A. DESCRIPTION OF PLAN

The following description of Lusardi Construction Co. ("the Company) 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Amendment

Since January 1, 1997, the Company has maintained the Lusardi 401(k) Plan for the benefit of its employees. Effective October 1, 2009, the Company amended the Plan by adopting a 401(k) prototype Plan sponsored by Principal Financial Group. The Plan has been amended to comply with new retirement Plan regulations.

General

The Plan is prototype defined contribution Plan covering all full-time employees of the Company who gave 500 hours of service and are eighteen or older. It is subject to the provisions of Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution Plans. The Company did not match any contribution for 2009. Contributions are subject to certain limitations. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A Participant is 100% vested after six years of credit services.

Investment Options

Upon enrollment in the Plan, a participant directs the investment of their employee contributions and their employer matching contribution into one or more selected registered investment companies. The investments were held by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, a member of the Principal Financial Group, the trustee of the Plan. Participants may change their investment options at anytime by telephone or internet.

A. DESCRIPTION OF PLAN (CONTINUED)

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range to a maximum of five (5) years. The loans are secured by the balance in the participant's account and bear interest at Prime Rate. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or attaining normal retirement, a participant will receive a lump-sum amount equal to the value of the participant's account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his her account as a lump-sum distribution. A participant may elect to have their benefits paid directly to them or have the benefits directly rolled over to another qualified retirement Plan or an individual retirement account.

Forfeited Accounts

At December 31, 2009, forfeited nonvested accounts totaled $29,708. These accounts will be used to reduce future employer contributions.

Subsequent Events

Subsequent events have been evaluated through October 6, 2010, which is the date the financial statements were available to be issued.

B. SUMMARY OF SIGNIFICANT POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attributed for that portion of the net assets available for benefits of a defined-contribution Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly actual results may differ from those estimates.

B. SUMMARY OF SIGNIFICANT POLICIES (CONTINUED)

Investment Valuations

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Participant notes receivable are valued at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

C. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets.

Prin LGCAP S&P 500 Idx R5 Fund	$	861,992
AME Funds CAP WLD GR & IN R3 Fund	$	915,568
MFS Value R2 Fund	$	1,082,966
PIMCO Total Return a Fund	$	1,451,283
Janus Forty S Fund	$	1,925,712
American Funds Growth FD of AM R3 Fund	$	1,935,240
Prin Fixed Inc Guar Option	$	2,882,714

During 2009, the Plan's investment (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $3,173,788 from mutual funds.

D. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

E. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to Schedule H of Form 5500:

Net assets available for benefits per the Trust financial statements	$	16,794,788
Contribution after December 31, 2009		29,915
Net assets available for benefits per Schedule H to the Form 5500	$	16,824,703

F. INVESTMENT INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the attached financial statements and supplemental schedule was obtained from the data that has been obtained and certified to as complete and accurate by Plan trustee:

Investments at fair value	$	16,794,788
Participants notes receivable		733,476
Investment gain		3,458,237
Participants' contribution		599,221
Benefits paid to participants		2,736,497

G. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. TAX STATUS

The Plan obtained a favorable determination letter from the Internal Revenue Service dated March 26, 1999. Although the Plan has been amended since receiving the letter, the Plan administrator representatives believe that the Plan is designed and operating in compliance with applicable requirements of Internal Revenue Code.

I. RELATED PARTY TRANSACTION

Certain Plan investments are shares of mutual funds managed by Principal Financial Group. Principal Financial Group is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $298 for the year ended December 31, 2009.

J. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provide the framework for measuring the fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three level of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

J. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means
- If the asset or liability has specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see note K).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at reporting date.

The flowing table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009. Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total
Mutual Funds:

Level 3 Gains and losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

Level 3 Assets
Year Ended December 31, 2009

	Guaranteed Investment Contract	Participant Loans	Total
Balance, beginning of year	$ -	$ 806,557	$ 806,557
Realized gain/(losses)	-	-	-
Unrealized gain/(losses) relating to instruments still held at the reporting date	17,734	-	17,734
Purchases, sales, issuances and settlements (net)	3,016,702	(73,081)	2,943,621
Balance at the end of year	$ 3,034,436	$ 733,476	$ 3,767,912
The amount of total gain or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 17,734	$ -	$ 17,734

Gain and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

K. GUARANTEED INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

In 2009, the Plan entered into a benefit responsive guaranteed investment contract with Principal Life Insurance Company. Principal maintains the contributions in general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by National, represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 was $2,882,714. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2.45%. Such interest rates are reviewed on a six months basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:

1. Amendments to the Plan documents(including complete or partial Plan termination or merger with another Plan)
2. Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions
3. Bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan
4. Failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:

Based on actual earnings	3.25%
Based on interest rate credited to participants	2.45%
