An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

ECM TRANSPORT, LLC 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
JANUARY 29, 2010 AND DECEMBER 31, 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of the ECM Transport, LLC 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan, a defined contribution plan under Section 401(k) and related provisions of the Internal Revenue Code (IRC), was established effective January 1, 1998 by ECM Transport, LLC (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees who have completed three months of service are eligible to participate. An employee may elect not to participate in the Plan.

Effective January 1, 2010, all participants became participants of a plan for which Pitt Ohio Express is the Plan sponsor (Pitt Ohio Plan), and employer and participant contributions for 2010 were contributed to the Pitt Ohio Plan. Accordingly, on January 29, 2010, all of the assets of the Plan were transferred into the Pitt Ohio Plan, and the ECM Transport, LLC 401(k) Plan was terminated.

In addition, the Company may make discretionary profit sharing contributions to the Plan. The Company made no discretionary contributions to the Plan for the period January 1, 2010 through January 29, 2010.

Contributions - Each year, participants may elect to contribute a minimum of 1% up to a maximum of 75% of pre-tax annual compensation as defined in the Plan. The maximum amount participants may voluntarily contribute in any year is established by law. Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various registered investment companies and common/collective trusts as investment options for participants. Contributions are subject to certain limitations. In addition, participants over the age of 50 are permitted an additional "catch-up" contribution.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Participant Loans - Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance for a term not to exceed 5 years, with the exception of a loan for the purchase of a principal residence. The loans are collateralized by the balance in the participant's account, and bear interest at a rate commensurate with local prevailing rates at the time of the loan as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Vesting - A participant is fully vested in participant contributions and earnings thereon at all times. A participant who terminates employment is entitled to a benefit with respect to employer contributions and earnings thereon based on the following vesting schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years or more	100%

NOTES TO FINANCIAL STATEMENTS
JANUARY 29, 2010 AND DECEMBER 31, 2009

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Payment of Benefits - Upon retirement, permanent disability, death or other termination of employment, a participant is entitled to the fair market value of his or her account as of the day of his or her separation or termination. The Plan requires that all participant accounts less than \$5,000 at the time of ineligibility are distributed to the employee or another qualified account. Benefit payments may be made in a single lump sum, in installments over a period of years not exceeding the life expectancy of the participant, or in a combination of a lump-sum payment and installments.

Hardship Benefits - The Plan administrator may direct the trustee to distribute up to 100% of a participant's account balance in the event of immediate financial need. Withdrawals will be authorized only if the distribution is for the payment of medical care expenses, costs directly related to the purchase of the participant's principal residence, tuition payments or payment to prevent eviction from his or her principal residence. Any hardship distribution will reduce the value of the participant's benefits to be received at normal retirement.

Plan Administration - The Company pays substantially all of the administrative expenses associated with operating the Plan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Certain investment management service fees and administrative expenses of the Plan are paid from Plan assets, while others are paid for by the Company.

Subsequent events are defined as events or transactions that occur after the balance sheet date but before the financial statements are issued or are available to be issued. Plan management has evaluated subsequent events through November 11, 2010, the date on which the financial statements were available to be issued.

ECM TRANSPORT, LLC 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
JANUARY 29, 2010 AND DECEMBER 31, 2009

NOTE 3 - INCOME TAX STATUS

The Plan is a Prototype Nonstandardized Profit Sharing Plan (Prototype) with a cash or deferral arrangement. The Prototype received an opinion letter from the Internal Revenue Service on November 6, 2001 that stated that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 4 - INVESTMENTS

Investments representing 5% or more of the net assets available for benefits are as follows:

	<u>January 29, 2010</u>	<u>December 31, 2009</u>
Van Kampen Equity & Income	-	\$ 262,068
Victory Diversified Stock Fund	-	176,360
Janus Adv Overseas Fund - S	-	175,492
SSGA S&P 500 Index Fund	-	145,593
SSGA Stable Value Fund	-	85,902
PIMCO Total Return Fund - A	-	80,333
Janus Adv Forty Fund - S	-	62,494

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) depreciated in value by \$8,447 as follows:

Registered investment companies	\$ 3,222
Common/collective trust	<u>5,225</u>
	<u>\$ 8,447</u>

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6 - RELATED PARTY TRANSACTIONS

Certain investments of the Plan are mutual funds managed by State Street Bank and Trust. The trustee of the Plan is State Street Bank and Trust, and therefore, these transactions qualify as party-in-interest transactions.

NOTES TO FINANCIAL STATEMENTS
JANUARY 29, 2010 AND DECEMBER 31, 2009

NOTE 7 - FAIR VALUE MEASUREMENTS

The Plan discloses the category of assets and liabilities measured at fair value into one of three different levels, depending on the assumptions (i.e., inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. Financial assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement. The fair value hierarchy is defined as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Registered investment companies - Valued at the net asset value of shares held by the Plan at year-end.

Common/collective trust - Valued at the ownership interest of the underlying assets and liabilities in the fund.

Participant loans - Valued at amortized cost, which approximates fair value.

The methods described above might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
