Savings Plan for Salaried Employees

Notes to Financial Statements

December 31, 2009 and 2008

Note 1 - Plan Description

The following description of Severstal North America, Inc. Savings Plan for Salaried Employees (the "Plan") provides only general information. Participants should refer to the plan agreement and related union agreements, if applicable, for a more complete description of the Plan's provisions.

General - The Plan is a voluntary, defined contribution plan covering all salaried employees of Severstal North America, Inc. (the "Company"), along with salaried laboratory workers and firefighters, who have attained three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration - The Company is the sponsor of the Plan. Mercer Trust Company functions as trustee and investment manager. Investment management fees and trustee fees are paid by the Plan or the Company, at the discretion of the plan administrator.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - Participant and Company contributions may be allocated to investment options in multiples of 1 percent. Participants may change their investment choices for both future contributions and existing account balances, and may suspend contributions by contacting Mercer Trust Company.

Participant Loans - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 8.25 percent, which are commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest are paid ratably through deductions taken each pay period.

Contributions - Participants may elect to make before-tax and after-tax contributions to the Plan. The Plan provides for employee salary 401(k) before-tax contributions up to a maximum of 99 percent and after-tax contributions up to a maximum of 10 percent of the annual compensation subject to limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Notes to Financial Statements December 31, 2009 and 2008

Note 1 - Plan Description (Continued)

The Company makes contributions to the Plan as a percentage of each participant's base salary or, if greater, a minimum base salary, and the participant's age as defined in the plan document, according the following schedule:

Participant's Age at End of Pay Period	Monthly Minimum Base Salary	Employer Contribution Percentage
Under 25	\$ 1,734	2.5
25-29	1,957	3.1
30-34	2,109	3.7
35-39	2,621	4.3
40-44	3,184	4.9
45-49	4,173	5.4
50-54	5,380	5.8
55 and over	7,269	6.2

Vesting - Participants are immediately vested in employee salary 401(k) and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in matching contributions 100 percent after three years of service, as defined in the Plan, or at age 65, regardless of service.

Payment of Benefits - Distributions are payable upon retirement, attainment of age 59½, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Hardship Withdrawals - Participants may request that all or a portion of their contributions account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions or to pay administrative expenses of the Plan.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Mercer Trust Company or its affiliates. Mercer Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - Investments in mutual funds and common stock are stated at fair value as determined by quoted market prices. Investments in common collective trust funds are stated at fair value, based on the fair value of the underlying assets. The money market account is valued at its outstanding balance, which approximates fair value. Participant loans receivable are valued at amortized cost, which approximates fair value (see Note 4).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Contributions - Contributions are recorded in the period that payroll deductions are made from participants.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 23, 2010, which is the date the financial statements were available to be issued.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Reclassification - Certain prior year amounts have been reclassified to conform to the current year presentation.

Note 3 - Unaudited Investment Information

Mercer Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee. Significant investments at year end are as follows:

Mutual funds:		
Artisan Mid Cap Value Fund	\$ 1,898,178	\$ 1,424,331
Harbor Capital Appreciation Fund	2,712,080	1,933,458

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2009 and 2008, and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include interest rates, principal amounts, and number of payments remaining.

Note 4 - Fair Value Measurements (Continued)

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
