1. Description of Plan

The following description of the Scanlon Auto Group 401(k) Plan (f/k/a Ft. Myers Lincoln Mercury, Inc. 401(k) Plan) (the Plan) of Ft. Myers Lincoln Mercury, Inc. and Scanlon Imports, Inc. (collectively, the Company) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees of the Company who are age 21 or older and have performed one year of continuous service, as defined in the Plan document. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 1, 2009, the Company amended and restated the Plan to reflect all of the changes that have been made to the Plan since its original adoption of the current plan in 1994. As part of the amendment, the name of the Plan changed from Ft. Myers Lincoln Mercury, Inc. 401(k) Plan to Scanlon Auto Group 401(k) Plan.

Contributions
Participants may elect to defer up to 75% of their annual eligible compensation, not to exceed statutory limits. The Plan allows for catch-up contributions by participants age 50 or older. Each year, the Company may make matching contributions equal to a discretionary percentage, to be determined by the employer, of the participants' elective deferral contribution to the Plan not to exceed the amount prescribed by the Internal Revenue Service. The Company did not make a matching contribution for the years ended December 31, 2009 and 2008. In addition, the Company may make a discretionary profit sharing contribution amount declared by its Board of Directors. During 2009 and 2008, no such contribution was made. To be eligible for matching contributions and discretionary profit sharing contributions, the participants must be actively employed at the end of the Plan year.

Participant Accounts
Each participant's account is credited with the participant's contributions; the Company's matching contributions, the Company's discretionary profit sharing contributions and an allocation of Plan earnings. The allocations of earnings are based on participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Rollovers
With the approval of the Plan administrator, the Plan may receive any amounts received by an employee as a distribution from another qualified plan provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

1. Description of Plan...continued

Vesting
Participants are immediately vested in their voluntary contributions and rollovers, plus actual earnings thereon. Participants vest in the remainder of their accounts based on years of continuous service and become fully vested after six years of credited service.

Forfeitures
Forfeitures represent the non-vested portion of terminated participants' account balances plus related earnings. The Plan allows employee forfeitures to reduce employer matching contributions. As of December 31, 2009 and 2008, forfeitures held by the Plan totaled $5,137 and $4,413. Amounts forfeited from non-vested accounts totaled $723 and $2,711 for the years ended December 31, 2009 and 2008, respectively. During the year ended December 31, 2009, no forfeitures were reallocated to reduce employer matching contributions. During the year ended December 31, 2008 forfeitures reallocated out of the forfeiture account to reduce the employer matching contribution accrued at December 31, 2007 totaled $20,779.

Investment Elections
Each participant shall direct the investment of his or her account and shall elect among a selection of mutual funds and a common trust fund. Each participant has the ability to change his or her investment allocations at any time.

Payment of Benefits
The Plan provides for participants to withdraw their funds at any time after age 59 ½.. Such withdrawals are based on the balance in the participant's account as of the valuation date coinciding with or immediately after the participant's retirement date. The Plan also provides for withdrawals in the event of death, disability, termination or early retirement, as set forth in the Plan document. Benefits are paid in a lump-sum or in installment payments, at the discretion of the participant. All distributions are subject to the applicable provision of the Plan agreement. The Plan can elect to distribute the funds out of the Plan when that participant terminates employment and has less than $5,000 of a vested balance in the Plan.

Hardship Withdrawals
In accordance with a uniform and nondiscriminatory policy adopted by the plan administrator, a participant may withdraw a portion of his or her vested balance to meet immediate and heavy financial needs, subject to certain limitations outlined in the Plan.

Participant Loans
The Plan allows loans to eligible participants subject to certain statutory limits.

Administrative Expenses
For the years ended December 31, 2009 and 2008, the Company has elected to pay all significant administrative expenses associated with the Plan.

