Independent Auditors' Report

The Board of Directors
Apax Partners, L.P.:

We have audited the accompanying statements of net assets available for benefits of Apax Partners, L.P. 401(k) Retirement Plan (the Plan) as of December 31, 2008 and 2007, and the related statement of changes in net assets available for benefits for the year ended December 31, 2008. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008 and 2007, and the changes in net assets available for benefits for the year ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, Schedule H, line 4i – Schedule of Assets (held at end of year) as of December 31, 2008 is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly presented in all material aspects in relation to the basic financial statements taken as a whole.

(1) Description of the Plan

The following brief description of the Apax Partners, L.P. 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

Apax Partners, L.P. 401(k) Retirement Plan (Plan) provides employees with the opportunity to save for retirement on a tax advantaged-basis. This Plan is a type of qualified retirement plan commonly referred to as a 401(k) Plan. Participants under the Plan may elect to contribute a portion of their compensation to the Plan. In addition, the employer may make contributions to the Plan on the participants' behalf. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), the Internal Revenue Code (IRC), and other federal and state laws. The provisions of the Plan are subject to revision due to changes in laws or due to pronouncements by the Internal Revenue Service (IRS) or Department of Labor (DOL).

(b) Eligibility

Employees will become eligible to participate for the purposes of elective deferrals, matching contributions, nonelective contributions, and safe harbor nonelective contributions when they have completed 1,000 hours of service within the six month time period following their date of hire and have attained the age of twenty one. If an employee does not complete 1,000 hours of service within the six month time period of employment, then they will have satisfied the service requirement if they are credited with a year of service. Employees will actually participate once they reach the Entry Date. The Entry Date is defined as the first day of the Plan Year quarter coinciding with or next following the date the employee satisfies the eligibility requirements.

(c) Contributions

Eligible employees may contribute a percentage of their pre-tax annual compensation as determined by the participant, as defined by the Plan, and subject to the IRC limitations on maximum deferral contributions, which were $15,500 (or $20,500 for eligible employees 50 or older) for 2008. The annual compensation of each employee taken into account under the Plan may not exceed $230,000 for 2008.

(d) Employer Contributions

The Employer may make a discretionary matching contribution. If the employer makes an additional discretionary matching contribution, the additional discretionary matching contributions will not apply as to elective deferrals exceeding 6% of your compensation. In order to maintain "safe harbor" status, the Employer makes a contribution equal to 3% of the employees' compensation. This contribution is 100% vested.

(1) Description of the Plan (Continued)

(e) Vesting

Employees are always 100% vested in their accounts attributable to the following contributions: elective deferrals including catch-up contributions, rollover contributions, and safe harbor contributions. In order to reward employees who remain employed with the Employer for a long period of time, the law permits a "vesting schedule" to be applied to certain contributions that the Employer makes to the Plan. The vested percentage in the participant accounts attributable to nonelective contributions is determined under the following schedule:

	Percentage
Years of service:	
Less than 1	0%
1	33 1/3%
2	66 2/3%
3	100%

(f) Participant Accounts

Each participant's account is credited with the participant's deferral contributions and allocations of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit which can be provided from the participant's account.

(g) Rollover Contributions

Participants may transfer to their Plan accounts part or all of an eligible rollover distribution received from other qualified plans and certain IRAs. Rollover contribution accounts will be subject to the terms of this Plan and will always be fully vested and nonforfeitable.

(h) Distributions from Plan

A participant's vested interest may be distributed only after the participant's disability, termination from employment, attainment of early retirement age 55, the latter of age 62 or attainment of normal retirement age (59 ½), or death. If one of the aforementioned conditions is met, participants may withdraw all or any part of their vested account at any time. Participants are required to start receiving benefits within 60 days of any of the items noted above. Employees may be entitled to receive in-service distributions. However, these distributions are not in addition to other benefits and will therefore reduce the value of the benefits the employee will receive at retirement. These distributions are made at the employee's election and subject to possible administrative limitations on the frequency and actual timing of such distributions. Amounts may be withdrawn from rollover contributions at any time.

(1) Description of the Plan (Continued)

(i) Forfeitures

Forfeitures are used to reduce future contributions from the Plan Sponsor. Forfeited nonvested accounts amounted to $2,725 and $8,041 at December 31, 2008 and 2007, respectively. The Plan utilized all of the forfeited amounts to reduce contributions made by the Plan Sponsor.

(j) Administrative Expenses

Certain Administrative expenses are paid by the Plan. All other administrative expenses are paid by the Company, including trustee and recordkeeping fees.

