Employees of the Sponsor may participate in the Plan if they are 21 years or older and have completed 1,000 hours of service in a period of 12 consecutive months. Non-resident aliens and union employees are excluded from the Plan. The Plan's enrollment dates are the first day of the plan year quarter coinciding with or next following the date the eligibility requirements are satisfied.

Contributions:
An employee electing to participate in the Plan may contribute 1% to 100% of their eligible compensation on a pre-tax basis up to the maximum allowed by the Internal Revenue Code. However, participants who have attained the age of 50 at the end of the Plan year are eligible to make catch-up contributions, up to the maximum allowable contribution of $5,000, for each of the years ended December 31, 2009 and 2008. The Plan also provides for an automatic enrollment contribution in the amount of 1% in the absence of an affirmative decision not to participate. The Sponsor may make discretionary profit sharing and matching contributions to the Plan. During the year ended December 31, 2009, the Sponsor did not make profit sharing or matching contributions to the Plan.

Participant accounts:
Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and the allocated share of the Sponsor's contributions, Plan earnings, gains, or losses, and administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan.

Vesting:
Participants are immediately vested in their contributions plus earnings thereon. Participants are vested in the Sponsor's contribution over a six year period with twenty percent vested upon two years of service and continue to vest at twenty percent each year following until fully vested.

NOTE 1 - DESCRIPTION OF THE PLAN - CONTINUED

Payment of benefits:
Under the terms of the Plan, participants are eligible for benefit payments upon attaining the age of 65. The Plan also provides for distributions to participants, or their beneficiaries, upon death, disability and termination of employment. Payments are made in lump-sum. In-service distributions are not allowed.

Participant hardship withdrawals:
Under certain conditions of financial hardship a participant may withdraw all or any portion of the employee's fully vested account balance during employment. Financial hardship expenses include deductible medical expenses, funds to purchase a principal residence, excluding mortgage payments, tuition and related educational expenses for participant, spouse, or dependents, and funds to prevent eviction or mortgage foreclosure on a participant's principal residence.

Forfeitures:
Forfeited balances of terminated participants are used to reduce the Sponsor's matching contributions that the Sponsor would otherwise make for the Plan year in which the forfeitures are allocated. At December 31, 2009 and 2008, there were no forfeitures.

Administration:
The Plan is administered by the Sponsor. Certain administrative expenses of the Plan are paid by the Sponsor.

Participant loans:
Participants may obtain loans from their vested account balances. Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may have no more than two outstanding loans at any time. The term of the loan shall not exceed five years. The loans are secured by the balance in the participant's account and bear interest at the published prime interest rate plus 1% on the day of the loan. In addition, loan repayments are made through payroll deductions, and each payment, which includes interest, is credited to the participant's loan account.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation:
The financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment Valuation and Income Recognition:
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates:
The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and schedules. Actual results could differ from those estimates.

Payment of benefits:
Benefits are recognized and recorded when paid.

Reclassification:
Certain amounts in the 2008 financial statements have been reclassified in order to conform to the 2009 presentation.

NOTE 3 - PLAN TERMINATION

Effective August 3, 2010, the Sponsor has initiated the termination of the Plan. The Sponsor has contacted the Trustee and instructed the Trustee to begin the procedures necessary to liquidate the Plan assets. The Plan assets will be distributed in a manner approved by the Internal Revenue Service.

NOTE 4 - TAX STATUS

The Plan was established by adopting a prototype plan which received a determination letter from the Internal Revenue Service dated March 31, 2008, stating that the Plan is qualified under Section 401 (a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter; however the Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and the Plan and related trust continues to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 5 - INVESTMENTS - CERTIFIED BY TRUSTEE

NOTE 6 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 inputs include the following:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liabilities; and
  - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- Certain mutual funds are valued at the quoted price per share at the respective year-end.
- Certain mutual funds and common trust funds are valued at the net asset value of shares held by the Plan at year-end.
- Participant loans are valued at cost plus accrued interest, which approximate fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 - FAIR VALUE MEASUREMENTS - CONTINUED
