INDEPENDENT AUDITORS' REPORT

Continental Automotive, Inc. and Certain Affiliated Companies:

We were engaged to audit the financial statements and supplemental schedule of the Continental NA Savings Plan for Union Employees (the "Plan") as of September 30, 2009 and December 31, 2008 and for the period January 1, 2009 through September 30, 2009 and the year ended December 31, 2008, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of September 30, 2009 and December 31, 2008 and for the period January 1, 2009 through September 30, 2009 and the year ended December 31, 2008, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CONTINENTAL NA SAVINGS PLAN **FOR UNION EMPLOYEES**

NOTES TO FINANCIAL STATEMENTS

FOR THE PERIOD JANUARY 1, 2009 THROUGH SEPTEMBER 30, 2009
AND THE YEAR ENDED DECEMBER 31, 2008

1. DESCRIPTION OF PLAN

The following description of Continental NA Savings Plan for Union Employees (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The plan covers union employees of Continental Automotive Systems, Inc. (the “Company”) who have met certain eligibility requirements as specified in the Plan document.

Employees are eligible to enroll in the plan on their date of hire. Participants that do not enroll in the plan within the first 30 days of their hire are automatically enrolled in the Plan to contribute 3% of their base pay unless they elect out of the plan.

Continental AG acquired Siemens VDO Automotive Corporation (“Siemens”) effective December 3, 2007. The Company, a subsidiary of Continental AG, adopted the Plan effective January 1, 2008 to benefit individuals who were participants in the Siemens Savings Plan for Union Employees on December 31, 2007 and who became employees of the Company as a result of the Siemens acquisition. The Company also adopted the Plan to benefit eligible employees hired on and after January 1, 2008.

Pursuant to Continental AG’s acquisition of Siemens, participants in the Siemens Savings Plan had their account balances transferred to this Plan. Net transfers from the Siemens Savings Plan to this Plan were \$30,780,143, during 2008.

Effective September 30, 2009, the assets of the Plan were merged into the Retirement Savings Plan for Employees of Continental - Automotive Systems. The participants’ accounts were transferred into the new Plan and the participants are immediately able to participate in the Plan.

Plan Contributions - Participants may contribute up to 25% of their annual compensation (before-and/or after-tax), up to a maximum of \$16,500 and \$15,500 for 2009 and 2008, respectively, subject to certain discrimination tests prescribed by the Internal Revenue Code. The Company matches 50% of the first 6% of compensation contributed to the Plan by the participant. Exceptions to this matching criteria are employees in the SVDO Automotive Huntsville Union Hourly and Salary Tier 2 Benefit Groups for which the Company matches 75% of the first 6% of compensation contributed by the participant to the plan. Employees in the SVDO Automotive Huntsville Hourly and Salary Tier 1 Benefit Groups are not eligible for a matching contribution.

Participant Accounts - Each participant's account is credited with the participant's contributions, allocations of the Company's matching contributions and Plan gains or losses. Allocations of earnings and losses for each fund are based on the ratio of weighted-average participant account balances to the total weighted-average of all participant account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Investment Options - Upon enrollment in the Plan, participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. Participants may direct their contributions into one or more core mutual funds, a money market fund or a self-directed brokerage account option that allows contributions in common stock, mutual funds, corporate debt, and cash and money market funds.

Vesting - Participants are immediately vested in their voluntary employee contributions in addition to actual earnings thereon. Vesting in Company matching contributions is based on years of service. Participants are 100% vested when they attain normal retirement age. Prior to normal retirement age, participants' interests in the contributions of the Company becomes vested 40% after two years of service, increasing 20% each succeeding year until fully vested after five years of service. Participants employed as of December 31, 2007 became 100% vested in their matching source.

Forfeitures - At both September 30, 2009 and December 31, 2008, forfeited nonvested accounts totaled \$0, respectively.

Distributions - Distributions from the Plan may be made upon proper application by a participant for retirement, proven financial hardship, death (in which case the payment is made to the beneficiary), or employment termination, as specified in the Plan document.

Participant Loans - The Plan permits each participant to borrow a minimum of \$1,000 up to 50% of his or her vested account balance not to exceed \$50,000. The loans are secured by the balance in the participant's account and bear interest at fixed rates that range from 4.0% to 8.25%, which is determined, based on a published interest rate plus 1%, as specified in the plan document. Principal and interest are paid ratably through payroll deductions. As of September 30, 2009 and December 31, 2008, the Plan had loans receivable from participants with balances totaling \$0 and \$2,229,081, respectively, which are included with investments in the accompanying statement of net assets available for benefits.

Participant Investment Rollovers - Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

Subsequent Events - In preparing its financial statements, the Company has evaluated subsequent events through September 27, 2010, which is the date the financial statements were available to be issued.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, except that benefits paid to plan participants are recorded on a cash basis.

Use of Accounting Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/ (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation/ (depreciation) in fair value of investments.

Contributions - Contributions from employees are recorded as they are withheld from the participants' wages. Contributions from the Company are recorded in the period in which the related participant contributions are due.

Distributions - Distributions are recorded when paid.

3. INVESTMENTS (UNAUDITED)

The Plan's investment assets are held in trust and administered by Fidelity Management Trust Company (the "Trustee"). All investment information disclosed in the accompanying financial statements, including investments held, net investment income (loss) and interest and dividends, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

The fair value of investments that represented 5% or more of the Plan's net assets available for benefits as of September 30, 2009 and December 31, 2008 are as follows:

	September 30, <u>2009</u>	December 31, <u>2008</u>
Fidelity Investments Retirement Government Money Market	*	\$ 15,165,082
Spartan US Equity Ind Advantage	*	\$ 2,110,944
Dow Jones Target 2025 C	*	\$ 1,431,765
Participant Loans	*	\$ 2,229,081

* Does not represent 5% or more of the Plan's net assets available for benefits for the respective year.

During the period from January 1, 2009 through September 30, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) as follows:

Mutual funds	\$ 2,842,451
Self directed accounts	174,751
Participant loans	<u>88,019</u>
Net appreciation in investments	<u>\$ 3,105,221</u>

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Money market funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Self directed brokerage accounts: Valued at the closing price reported in the active market on which the individually-owned securities are traded.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2009 and December 31, 2008:

Assets at Fair Value as of September 30, 2009

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Balance, December 31, 2008	<u>\$ 2,229,081</u>

Gains and losses (realized and unrealized) included in changes in net assets for the periods above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits for the period from January 1, 2009 through September 30, 2009 and the year ended December 31, 2008, respectively.

5. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by Fidelity Investments, Inc., an affiliate of Fidelity. Fidelity is the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative fees related to the administration of the Plan were paid by the Plan. Certain other third party administrator fees were paid by the Company on behalf of the Plan. These transactions qualify as party-in-interest transactions.

6. TAX STATUS

The Plan was adopted on January 1, 2008, and has been timely amended to comply with required and elective changes in the Plan's terms. The plan has not been submitted to the IRS for a favorable determination letter. However, the plan administrator believes the Plan has been operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

7. PLAN TERMINATION

The Plan was effectively terminated on September 30, 2009 and the Plan's assets were merged into the Retirement Savings Plan for Employees of Continental - Automotive Systems.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

During 2008, credit and liquidity issues in the United States and throughout the global financial system resulted in highly volatile financial markets. These economic events have had a significant adverse impact on many of the Plan's investment securities. As a result, the Plan's investments incurred a significant decline in fair value during the 2008 plan year.
