To the Administrative Committee of
Cone Drive Operations Salaried Plan

We were engaged to audit the financial statements of ***Cone Drive Operations Salaried Plan*** (the "Plan") as of December 31, 2009 and November 12, 2009, and for the period November 13, 2009 through December 31, 2009 and for the year ended November 12, 2009, and the supplemental information as of December 31, 2009, as listed in the accompanying contents. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the *Department of Labor's Rules and Regulations for Reporting and Disclosure* under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes C and E, which was certified by Principal Financial Group, the Trustee of the Plan, except for comparing the information with related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of and for the periods ended December 31, 2009 and November 12, 2009, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the *Department of Labor's Rules and Regulations for Reporting and Disclosure*, under the Employee Retirement Income Security Act of 1974.

As discussed in Note I to the financial statements, the Plan changed its fiscal year from one ending on November 12 to one ending on December 31, resulting in a short period.

Cone Drive Operations Salaried Plan

NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF PLAN

The following description of the Cone Drive Operations Salaried Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan, effective November 13, 2008, is a noncontributory qualified defined benefit pension plan covering all eligible salaried and commissioned employees subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was established to enable employees of Cone Drive Operations (the "Company") to accumulate capital for retirement.

The Plan's participants and related net assets available for benefits were formerly included in the Textron Master Retirement Plan. Participants and account balances were transferred to, and operations of the new plan began on, November 13, 2008.

Eligibility

Eligibility is met when a salaried or commissioned employee works 1,000 hours or more per year.

Vesting

Participants earn rights to benefits based on years of continuous service. Rights to pension benefits for normal retirement, early retirement and vested retirement are determined on the date of the employee's termination of employment. A participant is 100% vested after five years of vesting service.

Actuarial Present Value of Accumulated Plan Benefits

Upon retirement or termination of service, a participant's benefits are based on compensation and years of credited service. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date. Accumulated plan benefits (see Note D) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees up to the valuation date.

Forfeited Accounts

Forfeited nonvested account balances are used to reduce the Plan Sponsor's contributions to the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

Plan transactions are recorded on the accrual basis of accounting.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Separate accounts are valued at quoted market prices of the underlying mutual fund.

Appreciation or depreciation in the fair value of investments represents the change in the difference between aggregate fair value and aggregate cost of investments, including investments purchased, sold and held during the year.

Purchases and sales of securities are recorded on a trade-date basis.

Payment of Benefits

Benefits are recorded when paid.

Funding Policy

Contributions are determined by an independent actuary using the Long-Term Contribution Level assumption and Plan Accounting method. The Long-Term Contribution Level allocates the difference between the Benefit Liability and the Actuarial Value of Assets as a level percentage of payroll per year. This reflects service and compensation projected to the age benefits are assumed to be paid and increase in compensation and benefit limits projected at 3.00% per year. The minimum contribution requirement of ERISA was met in 2009.

NOTE C - INVESTMENTS

The investments of the Plan are as follows at:

	December 31, 2009	November 12, 2009
Investments at fair value as determined by quoted market prices		
Insurance contracts - separate accounts	$ 17,633,181	$ 17,604,946

The Plan's investments, including investments purchased or sold, as well as held during the year, appreciated in value as follows:

	December 31, 2009	November 12, 2009
Investments at fair value as determined by quoted market prices		
Insurance contracts - separate accounts	$ 140,738	$ 935,677

The fair values of individual investments that represent 5% or more of Plan assets available for benefits at year end are as follows:

	December 31, 2009	November 12, 2009
PIMCO Core Plus Bond I	$ 5,608,869	$ 5,637,040
Principal Global Investors Bond and Mortgage	5,488,382	5,566,817
Blackrock Financial Management, Inc Inflation Protection	2,106,725	2,108,398

NOTE D - ACCUMULATED PLAN BENEFITS

An actuary from Principal Financial Group estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information, as of November 13, 2009 is as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits:	
Participants currently receiving payments	$ 11,173,891
Other participants	7,144,102
	18,317,993
Nonvested benefits	596,699
Total present value of accumulated plan benefits	$ 18,914,692

Changes in the actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at November 13, 2008	$	18,158,709
Increase (decrease) for:		
Increase for interest due to decrease in the discount period		1,184,236
Benefits paid		(1,228,934)
Benefits accumulated and plan experience		754,097
Change in assumptions		46,584
Actuarial present value of accumulated plan benefits at November 13, 2009	$	18,914,692

Significant assumptions underlying the actuarial computations are:

