Independent Accountants' Report

Plan Administrator
PCE Technology, Inc. 401(k) Plan
Austin, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of PCE Technology, Inc. 401(k) Plan as of December 31, 2009, and the related statements of changes in net assets available for benefits for the year then ended and the accompanying supplemental schedule. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in Note 3 and 7, which were certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of and for the years ended December 31, 2009, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Because we were unable to obtain adequate 401(k) records for prior periods, we have not applied audit procedures necessary to satisfy ourselves with respect to the participants' individual account balances accumulated from inception of the plan and the propriety of the distributions to terminated participants during the year then ended December 31, 2008.

Because of the matter discussed in the preceding paragraph and the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PCE Technology, Inc. 401(k) Plan
Notes to Financial Statements
December 31, 2009 (Audited) and 2008 (Unaudited)

Note 1: Description of the Plan

The following description of PCE Technology, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the *Plan Document* and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan covering all employees of PCE Technology, Inc. (the Company) who have completed one year of service with a minimum of 1,000 hours during that time. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). State Street Bank and Trust Company ("State Street") is the trustee of the Plan.

Contributions

The Plan allows participants to defer a percentage of their eligible compensation as contributions to the Plan. Contributions are subject to certain limitations. The Company matches 100 percent of the participant's salary deferral up to 4 percent of the employee's eligible compensation. Additional contributions can be made at the discretion of the Company's Board of Directors.

Participant Investment Account Options

Investment account options include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and Company contributions, plus earnings thereon.

Payment of Benefits

Upon retirement or termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her vested account or, if the balance is over $5,000, payment in installments as outlined in the *Plan Document*.

Note 1: Description of the Plan, continued

Participant Loans

The *Plan Document* includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $500. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50 percent of the participant's vested account balance. All loans are repayable over a period not to exceed five years (except loans for the purchase of a principal residence, which is repayable over a period not to exceed thirty years). Interest on the loans is based on the prime rate as specified in the Wall Street Journal plus 2 percent.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. The Company has not expressed such intention as of this financial statements date.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's assets are stated at fair value. Participant loans are states at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recorded on the ex-dividend date.

Plan Tax Status

The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan and related trust were qualified as tax-exempt as of the financial statement date.

Note 2: Summary of Significant Accounting Policies, continued

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Company or the Plan, at the Company's discretion.

Note 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market fluctuation, foreign exchange and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7: Disclosures of Fair Value of Financial Instruments-unaudited

The Company adopted FASB Accounting Standards Codification 820 ("ASC 820"), ***Fair Value Measurements and Disclosures***, (formerly Statement of Financial Accounting Standards No. 157, *Fair Value Measurements*). ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 quoted prices for identical assets, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Note 7: Disclosures of Fair Value of Financial Instruments-unaudited, continued

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 security includes money market funds and equity securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows.

Level 2 securities include pool separate accounts, corporate bonds and municipal securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include participant loans.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the ASC 820 fair value hierarchy in which the fair value measurements fall on December 31, 2009:

		Fair Value Measurement Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market fund	$ 681,942	$ 681,942	-	-
Common/collective trusts	1,088,735	-	$ 1,088,735	-
Mutual funds	1,458,323	1,458,323	-	-
Participant loans	58,850	-	-	$ 58,850
Total	$ 3,287,850	$ 2,140,265	$ 1,088,735	$ 58,850

Realized and unrealized gains and losses included in net increase (decrease) in net assets available for benefits for the year ended December 31, 2009, are reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.
