The Libbey Inc. Employee Benefits Committee
Third Amended and Restated
Syracuse China Company
Union Pension Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Third Amended and Restated Syracuse China Company Union Pension Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 5, which was certified by State Street Bank and Trust, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Union Pension Plan

Notes to Financial Statements

December 31, 2009 and 2008

1. Description of the Plan

The following description of the Third Amended and Restated Syracuse China Company Union Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description or Plan Document for more complete information about the Plan, including the vesting and benefit provisions and Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee. Copies of these documents are available at the corporate office of Libbey Inc. (the Company, Plan Sponsor, and Plan Administrator).

General

The Plan, as amended and restated January 1, 2008, was established effective October 10, 1995, as a result of the purchase of the Syracuse China unit of Susquehanna Pfaltzgraff Co. by the Company. The Plan is a defined-benefit plan established to provide normal and early retirement, termination, and death benefits to full-time hourly employees and is intended to provide benefits comparable to the benefits participants would have received under the Syracuse China Corporation Pension Plan (Previous Plan). The Plan was initially funded by a transfer of assets and assumption of obligations of the Previous Plan. As of April 9, 2009, the Syracuse China manufacturing facility ceased operations. The Company intends to continue the Plan and to fund the Plan in accordance with minimum funding requirements.

Contributions

Participants are not permitted to make contributions to the Plan. The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan participants. The Company's present intention is to make annual contributions in amounts sufficient to fund the Plan's current year's service cost. Prior service cost is amortized on a straight-line basis over the expected average remaining service of active participants. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements.

1. Description of the Plan (continued)

Benefits

A participant is entitled to pension benefits beginning at normal retirement age (65) based on a benefit formula amount stipulated by union class in the applicable union contract multiplied by the participant's years of credited service under the Plan or the Previous Plan. Benefits are paid at the option of the participant in the form of a lump sum or recurring payment. Accrued benefits become vested after completion of five years of credited service or the attainment of normal retirement age. Benefits are payable beginning at normal retirement age or in reduced amounts upon early retirement and the completion of 15 years of credited service. Benefits are also payable upon disability, death, or termination of employment.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions set forth by ERISA. If the Plan were to terminate at some future time, its assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC's benefit guaranty while other benefits may not be provided for at all. Due to the closure of the Syracuse manufacturing facility, the Plan experienced a partial plan termination, in which certain employees fully vested to the extent funded on that date, in accordance with plan provisions.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. Benefit payments to participants are recorded upon approval.

2. Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Most significantly, estimates are used in determining the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

New Accounting Pronouncements

On July 1, 2009 the Financial Accounting Standards Board (FASB) Accounting Standards Codification™ (FASB ASC) became the single source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. The FASB ASC became effective for financial statements issued for interim and annual periods ending after September 15, 2009.

In April 2009, the FASB issued FASB Staff Position (FSP) 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. FSP 157-4 amended the guidance codified in ASC 820, *Fair Value Measurements and Disclosures*, to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the NAV is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 4 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended certain of the disclosures required under ASC 820. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

2. Significant Accounting Policies (continued)

Plan Investments

The Plan's assets are included in the Libbey Inc. Master Retirement Trust (Master Trust) along with the assets of the other pension plans of the Company and certain of its subsidiaries. The Master Trust holds an investment in a Harbor Capital Group Trust for Defined Benefit Plans (Group Trust). The trustee of the Plan is State Street Bank and Trust (State Street). The Group Trust is under a separate trust agreement, along with the assets of the other pension plans of the Company and Owens-Illinois, Inc. and certain of its subsidiaries. The Group Trust assets are invested by designated advisors in various investments, including domestic and foreign corporate equity and debt issues, government securities, and real estate investment trusts. Earnings of the Group Trust are allocated to each plan based on the relative market values of their net assets. These financial statements reflect the Plan's total interest in the net assets and transactions of the Group Trust as allocated by the trustee and any such other investments and transactions related solely to the Plan.

The Master Trust also holds investments in four hedge funds. The funds are multi-strategy hedge funds. The investment objective is to achieve long-term equity-like returns with significantly less volatility than the equity markets. It seeks to accomplish this investment objective by investing in a diversified portfolio of hedge funds.

Investment Valuation and Income Recognition

The Plan's interests in commingled trust funds of the Group Trust are valued at the unit prices established by the trustee. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3, Fair Value Measurements, for further details.

