule B, line 6 – Summary of Plan Provisions

Effective Date

August 1, 1989. Most recent amendment reflected in this valuation is effective December 31, 2005.

Plan Year

August 1 to July 31.

Eligibility

All employees participate in the plan, except leased employees, employees covered by a collective bargaining agreement, employees hired outside the United States for foreign employment or in a foreign subsidiary's pension plan when employed in the United States, and independent contractors. Beginning December 31, 2005 no new entrants are permitted into the Plan.

Vesting

5 years of service, or age 65. Service towards Vesting is frozen as of December 31, 2005.

Credited Service

Years and months of service from date of employment. Credited Service includes service with Union Carbide. Credited Service is frozen as of December 31, 2005.

Compensation

Compensation shall include salary or wages and under certain circumstances, shift differential, sales commissions, lump-sum payment in lieu of salary increases, and incentive compensation awards. Compensation shall also include any deferrals elected by the employee under Sections 457, 125, 402(g)(3) or 132(f)(4). For any calendar year, Compensation is limited as required under Section 401(a)(17), as amended by EGTRRA.

Average Final Compensation

Average Compensation during the five highest-paid years out of the last ten. No fractional Calendar Year resulting from a Participant's date of employment or date of termination will be taken into account. Average Monthly Compensation should not be less than the total Compensation earned by the Participant over the last sixty calendar months preceding date of retirement or termination divided by the number of months in such period in which the Participant performed at least one Hour of Service. Average Final Compensation is frozen as of December 31, 2005.

Normal Retirement Benefit

As of any date, the monthly benefit is the best of the following three formulas, less Pension Offset:

a) Regular Formula: 1.2% of Average Final Compensation multiplied by Years of Credited Service plus \$12 multiplied by Years of Credited Service divided by Years of Credited Service at retirement.

b) Alternate Formula (the alternate formula applies only to participants whose benefit as of December 31, 1995 under the Alternate Formula is greater than the benefit determined under either the Regular Formula or the Minimum Formula)

Prior to January 1, 1996: 1.5% of Average Final Compensation multiplied by Years of Credited Service at December 31, 1995 minus 1.5% of monthly Social Security Benefit multiplied by Years of Credited Service at December 31, 1995 (not to exceed 50% of the Social Security Benefit).

On and after January 1, 1996: 1.2% of Average Final Compensation multiplied by Years of Credited Service earned on and after January 1, 1996 plus \$12 multiplied by Years of Credited Service divided by Years of Credited Service at retirement.

c) Minimum Formula: \$6 for each of the first ten Years of Credited Service plus \$9 for each the 11th through 20th Years of Credited Service plus \$12 for Years of Credited Service in excess of 20 plus 10%* of Average Final Compensation plus \$12 multiplied by Years of Credited Service divided by Years of Credited Service at retirement.

* If less than 8 Years of Credited Service, percentage reduced 1% for each year less than 8 years.

The Normal Retirement Benefit is frozen as of December 31, 2005.

Pension Offset

Benefit payable from Union Carbide pension plan for service credited under this plan. These amounts are frozen as of July 31, 1990, when service under the Union Carbide Plan stopped. The benefit is reduced for a qualified preretirement survivor annuity.

Payment Form

The Normal Form is a single life annuity. Participants may elect a single life annuity, 50% J&S annuity or level income annuity.

Normal Retirement Date

First of the month on or following the later of 5 years of Credited Service or the participant's 65th birthday.

Unreduced Retirement Date

a) Age plus Years of Credited Service at least 85 (for participants as of December 31, 1995 only).

b) On or following attainment of age 62 and completion of 10 Years of Service.

If a participant is terminated for any reason other than cause, an additional 2 years of age and/or service shall be given towards eligibility for these benefits.

Eligibility for Benefits

(i) Reduced Early Retirement: age 50 and 10 Years of Credited Service.

(ii) Vested Retirement: age 50 and 5 Years of Credited Service.

(iii) Disability Retirement: 10 Years of Credited Service; total and permanent disability.

Eligibility service is frozen as of December 31, 2005. In addition, no participant shall become eligible for a Disability Retirement Benefit after December 31, 2005. Participants that satisfy the requirements for a Disability Retirement Benefit before January 1, 2006 may receive a Disability Retirement Benefit after that date.

Statement by Enrolled Actuary (see instructions before signing):

To the best of my knowledge, the information supplied in this schedule and on the accompanying schedules, statements, and attachments, if any, is complete and accurate, and in my opinion each assumption, used in combination, represents my best estimate of anticipated experience under the plan. Furthermore, in the case of a plan other than a multiemployer plan, each assumption used (a) is reasonable (taking into account the experience of the plan and reasonable expectations) or (b) would, in the aggregate, result in a total contribution equivalent to that which would be determined if each such assumption were reasonable; in the case of a multiemployer plan, the assumptions used, in the aggregate, are reasonable (taking into account the experience of the plan and reasonable expectations).
