NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Wyse Advertising, Inc. (Company) Savings and Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of the Company who have completed ninety days of service and have attained twenty and one half years of age, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make voluntary 401(k) contributions up to the maximum percentage allowable not to exceed Internal Revenue Code (IRC) limitations applicable for the Plan year. The Company may make matching contributions at the discretion of the Board of Directors equal to the employees' voluntary contribution to the Plan up to a maximum of 3% of the employees' eligible compensation. The Company may also make profit sharing contributions to the Plan solely at the discretion of the Company's Board of Directors. There were no discretionary profit sharing contributions authorized for 2009. All contributions are subject to the limitations imposed under IRC Section 404(a)(3)(A).

Participant Accounts

Each participant's account is credited with the participant's voluntary 401(k) and Roth contributions, the employer's matching and discretionary contributions, and earnings or losses thereon. Allocations of the Company's discretionary contributions are given only to participants employed at the end of the Plan year and are based on participants' eligible compensation (subject to applicable limitations) for the Plan year relating to the contribution. Plan earnings or losses are allocated daily based on each participant's balance within each fund.

Vesting

Participants are immediately vested in all contributions, plus actual earnings thereon.

Payment of Benefits

On termination of service, a participant is entitled to receive a lump-sum payment equal to his or her account balance, as defined. If the participant's account balance is between \$1,000 and \$5,000, the plan administrator may make an automatic rollover of the account balance to a qualified individual retirement account. If the participant's account balance is less than \$1,000, the plan administrator may direct the trustee to make a lump sum distribution of the account balance. Participants with a balance in excess of \$5,000 may maintain an account within the Plan until normal retirement age as defined by the Plan. Withdrawals, while an actual employee of the Company, are also permitted in certain financial hardship circumstances, as defined.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Participant Loans

Participants may receive loans of their account balance in amounts not to exceed those prescribed by Internal Revenue Service Regulations. Such loans bear interest at a reasonable rate commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money.

Plan Expenses

The Plan's administrative expenses are paid by the Company, except for transaction costs related to employee loans, which are paid by the Plan, as provided by the Plan document

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could vary from the estimates that were used.

Basis of Accounting

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, *Defined Contribution Plans* (formerly Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*) (the ASC), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to a fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the ASC, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for its investment contract. Shares of mutual and money market funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Plan benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through October 11, 2010, the date the financial statements were available to be issued.

3. INVESTMENTS

Assets of the Plan are held in a trust administered by ING Life Insurance and Annuity Company (ING) in separate accounts representing investments. Investment of participants' voluntary contributions, the Company's matching contributions, and any profit sharing contributions into these funds is at the direction of each participant. The accounts are credited with actual earnings and losses on the underlying investments and charged for Plan withdrawals and certain Plan expenses.

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

	<u>2009</u>	<u>2008</u>

4. ASSETS MEASURED AT FAIR VALUE ON A RECURRING BASIS

The various inputs that may be used to determine the fair value of the Plan's assets are summarized in three broad levels:

Level 1	Quoted prices in active markets for identical securities
Level 2	Other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.)
Level 3	Significant unobservable inputs (including the Plan's own assumptions used to determine value)

Generally, the Plan utilizes quoted market prices and other relevant information generated by market transactions, to measure fair value when available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques. In certain cases, the Plan may be required to make judgments about assumptions that market participants would use in estimating the fair value of financial instruments (Level 3 valuations).

Assets measured at fair value are comprised of the following at December 31, 2009:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Money market fund	\$ 43,058

4. ASSETS MEASURED AT FAIR VALUE ON A RECURRING BASIS (Continued)

Following is a reconciliation of activity for 2009 for the investment contract with insurance company (GIA) and participant loans receivable (loans) measured at fair value based on significant unobservable (non-market) information (Level 3):

	GIA	Loans
Balance, beginning of year	\$ 1,933,264	\$ 121,940
Unrealized gain	52,580	
Purchases, sales, issuances, and settlements - Net	(518,727)

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan maintains a fully benefit-responsive investment contract with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents, (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The yields for the guaranteed investment contract are as follows:

	2009	2008
Average yields:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.15%	3.15%

6. INFORMATION CERTIFIED BY THE TRUSTEE

In accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by ING.

ING has certified as to the completeness and accuracy of the investments it holds, changes in net assets arising from said investment activity and the schedule of assets held for investment purposes at end of year as of December 31, 2009 and 2008, and for the year ended December 31, 2009.

7. TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

8. PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and an investment contract managed by ING. ING is the trustee as defined by the Plan and, therefore, those transactions qualify as party-in-interest.
