Note 1. Plan Description

The following brief description of the Home State Bancorp, Inc. 401(k) Plan (the Plan) provides general information only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering all employees of Home State Bank, N.A., Home State Mortgage Group, Inc. and Home State Leasing Corporation (the Companies) who are age 21 or older, excluding those who are union employees, nonresident aliens who have no earned income from sources within the United States, and leased employees. Participants enter the Plan on the first day following meeting eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Eligible participants can elect to make pre-tax and Roth contributions to the Plan as defined by the Plan. Additionally, participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to limitations as provided in the Internal Revenue Code (the Code) and as described in the Plan.

Participant accounts: Each participant's account is credited with the participant's contribution, and receives an allocation of Plan earnings and administrative expenses. Allocations are based on account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Payment of benefits: Vested benefits are payable as soon as practicable after termination of employment, Plan termination, disability or death. At this time, a participant or beneficiary may choose to receive a lump-sum distribution or installments over a period of not more than their assumed life expectancy.

Participant notes receivable: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 2-15 years. The loans are collateralized by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent, which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Note 2. Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Accounting estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

New accounting pronouncements: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, *Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. The adoption of the provision did not have a material impact on the financial statements.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years prior to 2006.

Pending accounting pronouncements: The FASB issued ASU 2010-6, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements,* which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010. Management is currently evaluating the impact of the guidance related to disclosures in the financial statements.

In September 2010, the FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment is effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented. This amendment has not yet been adopted. Management is currently evaluating the impact of this amendment of the Plan's financial statements.

Note 2. Significant Accounting Policies (Continued)

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2010, the date the financial statements were available to be issued.

Note 3. Investments and Information Certified by Alerus Financial, N.A.

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

	2009	2008
Shares of registered investment companies	$ 1,204,028	$ 788,490
Participant notes receivable	$ 54,728	$ 19,842
Net appreciation in fair value of investments	$ 209,726	
Interest and dividends	$ 19,760	

Note 4. Fair Value Measurement

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurement (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Shares of registered investment companies: Valued at the NAV of shares held by the Plan at year-end.

Participant notes receivable: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies:				
Bond investment funds	$ 629,294	$ -	$ -	$ 629,294

Participant notes receivable	-	-	54,728	54,728

	$ 788,490	$ -	$ 19,842	$ 808,332

Note 4. Fair Value Measurement (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Participant notes receivable
Balance, beginning of year	$ 19,842
Purchases, sales, issuances, repayments and settlements (net)	34,886
Balance, end of year	$ 54,728

Note 5. Investments

The following table presents the fair value of investments representing 5 percent or more of the Plan's net assets as of December 31, 2009 and 2008.

	2009	2008
Shares of registered investment companies:		
Dodge & Cox Income Fund	$ 164,095	$ 132,404

** Amount does not exceed 5% of the Plan's net assets for the respective year.

During 2009, the Plan's investments in shares of registered investment companies, including investments bought, sold and held during the year, appreciated in value by $209,726.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Related Party Transactions

The Plan's investments are held by Alerus Financial, N.A., the custodian of the Plan. These transactions, therefore, qualify as party-in-interest. Fees paid by the Plan to Alerus Financial, N.A. for the year ended December 31, 2009, were $1,331.

Certain employees of the Company perform administrative services for the Plan. These employees receive no compensation from the Plan for their administrative services. Certain other administrative expenses of the Plan are paid by the Company.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2009 and 2008:

	2009	2008
Net assets available for benefits per the financial statements	$ 1,266,519	$ 807,899
Participant contributions receivable	(7,763)	-
Net assets available for benefits per Form 5500	$ 1,258,756	$ 807,899

The following is a reconciliation of changes in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2009:

Increase in net assets available for benefits per the financial statements	$ 458,620
Contributions	(7,763)
Increase in net assets available for benefits per Form 5500	$ 450,857

Note 10. Income Tax Status

Effective January 1, 2007, the Plan has adopted a non-standardized prototype plan sponsored by RSM McGladrey, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The Plan is relying upon the prototype plan's opinion letter. The Plan has been amended since receiving this letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Internal Revenue Code.