(k) Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Company will instruct the trustee either (a) to continue to administer the Plan until all funds are depleted, or (b) to distribute the assets remaining in the funds. If the funds are to be distributed, the trustee will distribute to each participant the amount credited to his/her account on the distribution date. In the event of plan termination, participants would become 100% vested in their employer contributions.

(l) Loan Provisions

Only active employees who participate in the Plan and have a minimum vested account balance of $2,000 may request a loan. Loans can be requested in the range of $1,000 to $50,000 or 50% of the vested balance, whichever is less. The number of loans a participant may have outstanding at one time is two. The loans are secured by the vested balance in the participant's account. There are two types of loans, General Purpose and Principal Residence. The terms range from twelve to sixty months and sixty one to one hundred eighty months respectively and each carry an interest rate of 1% over the prime rate. Participants who leave service prior to the end of the loan term will be required to pay off the loan at termination of employment. As of December 31, 2008, there were 8 loans to 5 participants with interest rate raging from 7.50% to 9.25% at various maturities through April 11, 2036.

(m) Hardship Withdrawals

Participants may withdraw their employee pre-tax contributions (but not the earnings on the pre-tax contributions) and rollover contributions, if applicable, to satisfy immediate and heavy financial needs. In accordance with IRS regulations, participants must first exhaust all other assets available before obtaining a hardship withdrawal. All hardship withdrawals must be approved by the Plan administrator.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan were prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2008 and 2007:

		2008	2007
Mutual funds:			
T. Rowe Price Blue Chip Growth	$	1,683,431	3,201,012
T. Rowe Price Equity Index 500		1,278,165	2,592,571
T. Rowe Price Mid-Cap Growth		588,623	1,171,397
T. Rowe Price Small-Cap Growth		490,895	985,533
T. Rowe Price Value		392,239	*
T. Rowe Price International Stock		*	734,659
Money market:			
T. Rowe Price Prime Reserve		1,113,294	876,269

* This fund did not represent 5% of the overall assets in that year.

(3) Investments (Continued)

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Money Market Funds: Valued at Amortized cost.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(3) Investments (Continued)

The following tables sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2008 and 2007:

	Assets at fair value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,119,660	—	—	6,119,660
Money market	—	1,113,294	—	1,113,294
Total	$ 6,119,660	1,113,294	—	7,232,954

	Assets at fair value as of December 31, 2007			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,775,078	—	—	11,775,078
Money market	—	876,269	—	876,269
Total	$ 11,775,078	876,269	—	12,651,347

During 2008, the plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) in value as follows:

	2008
Mutual funds	$ (4,242,713)
Total	$ (4,242,713)

(4) Income Tax Status

The Plan Sponsor adopted a prototype nonstandardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan is designed in accordance with Section 401(a) of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(5) Party-in-Interest Transactions

Certain plan investments as of December 31, 2008 and 2007 are shares of funds managed by the record keeper DST Retirement Solutions, Inc., as such; these transactions qualify as party-in-interest.

(6) Concentration of Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by diversification of investments across all participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into various financial instruments.

The Plan may indirectly invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(7) Subsequent Events

The Plan was evaluated subsequent to December 31, 2008 and through October 25, 2010, the date on which the financial statements were issued and no additional disclosures were required.

The Employer may make a discretionary matching contribution. If the employer makes an additional discretionary matching contribution, the additional discretionary matching contributions will not apply as to elective deferrals exceeding 6% of your compensation. In order to maintain "safe harbor" status, the Employer makes a contribution equal to 3% of the employees' compensation. This contribution is 100% vested.

(1) Description of the Plan (Continued)

(e) Vesting

Employees are always 100% vested in their accounts attributable to the following contributions: elective deferrals including catch-up contributions, rollover contributions, and safe harbor contributions. In order to reward employees who remain employed with the Employer for a long period of time, the law permits a "vesting schedule" to be applied to certain contributions that the Employer makes to the Plan. The vested percentage in the participant accounts attributable to nonelective contributions is determined under the following schedule:

	Percentage
Years of service:	
Less than 1	0%
1	33 1/3%
2	66 2/3%
3	100%

(f) Participant Accounts

Each participant's account is credited with the participant's deferral contributions and allocations of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit which can be provided from the participant's account.

(g) Rollover Contributions

Participants may transfer to their Plan accounts part or all of an eligible rollover distribution received from other qualified plans and certain IRAs. Rollover contribution accounts will be subject to the terms of this Plan and will always be fully vested and nonforfeitable.