Subsequent Events

Management evaluated subsequent events for the Plan through October 13, 2010, the date the financial statements were available to be issued. Subsequent to year-end, the Plan Administrator has entered into negotiations with the PBGC regarding certain funding of the Plan, however; no agreement has been finalized.

Notes to Financial Statements (continued)

3. Fair Value Measurements

The Plan adopted the guidance in FASB ASC 820 as of January 1, 2008. The adoption of FASB ASC 820 did not have a material impact on the Plan's fair value measurements. FASB ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. FASB ASC 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into three broad levels as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Significant other observable inputs.

Level 3 – Significant unobservable inputs.

Third Amended and Restated
Syracuse China Company
Union Pension Plan

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Master Trust investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2009 and 2008 (Level 1, 2, and 3 inputs are defined above):

December 31, 2009				
Fair Value Measurements				
Using Input Type				
	Level 1	Level 2	Level 3	Total
Master Trust investments:				
Short-term investments	\$ –	\$ 232,461	\$ –	\$ 232,461
Hedge funds	–	–	23,694,100	23,694,100
Investment in Group Trust	–	162,002,900	–	162,002,900
Total investments measured at fair value	\$ –	\$ 162,235,361	\$ 23,694,100	\$ 185,929,461

December 31, 2008				
Fair Value Measurements				
Using Input Type				
	Level 1	Level 2	Level 3	Total
Master Trust investments:				
Cash and cash equivalents	\$ 16,660	\$ –	\$ –	\$ 16,660
Short-term investments	–	29,440	–	29,440
Hedge funds	–	–	26,723,378	26,723,378
Investment in Group Trust	–	143,584,253	–	143,584,253
Total investments measured at fair value	\$ 16,660	\$ 143,613,693	\$ 26,723,378	\$ 170,353,731

The investment valuation policy of the Master Trust is to value investments at fair value. Cash and cash equivalents represent noninterest-bearing cash accounts or short-term investments that are stated at amortized cost, which approximates fair value. The hedge fund investments are valued by using estimated month-end market value and performance numbers provided by the

3. Fair Value Measurements (continued)

fund companies. The Plan is required to provide a 30 day advance written notice to liquidate its entire share in the Group Trust and between 65-90 day advance written notice to liquidate certain investments in hedge funds.

The investment in the Group Trust consists of both equity and fixed income investments. The underlying equity investments are valued at the last reported sales price on their principal exchange on the valuation date, for which the market quotations are readily available. Fixed income investments are valued on a basis of valuations furnished by a trustee-approved independent pricing service, which determines valuations for normal institutional size trading units of such securities that are generally recognized at fair value as determined by the trustee.

Within the Group Trust's investment options, investments in corporate equity and debt issues or government securities are valued at quoted market prices. Foreign investments are valued in local currency at the last quoted sale or bid price on the market where the securities are traded and converted into U.S. dollars at the quoted exchange rates. Real estate investment trusts are valued at quoted market prices. Investments in commercial paper are valued at cost, plus accrued interest, which approximates fair value. Convertible mortgage notes receivable are valued at their principal amounts adjusted for the incremental value of related purchase options. Interest and dividend income are recorded as earned on the accrual basis.

The hedge funds are valued by using estimated month-end market value and performance numbers provided by the fund companies.

See Note 5 for further information as to the Plan's interest in the Master Trust and the Group Trust.

The following table sets forth a summary of changes in the fair value of the Master Trust's Level 3 investments for the year ended December 31, 2009:

	<u>Hedge Funds</u>
Balance at December 31, 2008	\$ 26,723,378
Sales	(6,689,804)
Realized and unrealized gains (losses), net	<u>3,660,526</u>
Balance at December 31, 2009	<u><u>\$ 23,694,100</u></u>

Third Amended and Restated
Syracuse China Company
Union Pension Plan

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

Realized and unrealized losses and gains relating to both the investment in the Group Trust and investments in hedge funds are recorded in net investment gain (loss) from Master Trust in the accompanying statements of changes in net assets available for benefits.

4. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated vested employees or their beneficiaries and (b) present employees or their beneficiaries.

An actuary from Towers Watson estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements for such factors as death, withdrawal, or early retirement) between the valuation date and the expected date of payment.