Assumed rate of return on investments	6.75%
Mortality	IRS prescribed mortality-optional tables for small plans, male and female, during benefit payment period and before benefit payment period.
Retirement	Determined by company experience with a weighted-average retirement age of 65

Accrued benefit amount (The greatest of A - E):

A) The sum of 1 and 2:
   1. The sum of (i) 1.50% of the difference between monthly Average Compensation and Covered Compensation, and (ii) 1.00% of the lesser of Covered Compensation or monthly Average Compensation; times (iii) Credited Service through December 31, 2006 subject to a total limit of 35 years.
   2. 1 1/3% of monthly Average Compensation times Credited Service earned after December 31, 2006, offset by the participant's Retirement Account expressed as an actuarially equivalent single life annuity commencing at age 65 (or, if later, the actual retirement date).

B) $50 per year of Credited Service with service up to 5 years, with any portion of such amount that is attributable to Credited Service earned after December 31, 2006 being offset by the participant's Retirement Account, as described in A(2).

C) For Grandfathered Employees only: The sum of (i) 1.50% of the difference between monthly Average Compensation and Covered Compensation, and (ii) 1.00% of the lesser of Covered Compensation or monthly Average Compensation; times (iii) Credited Service subject to a total limit of 35 years, with any portion of such amount that is attributable to Credited Service earned after December 31, 2006 being offset by the participant's Retirement Account as described in A(2).

D) The participant's accrued benefit earned as of December 31, 2006.

E) For certain prior plan members of the Textron Consolidated Retirement Plan (formerly the Ex-Cell-O Plan): The sum of the December 31, 1988 frozen accrued benefit times the Compensation Ratio at termination plus the greatest of the above benefits calculated with service after December 31, 1988 (not to exceed 35 years minus the member's Ex-Cell-O credited service).

All actuarial assumptions are based on the presumption that the Plan will continue.

NOTE E - FAIR VALUE OF FINANCIAL INSTRUMENTS

FASB ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Insurance contracts - separate accounts: Valued at the net asset value ("NAV") of the underlying mutual funds held by the Plan's insurance contract issuer at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Assets at Fair Value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total
Insurance contracts - separate accounts	$ -	$ 17,633,181	$ -	$ 17,633,181

Assets at Fair Value as of November 12, 2009				
	Level 1	Level 2	Level 3	Total
Insurance contracts - separate accounts	$ -	$ 17,604,946	$ -	$ 17,604,946

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

A party-in-interest is defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company and certain others. Professional fees for the administration of the Plan were paid by the Company. Fees paid to mutual fund managers, the amounts of which are unknown, are netted against investment income.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the Plan assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all. Information about the PBGC's benefit guarantee and priority of benefits are available in the Summary Plan Description which is available at the personnel office of Cone Drive Operations.

NOTE H - TAX STATUS

The Plan has not obtained a determination letter; however, the Plan Administrator and the Company believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

All tax positions taken by the Plan have been assessed to have a near 100% likelihood of being sustained upon their ultimate settlement in the event they are examined by taxing authorities and, therefore, there are no unrecognized tax benefits. The tax years that remain subject to examination by the Internal Revenue Service are the year ended November 12, 2009 and short year ended December 31, 2009.

NOTE I - CHANGE IN ACCOUNTING POLICY - PLAN FISCAL YEAR

During 2009, the Company changed the Plan's fiscal year from one ending on November 12 to one ending on December 31, resulting in a short period. This change was made in order to align the Plan with the Company's payroll records, fiscal year and the Custodian of the Plan's investments fiscal year.

NOTE J - SUBSEQUENT EVENT

The Company has evaluated events and transactions subsequent to December 31, 2009 for potential recognition and disclosure through October 13, 2010, the date the financial statements were available to be issued. Management has not identified any subsequent events through October 13, 2010.

Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Methods Selected by Plan Sponsor	
Asset Measure	Market value
Segment Rates	24 month average with no weighting to prior law basis. Use rates where June is the last month included in the average.
PBGC Premium Basis	Premiums are calculated using the funding target rates used for the plan year. Once elected, must continue on this basis for 5 years before a change can be made.
Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by: • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE
Assumptions and Methods Elected by Actuary Long-Term Contribution Level and Plan Accounting (formerly known as SFAS No. 35)	
With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular Funding Target and Target Normal Cost.	
Interest Rate Used to Value Liabilities	6.75%
Benefit Liability	Long-Term Contribution Level reflects: • Service and compensation projected to the age benefits are assumed to be paid. • Compensation and benefit limits projected at 3.00% per year.
Long-Term Contribution Level	Allocates the difference between the Benefit Liability and the Actuarial Value of Assets as a level percentage of payroll per year.