(h) Distributions from Plan

A participant's vested interest may be distributed only after the participant's disability, termination from employment, attainment of early retirement age 55, the latter of age 62 or attainment of normal retirement age (59 ½), or death. If one of the aforementioned conditions is met, participants may withdraw all or any part of their vested account at any time. Participants are required to start receiving benefits within 60 days of any of the items noted above. Employees may be entitled to receive in-service distributions. However, these distributions are not in addition to other benefits and will therefore reduce the value of the benefits the employee will receive at retirement. These distributions are made at the employee's election and subject to possible administrative limitations on the frequency and actual timing of such distributions. Amounts may be withdrawn from rollover contributions at any time.

(1) Description of the Plan (Continued)

(i) Forfeitures

Forfeitures are used to reduce future contributions from the Plan Sponsor. Forfeited nonvested accounts amounted to $2,725 and $8,041 at December 31, 2008 and 2007, respectively. The Plan utilized all of the forfeited amounts to reduce contributions made by the Plan Sponsor.

(j) Administrative Expenses

Certain Administrative expenses are paid by the Plan. All other administrative expenses are paid by the Company, including trustee and recordkeeping fees.

(k) Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Company will instruct the trustee either (a) to continue to administer the Plan until all funds are depleted, or (b) to distribute the assets remaining in the funds. If the funds are to be distributed, the trustee will distribute to each participant the amount credited to his/her account on the distribution date. In the event of plan termination, participants would become 100% vested in their employer contributions.

(l) Loan Provisions

Only active employees who participate in the Plan and have a minimum vested account balance of $2,000 may request a loan. Loans can be requested in the range of $1,000 to $50,000 or 50% of the vested balance, whichever is less. The number of loans a participant may have outstanding at one time is two. The loans are secured by the vested balance in the participant's account. There are two types of loans, General Purpose and Principal Residence. The terms range from twelve to sixty months and sixty one to one hundred eighty months respectively and each carry an interest rate of 1% over the prime rate. Participants who leave service prior to the end of the loan term will be required to pay off the loan at termination of employment. As of December 31, 2008, there were 8 loans to 5 participants with interest rate raging from 7.50% to 9.25% at various maturities through April 11, 2036.

(m) Hardship Withdrawals

Participants may withdraw their employee pre-tax contributions (but not the earnings on the pre-tax contributions) and rollover contributions, if applicable, to satisfy immediate and heavy financial needs. In accordance with IRS regulations, participants must first exhaust all other assets available before obtaining a hardship withdrawal. All hardship withdrawals must be approved by the Plan administrator.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan were prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2008 and 2007:

		2008	2007
Mutual funds:			
T. Rowe Price Blue Chip Growth	$	1,683,431	3,201,012
T. Rowe Price Equity Index 500		1,278,165	2,592,571
T. Rowe Price Mid-Cap Growth		588,623	1,171,397
T. Rowe Price Small-Cap Growth		490,895	985,533
T. Rowe Price Value		392,239	*
T. Rowe Price International Stock		*	734,659
Money market:			
T. Rowe Price Prime Reserve		1,113,294	876,269

* This fund did not represent 5% of the overall assets in that year.

(3) Investments (Continued)

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Money Market Funds: Valued at Amortized cost.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(3) Investments (Continued)

The following tables sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2008 and 2007:

	Assets at fair value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,119,660	—	—	6,119,660
Money market	—	1,113,294	—	1,113,294
Total	$ 6,119,660	1,113,294	—	7,232,954

	Assets at fair value as of December 31, 2007			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,775,078	—	—	11,775,078
Money market	—	876,269	—	876,269
Total	$ 11,775,078	876,269	—	12,651,347

During 2008, the plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) in value as follows:

	2008
Mutual funds	$ (4,242,713)
Total	$ (4,242,713)

(4) Income Tax Status

The Plan Sponsor adopted a prototype nonstandardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan is designed in accordance with Section 401(a) of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(5) Party-in-Interest Transactions

Certain plan investments as of December 31, 2008 and 2007 are shares of funds managed by the record keeper DST Retirement Solutions, Inc., as such; these transactions qualify as party-in-interest.

(6) Concentration of Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by diversification of investments across all participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into various financial instruments.

The Plan may indirectly invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(7) Subsequent Events

The Plan was evaluated subsequent to December 31, 2008 and through October 25, 2010, the date on which the financial statements were issued and no additional disclosures were required.
