INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Sheet Metal Workers International Association Local 29 - 401(k) Plan
Wichita, Kansas

We have audited the accompanying statements of net assets available for benefits of Sheet Metal Workers International Association Local 29 - 401(k) Plan as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Sheet Metal Workers International Association Local 29 - 401(k) Plan as of December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes and administrative expenses, are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information some of which is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. These supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SHEET METAL WORKERS INTERNATIONAL ASSOCIATION LOCAL 29 - 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Sheet Metal Workers International Association Local 29 - 401(k) Plan provides only general information. Participants should refer to the Plan Agreement and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a multi-employer defined contribution retirement income plan, covering eligible employees of contractors who are required to make contributions under their collective bargaining agreement, office employees of the Union, and certain employees of the Joint Apprenticeship committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was effective June 1, 1998.

The Plan is administered by a six member Board of Trustees, comprised of three members of The Sheet Metal Workers International Association Local 29 (Union) and The Association of Mechanical and Sheet Metal Contractors of Kansas (Association). The trustees have delegated certain administrative duties to Qualified Plan Solutions, LC. Funds are invested in DWS Investments Funds.

Contributions

Employers contribute from \$ 25 per hour worked for first through fourth year apprentices to \$ 50 per hour worked for journeymen. Eligible participants may make contributions in specified amounts ranging from \$0 to \$3.20 per hour worked. Rollovers are permitted by the Plan. The Plan received \$0 in rollover contributions during 2009 and \$0 in 2008. Both employer and employee contributions are exempt from current taxable income, although employee contributions are subject to FICA and Medicare taxes. Benefits paid from the Plan are taxable at that time.

Participant Accounts

Investments are 100% Participant Directed. Separate accounts are maintained for each participant. Each participant account is credited with the employer's contribution, the participant's contribution (and rollovers), and the participant's share of investment gains and losses. Each account is charged with the participant's share of investment losses and expenses, benefits paid, and expenses of the Plan.

The trustees determine eligible investment funds. Participants may choose which of the eligible funds their accounts are to be invested in.

Vesting

Participants are always 100% vested in their elective contributions plus or minus earnings and expenses thereon. Participants who have one or more hours of service after December 31, 2006 will be 100% vested for their employer's contribution.

Payment of Benefits

Effective May 6, 2003, the Trustees amended the Plan to terminate all distribution options other than the lump sum distribution option for substantially all distributions occurring on or after June 1, 2003.

**SHEET METAL WORKERS INTERNATIONAL ASSOCIATION LOCAL 29 - 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2009 AND 2008**

NOTE 1: DESCRIPTION OF THE PLAN (Continued)

Termination of the Plan

The Trustees of the Plan have the right to amend this Plan at any time subject to certain restrictions. Although the Trustees have not expressed any intent to terminate the Plan, they may do so at any time

Upon termination of the Plan, after payment of all expenses and proportional adjustment of accounts of participants to reflect expenses, income, gains and losses, participants shall be entitled to receive the amounts in their respective accounts. The Trustees, at their discretion, may make payment to participants in cash or in kind and in the form of immediate or deferred payment annuity contracts.

Risk and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accrual Accounting

The financial statements are prepared using the accrual method of accounting. Accordingly, contributions, income, and expenses applicable to the year are recognized in that year.

Valuation of Investments

Investments are stated at fair market value based on quoted market prices which reflect the net asset value of shares held by the Plan at year-end.

Payment of Benefits

Benefit payments are reflected when paid.

Reclassifications

Certain prior year amounts have been reclassified to conform with the current year presentation.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect: 1) the reported amounts of assets and liabilities, 2) disclosures such as contingencies, and 3) the reported amounts of revenues and expenses included in such financial statements. Actual results could differ from those estimates.

NOTE 3: TAX STATUS

The Plan obtained its latest determination letter on March 24, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

DECEMBER 31, 2009 AND 2008

NOTE 5: FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access

Level 2 Inputs to the valuation methodology include:

- ♦ Quoted prices for similar assets or liabilities in active markets
- ♦ Quoted prices for identical or similar assets or liabilities in inactive markets
- ♦ Inputs other than quoted prices that are observable for the asset or liability
- ♦ Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money Market Funds - Fair Value is determined using the amortized cost valuation method which approximates the fair value of the underlying net assets of the fund.

Mutual Funds - Valued at the net asset value (NAV) of shares held by the plan at year end

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
