Independent Auditors' Report

To the Trustees
Altronix Corp. Profit Sharing Plan
140 58th Street
Brooklyn, NY 11220

We have audited the accompanying statement of net assets available for benefits for Altronix Corp. Profit Sharing Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at the end of year 2009 and schedule of assets bought and sold during the year are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ALTRONIX CORP. PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE A: DESCRIPTION OF PLAN

The following description of the Altronix Corp. ("Company") Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who completed one year of service and are age twenty-one or older. All employees who are eligible to participate in the Plan must enter on January 1 or July 1 immediately following one year of service. The Plan has two eligible employee classifications, one for 10% owners and another for non-owners. The assets of the Plan are held in brokerage accounts of companies that are members of the Securities Investor Protection Act.

Contributions

It is the intention of the Employer to make regular contributions to the Trust Fund each year in an amount specified by the Employer annually, such amounts not limited to the profits of the Employer. Voluntary employee contributions are not permitted by the Plan. For the year ended December 31, 2009, non-owners received a contribution equal to 5% of compensation; 10% owners received a contribution of 20% of maximum allowable compensation.

Participant Accounts

Each participant's account is credited with the allocations of the Company's contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in the Company's contribution plus earnings thereon is based on years of service. A participant is 100% vested after seven years of service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The maximum repayment period for all loans is five years, with the exception of mortgages, for which the maximum repayment period is a "reasonable time" (determined at the time the loan is made). The loans are secured by the balance in the participant's

account or other collateral accepted by the Trustee. The interest rate is determined by the Trustee.

Payment of Benefits

A participant whose employment terminates on account of death, disability, or retirement may elect (or his Beneficiary may elect) to commence distribution of his benefits within a reasonable period after the termination date or delay the commencement of benefits. A participant whose employment is terminated on account of resignation or discharge before meeting the eligibility requirements of normal retirement has similar distribution rights.

Forfeited Accounts

At December 31, 2009, forfeited non-vested accounts totaled $3,834. In 2009, employer contributions were reduced by $3,834 from forfeited non-vested accounts.

NOTE B: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

New Accounting Standards

During the third quarter of 2009, the Plan adopted *The FASB Accounting Standards Codification ™ (ASC or Codification) and the Hierarchy of Generally Accepted Accounting Principles (GAAP)* which establishes the Codification as the sole source for authoritative U.S. GAAP and will supersede all accounting standards in U.S. GAAP. The adoption of the Codification did not have an impact on the Plan's results of operations, cash flows or financial position. Since the adoption of the Accounting Standards Codification (ASC), the Plan's notes to the financial statements will no longer make reference to Statement of Financial Accounting Standards (SFAS) or other U.S. GAAP pronouncements.

The Plan adopted ASC 855 during the second quarter of 2009 (formerly SFAS No 165, Subsequent events). ASC 855 should not result in significant changes in the subsequent events that an entity reports. Rather, ASC 855 introduces the concept of financial statements being available to be issued. Financial statements are considered available to be issued when they are complete in a form and format that complies with generally accepted accounting principles (GAAP) and all approvals necessary for issuance have been obtained.

In June 2009, the FASB issued an amendment to ASC topic 860 (the amendment was formerly SFAS No. 166, Accounting for Transfers of Financial Asset). Among other items, the provision removes the concept of a qualifying special-purpose entity and clarifies that the objective of paragraph ASC 860-10-40-4 is to determine whether a transferor and all of the entities included in the transferor's financial statements being presented have surrendered control over transferred financial assets. This pronouncement is effective January 1, 2010. The implementation of this standard will not have a material impact on the Plan's financial position and results of operations.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Participants' loans are valued at their outstanding balances, which approximate fair value. These investments are subject to normal market fluctuation.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded when received. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All administrative and professional fees and expenses of maintaining the plan are paid by the Company.

Investment management service fees, amounting to $10,627 for the year ended December 31, 2009, were paid by the plan.

Subsequent Events

The plan has evaluated subsequent events through October 6, 2010, the date the financial statements were available to be issued.

NOTE C: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stocks, corporate bonds, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008.

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total
Common Stock	$ 1,323,483	$ -	$ -	$ 1,323,483

	Participant Loans	Total
Balance, beginning of year	$ 49,160	$ 49,160
Purchases, sales, issuances, and settlements (net)	9,863	9,863
Balance, end of year	$ 59,023	$ 59,023

NOTE D: NONPARTICIPANT-DIRECTED INVESTMENTS

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	December 31, 2009	2008
Net Assets:		
Cash Accounts	$ 89,596	$ 125,976
Common Stock	1,323,483	1,086,689
Mutual Funds	867,347	516,927
Corporate Bonds	553,756	488,828
	$ 2,834,182	$2,218,420
Changes in Net Assets:		
Contributions	$ 345,275	
Interest	35,082	
Dividends	46,546	
Net Appreciation of assets	245,967	
Benefits Paid to Participants	(15,824)	
Investment Management Fees	(10,627)	
	$ 646,419	

NOTE E: INVESTMENTS

No single investment represents 5% or more of the Plan's net assets.

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $245,967 as follows:

Mutual funds	$ 134,331
Corporate Stocks/Bonds	111,265
Other	371
	$ 245,967

NOTE F: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE G: TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated September 27, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal

Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE H: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I: PLAN AMENDMENT

On October 28, 2009, the Plan presented to the Board of Directors a restatement intended to meet the requirements of the Economic Growth and Tax Relief Reconciliation Act of 2001, ("EGTRRA"), the Job Creation and Worker Assistance Act of 2002, ("JCWAA"), and the Sarbanes-Oxley Act of 2002, ("SOA"). This restatement is effective January 1, 2009.
