# THE COMMODITIES GROUP 401(k) PLAN AND TRUST

## NOTES TO FINANCIAL STATEMENTS

**December 31, 2009 and 2008**

1. Description of plan

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

*General*

The Plan is a defined contribution plan covering all employees of the employer (the "Company") who have completed six months of service prior to a quarterly entry date and are age 19 or older. For purposes of the Plan, the employer includes the following controlled group:

Ecom Atlantic, Inc.
Ecom USA, Inc.
Atlantic USA, Inc.
Ecom Real Estate Management, Inc.
Atlantic Specialty Coffee, Inc.
Sunbelt Warehouse Corporation, LLC

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

*Contributions*

Participants may make salary reduction contributions (elective deferrals) to the Plan up to a maximum deferral of 60 percent of gross salary not to exceed limits established by the Internal Revenue Service. The Plan also allows catch-up contributions for participants age 50 and older. Participants may also rollover amounts from another qualified plan.

The Company may contribute an amount to the Plan at its sole discretion. As of December 31, 2009 and 2008, the Company elected to match the first $500 of all deferrals two for one and deferrals in excess of $500 at 85 cents on the dollar up to a combined maximum match of $7,000.

*Participant accounts*

Each participant's account is credited with the participant's elective deferral, the Company's qualified non-elective discretionary contributions, and is charged or credited with net earnings, gains, and losses, as well as appreciation or depreciation in market value of investments during each plan year attributable to such account.

*Vesting*

Vesting of employer contributions is based on years of continuous service. A participant is 100 percent vested in employer contributions after 5 years of credited service as defined by the Plan. All participant deferrals are fully vested.

*Risks and uncertainties*

The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rates, market and credit risks. Due to the level of risk associated with investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and statement of changes in net assets available for benefits.

*Investment options*

Upon enrollment in the Plan, a participant may direct their account balance in any of the following twenty-four investment options.

*Fidelity Retire MMKT* – seeks a high current income, preservation of capital, and liquidity from money market instruments.

*Fidelity Intermediate Bond* – seeks a high level of current income, through investment in high- and medium-grade, fixed income obligations.

*Fidelity Equity Income II* – seeks income by investing primarily in income-producing equity securities, considering the potential for capital appreciation. Seeks yield exceeding the S&P 500.

*Spartan US Equity Index* – seeks investment results that correspond to the total return performance of the Standard and Poor's 500 Index by duplicating the investment composition.

*Fidelity Growth Strategies Fund* – seeks long-term capital appreciation by investing mainly in equity securities of companies believed to offer the potential for accelerated growth.

*Fidelity Mid-Cap Stock* – seeks to increase the value of investments over the long term through capital growth.

*Eaton Large Cap Value Fund* – seeks to provide long-term capital appreciation by investing in a diversified portfolio of other equity mutual funds using a fund upgrading system.

*MAS Mid-Cap Growth* – seeks to increase the value of investments over the long term through capital growth.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded when paid. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

In accordance with FASB ASC 855, Subsequent Events, management has reviewed subsequent events through June 7, 2010, the date the report was available to be issued.

2. Summary of significant accounting policies

*Basis of accounting*

The statements are presented using a modified cash basis of accounting. Under the modified cash basis, income is recorded when received and expenses and benefits are recorded when paid. Investments are stated at market value based on the latest quoted prices.

*Use of estimates*

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan sponsor to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Information certified by Fidelity Management Trust Company

The plan sponsor has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan sponsor instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company, except for comparing such information certified by the trustee to information included the Plan's financial statements and supplemental schedules.

The following table presents the fair value of investments in the Plan which was certified by Fidelity. Single investments representing 5 percent of the Plan's net assets as of December 31, 2009 and 2008 are separately identified.

Forfeitures of non-vested accounts total $9,938 and $11,360 as of December 31, 2009 and 2008, respectively.

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all amounts credited to the affected participants' combined accounts, if not already vested, shall become 100 percent vested.

6. Tax status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code and, accordingly, the trust's net investment income is exempt from income tax. The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan sponsor and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

As of January 1, 2009, the Plan has adopted FASB ASC 740, *Accounting for Uncertainty in Income Taxes*. The Plan has evaluated its uncertain tax positions and has not identified any positions that require disclosure. Accordingly, no provision for uncertainties in income taxes has been made in the accompanying financial statements.

7. Separated participants

At December 31, 2009, the market value of the accounts held by participants who have separated from employment with the plan sponsor total $57,798. The value of the accounts held by participants who separated from employment with the plan sponsor and elected to withdraw from the Plan but have not been paid as of December 31, 2009 and 2008 totals $0.

8. Fair value measurements

FASB ASC 820-10, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements)

and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ('NAV") of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan

believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

| | Assets at Fair Value as of December 31, 2009 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Mutual funds, including cash balance | $ 10,176,672 | $ - | $ - | $ 10,176,672 |
| Participant loans | - | - | 415,701 | 415,701 |
| Total assets at fair value | $ 10,176,672 | $ - | $ 415,701 | $ 10,592,373 |

| | Assets at Fair Value as of December 31, 2008 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |

| Total assets at fair value | $ 7,193,805 | $ - | $ 389,009 | $ 7,582,814 |
