Notes to Financial Statements

December 31, 2009 and 2008

NOTE 1. DESCRIPTION OF PLAN

The following description of the Synerject, L.L.C. 401(k) Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, effective September 1, 1997, is a defined contribution plan covering substantially all employees of Synerject, LLC (the Company) who are eligible employees; employees who are neither represented by a bargaining unit, nor nonresident alien, nor leased employee. Eligible employees must be age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and Sections 401(a) and 501(a) of the Internal Revenue Code of 1986, as amended (Code).

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Participants elect the investment options in which contributions are invested and may change their investment options daily. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations. The Company makes matching contributions equal to the sum of 50% of the first six percent participant's elective deferral contributions. The Company may elect to make an additional discretionary contribution to the Plan for those employees eligible to participate in the Plan. However, the employees must be employed by the Company and eligible to participate in the Plan on December 31 to receive an allocation. The Company's discretionary contribution for the year ended December 31, 2009 was \$177,001. The Plan provides for negative elective deferrals. Upon reaching eligibility the Company will withhold 6% from newly eligible participant's compensation as an employee elective deferral contribution to the Plan, unless the participant elects a lesser percentage under their salary reduction election form agreement.

Participant Accounts

Each participant's account is credited with the participant's contributions and the employer's matching contribution. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF PLAN (Concluded)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the employer's contribution portion of their accounts for each year of service so that participants are fully vested after two years.

Payment of Benefits

Benefits paid to participants depend on the amount of their vested account and the optional form chosen.

Administrative Costs

Administrative costs are paid by the Company, except for loan initiation fees which are paid by participants requesting the loans.

Participant Loans

Participants may borrow from their accounts up to a maximum of the lesser of \$50,000 or 50% of their vested account balance (reduced by the highest outstanding loan balance, if any, during the one-year period ending on the day before the new loan is made), in accordance with the Department of Labor's regulation on loans to participants. Loans bear interest at the market rate and must be repaid over a period not to exceed five years unless used to purchase the participant's primary residence. Loans are secured by the participant's vested account balance. Loans are repaid through payroll deduction including principal and interest. The principal portion reduces the receivable from participants and both principal and interest are transferred to the participant's investment options as repayments are received.

Forfeitures

Forfeitures shall be used to offset Company contributions made after the forfeiture is determined.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts but does not present the adjustment of fully benefit-responsive investment contracts from fair value to contract value as the calculations were not materially different as of December 31, 2009 and 2008. The Statement of Changes in Net Assets Available for Benefits is prepared on the change in fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Payments of Benefits

Benefits are recorded when paid.

Investment Transactions and Related Investment Income

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 5. NEW ACCOUNTING PRONOUNCEMENTS

Effective January 1, 2009, the Plan adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 105-10, Generally Accepted Accounting Principles - Overall ("ASC 105-10"), which was formerly known as Statement of Financial Accounting Standards No. 168. ASC 105-10 establishes the FASB Accounting Standards Codification (the "Codification") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with generally accepted accounting principles (U.S. GAAP). Rules and interpretive releases of the U.S. Securities and Exchange Commission ("SEC") under authority of federal securities laws are also sources of authoritative U.S. GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority.

The Codification superseded all existing non-SEC accounting and reporting standards and all other non-grandfathered, non-SEC accounting literature included in FASB Staff Positions or Emerging Issues Task Force Abstracts. Instead, the FASB now issues Accounting Standards Updates ("ASUs"). ASUs are not considered authoritative in their own right, and serve only to update the Codification, provide background information about the guidance and provide the basis for conclusions on the change(s) in the Codification. References made to FASB guidance throughout this document have been updated for the Codification.

In May 2009, the FASB issued ASC 855-10, formerly SFAS No. 165, "Subsequent Events". ASC 855-10 establishes principles and requirements for the reporting of events or transactions that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855-10 is effective for financial statements issued for fiscal years and interim periods ending after June 15, 2009. As such, the Plan adopted these provisions during the period. Adoption of ASC 855-10 did not have a material effect on the Plan's financial statements.

NOTE 6. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

(Continued)

SYNERJECT, L.L.C. 401(k) SAVINGS PLAN AND TRUST

Notes to Financial Statements

December 31, 2009 and 2008

NOTE 6. FAIR VALUE MEASUREMENTS (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with

other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE 6. FAIR VALUE MEASUREMENTS (Concluded)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

Level 3 Assets	
	Participant Loans
Balance, beginning of year	\$ 67,126
Purchases, sales, issuances and settlements net	44,477
Balance, end of year	<u>\$ 111,603</u>

NOTE 7. GUARANTEED INVESTMENT CONTRACT

The Plan has entered into a fully benefit-responsive guaranteed investment contract with KeyBank National Association (KeyBank). KeyBank maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value but does not present an adjustment to contract value in arriving at net assets available for benefits as the calculations were not materially different as of December 31, 2009 and 2008. Contract value, as reported to the Plan by KeyBank, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was \$464,341 and \$412,048, respectively.

SYNERJECT, L.L.C. 401(k) SAVINGS PLAN AND TRUST

Notes to Financial Statements

December 31, 2009 and 2008

NOTE 8. INCOME TAX STATUS

The Internal Revenue Service has determined and informed Synerject, L.L.C. 401(k) Savings Plan and Trust by a letter dated July 22, 2003, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9. RELATED PARTY TRANSACTIONS

For the plan year ended December 31, 2009 the plan sponsor absorbed significant plan administrative costs. Certain Plan investments are managed by the Principal Life Insurance Company, the trustee and therefore, those transactions qualify as a party-in-interest transaction.

NOTE 10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11. SUBSEQUENT EVENTS

The Plan has evaluated all events subsequent to December 31, 2009 through October 12, 2010, which is the date these financial statements were available to be issued. The Plan has determined that there were no subsequent events that required disclosure pursuant to the FASB Accounting Standards Codification.