The significant assumptions underlying the actuarial computations are:

Discount rate	6.41% annually
Mortality basis	RP-2000 Mortality Table (no projection, no collar adjustment)
Retirement age	Based on Company experience varying from ages 60–65
Actuarial cost method	Projected unit credit

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Third Amended and Restated
Syracuse China Company

Notes to Financial Statements (continued)

4. Accumulated Plan Benefits (continued)

The accumulated plan benefit information as of December 31, 2008, is as follows:

	<u>2008</u>
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefits	\$ 8,345,558
Other participants	6,321,489

Changes in the present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2007	\$ 14,466,970
Increase (decrease) attributable to:	
Additional benefits accumulated	(76,383)
Interest due to decrease in the discount period	1,180,351

5. Investment in Master Trust

All investment information disclosed in the accompanying financial statements, including the Plan's investment in the Master Trust as of December 31, 2009 and 2008, as well as the Plan's net gain (loss) from the investment in the Master Trust for the years then ended, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by State Street for the years then ended. At December 31, 2009 and 2008, the Plan's interest in the net assets of the Master Trust was approximately 7.4%.

The following table presents the fair or current value of the investments for the Master Trust at December 31:

	2009	2008
Master Trust:		
Cash and cash equivalents	\$ —	\$ 16,660
Short-term investments	232,461	29,440

5. Investment in Master Trust (continued)

Investment gain (loss) of the Master Trust is as follows:

	Year Ended December 31	
	2009	2008
Net appreciation (depreciation) in fair value of investments:		
Group Trust	\$ 23,171,120	\$ (37,361,963)
Hedge funds	3,660,526	(6,626,974)
	<u>26,831,646</u>	<u>(43,988,937)</u>
 Interest and dividend income	 5,078	 23,876
	<u>\$ 26,836,724</u>	<u>\$ (43,965,061)</u>
 Plan's share of investment gain (loss) from the Master Trust	 <u>\$ 2,073,143</u>	 <u>\$ (3,418,406)</u>

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated May 22, 2009, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax exempt.

7. Transactions With Parties in Interest

Fees paid by the Plan for trustee, legal, accounting, and other services rendered by parties in interest were based on customary and reasonable rates for such services.

Third Amended and Restated
Syracuse China Company
Union Pension Plan

Notes to Financial Statements (continued)

8. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Schedule SB, line 25 – Change in Method

- The funding interest rate was changed from the segment interest rates as of January 2008 to the IRS prescribed one-month average full corporate bond yield curve as of November 2008, with the yield curve based on bond yields during October 2008.
- The asset method was changed from the fair value of assets on the valuation date including contributions receivable to the average of market values (adjusted for contributions, benefit/expense payments, and expected investment returns) as of the valuation date and the prior two valuation dates.
- Plan-related expenses were added to the target normal cost effective plan year 2009.
- The valuation software used to produce actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

The average asset value must be within 10% of fair value, including contributions receivable. |

Benefits not Valued

The preretirement survivor annuity for terminated vested participants was not explicitly valued.

Change in Assumptions and Methods Since Prior Valuation

The funding interest rate was changed from the segment interest rates as of January 2008 to the IRS prescribed one-month average full corporate bond yield curve as of November 2008, with the yield curve based on bond yields during October 2008.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The asset method was changed from the fair value of assets on the valuation date including contributions receivable to the average of market values (adjusted for contributions, benefit/expense payments, and expected investment returns) as of the valuation date and the prior two valuation dates.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 60 and completing 15 years of vesting service.
Postponed retirement	Retirement after NRD.
Disabled retirement	Disability with 15 years of vesting service.
Deferred vested retirement	Termination for reasons other than death or retirement after completing five years of vesting service.
Preretirement death	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.

Monthly Benefits Paid Upon the Following Events

Normal retirement	Pension benefit as of NRD.
Early retirement	Pension benefit as of early retirement date, reduced by 0.5% for each month that benefit commencement precedes age 65.
Postponed retirement	Pension benefit determined as of actual retirement date.
Disabled retirement	Pension benefit as of disability retirement date.
Deferred vested retirement	Pension benefit as of termination date, reduced by 0.5% for each month that payments commence before the participant's NRD.
Preretirement death	50% of the pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's early retirement date.
Payment forms	Preretirement spouse benefits are payable only as described above. Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Other optional forms are available are: Single Life, 75% or 100% Joint and Survivor, 10 Year Certain and Continuous. Payment forms are calculated using conversion factors assuming the 1971 TPFC Forecast Mortality Table using a 5-year setback for the beneficiary and not setback for the participant, and assuming 8.00% interest.

Plan Provisions Effective After January 1, 2009

No further plan provisions were recognized in determining pension cost or in determining minimum and maximum contributions except previously negotiated increases effective in the current year as required.

Changes in Plan Provisions Since Prior Year

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
