Note 1. Description of the Plan

The following description of the Parkview Orthopaedic Group, S.C. Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of Parkview Orthopaedic Group, S.C., PMI Diagnostic Imaging, LLC and Park Services, L.P. (collectively, the "Company") who have completed two months of service and are age 21 or older. Employees who are covered by a collective bargaining agreement are not eligible to participate in the Plan. Eligible employees may become participants in the Plan immediately following the completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions: Each year, participants may contribute up to 20 percent of pretax annual compensation and up to 100 percent of bonuses at designated payroll periods, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds as investment options for participants. Company profit-sharing contributions and matching contributions are discretionary in nature and determined by the Company's Board of Directors, as defined in the plan document. There were no matching contributions for the year ended January 31, 2010. Discretionary company contributions, if any, are allocated to six possible class levels based on position and compensation. Employees who terminate prior to the Plan's year end, other than by reason of retirement, disability or death, are not eligible for profit sharing or matching contributions related to that year. Contributions are subject to certain limitations. The profit sharing contribution for the year ended January 31, 2009 that was credited to participants' accounts during the year ended January 31, 2010 was $469,119. The profit sharing contribution for the year ended January 31, 2010 totaling $551,900 was credited to the participants' accounts subsequent to year end.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's contributions and an allocation of investment earnings or losses and expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings or losses thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Participant loans: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. Loans are to be repaid within five years unless the loan is being taken to purchase a primary residence, which may be repaid over a period up to 10 years. Only one loan may be outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at the prime rate in effect at the loan's inception, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. The interest rates on outstanding loans ranged from 3.25 percent to 6.25 percent. Principal and interest is paid ratably through payroll deductions.

Note 1. Description of the Plan (Continued)

Payment of benefits: Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. In addition, the Plan permits hardship withdrawals and in-service distributions if certain criteria are met.

Forfeited accounts: At January 31, 2010 and 2009, forfeited nonvested accounts totaled $34,134 and $31,775, respectively. These accounts will be used first to pay administrative expenses and then to reduce future employer contributions. No forfeitures were used for these purposes for the year ended January 31, 2010.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses of the Plan, including recordkeeping and trustee fees, are paid by the Company, except for investment fees and transaction-based fees.

New accounting pronouncements: The Financial Accounting Standards Board (“FASB”) issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended January 31, 2010. Management evaluated the Plan’s tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2006.

Note 2. Summary of Significant Accounting Policies (Continued)

Pending accounting pronouncements: The FASB issued Accounting Standards Update (ASU) 2010-6, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements* which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has been adopted. Management is currently evaluating the impact of the guidance related to disclosures in the financial statements.

In September 2010, FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment is effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented. This amendment has not yet been adopted.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through November 11, 2010, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Fidelity Management Trust Company

The following is a summary of the investment information as of and for the year ended January 31, 2010 and as of January 31, 2009, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

Mutual funds	$ 11,344,529	$ 8,957,377
Participant loans	$ 72,750	$ 62,775
Net appreciation in fair value of investments	$ 2,145,212	
Interest and dividends	$ 190,040	

Note 4. Investments

Note 5. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 31, 2010 and 2009.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of January 31, 2010 and 2009:

	Assets Measured at Fair Value as of January 31, 2010

Note 6. Related-Party Transactions

Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were included as a reduction of the return earned on each fund. Transaction-based fees paid by the Plan were $676 for the year ended January 31, 2010.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the provisions of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 11, 2004 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