2. Summary of Significant Accounting Policies

Restatement of Previously Issued Financial Statements
During 2008, the Plan discovered errors in the Plan's previously issued financial statements as of and for the year ended December 31, 2007. The correction of these errors results in prior period adjustments, which decrease the previously reported net assets available for plan benefits at December 31, 2007 as follows:

Overstatement of employer contributions due to incorrectly not reducing the end of the year employer contribution receivable by the amount of forfeitures to be applied	$ 20,779
Overstatement of participant contributions due to incorrectly not recording a liability relating to excess participant contributions refundable	67,302
Additional decrease to net assets at December 31, 2007	$ 88,081

Had the errors not occurred, the net decrease in net assets available for benefits for the year ended December 31, 2007 would have decreased by $60,521.

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits
Benefits are recorded when paid.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States (US GAAP) requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Valuation of Investments
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

2. Summary of Significant Accounting Policies …continued

Fair Value Measurements
The Plan discloses the fair value of Plan investments in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 820 (ASC 820), *Fair Value Measurements* (see Note 4). ASC 820 establishes a single definition of fair value and a framework for measuring fair value in generally accepted accounting principles (GAAP) that is intended to result in increased consistency and comparability in fair value measurements. ASC 820 also expands disclosures about fair value measurements. ASC 820 applies whenever other authoritative literature requires (or permits) certain assets or liabilities to be measured at fair value, but does not expand the use of fair value.

Recently Adopted Accounting Policies
In June 2009, the FASB issued FASB ASC Topic 105 (ASC 105) *Generally Accepted Accounting Principles*. This guidance establishes the FASB ASC as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. ASC 105 is effective for financial statements issued for annual periods ending after September 15, 2009. The Plan has adopted ASC 105 on December 31, 2009 and has updated its referencing for all accounting standards in these financial statements.

In May 2009, the Plan adopted FASB ASC Topic 855, *Subsequent Events*, that establishes requirements for the accounting and disclosure of events that occur after the balance sheet date, but before the financial statements are issued or available to be issued. The adoption of this guidance had no impact on the Plan's financial statements.

The Plan has adopted certain provisions of ASC 820 which were issued during April 2009. This issuance provides additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased in relation to normal market activity for the asset or liability, as well as guidance on identifying circumstances that indicate a transaction is not orderly. ASC 820 also requires annual disclosure of the inputs and valuation techniques used to measure fair value and a discussion of changes in valuation techniques and related inputs, if any during the period, and definitions of each major category of equity and debt securities, as described in FASB ASC Topic 320, *Investments – Debt and Equity Securities*. The Plan adopted the aforementioned aspects of ASC 820 on December 31, 2009; such adoption did not have a material impact on the Plan's financial statements.

2. Summary of Significant Accounting Policies …continued

Recently Adopted Accounting Policies…continued
In September 2009, the FASB issued Accounting Standards Update No. 2009-12 (ASU 2009-12), *Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)* which amended ASC 820-10 *Fair Value Measurements and Disclosures Overall*. ASU 2009-12 is effective for the first reporting period ending after December 15, 2009. ASU 2009-12 expands the required disclosures for certain investments with a reported net asset value. ASU 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. The ASU requires enhanced disclosures about the nature and risks of investments with its scope. Such disclosures include the nature of any restrictions on an investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Plan has adopted ASU 2009-12 on a prospective basis for the year ended December 31, 2009. Adoption did not have a material impact on the fair value determination and disclosure of applicable investments.

Recent Accounting Pronouncements
In January 2010, the FASB issued ASU No. 2010-06 (ASU 2010-06) *Fair Value Measurements and Disclosures: Improving Disclosures About Fair Value Measurements* which provides amendments to ASC 820 that will provide more robust disclosures regarding the different classes of assets measured at fair value, valuation techniques and inputs used, transfers of assets and liabilities between the levels of the fair value hierarchy, and the activity in Level 3 fair value measurements. Certain new disclosures and clarifications of existing disclosures prescribed by ASU 2010-06 are effective for annual reporting periods beginning after December 31, 2009. Disclosures regarding purchases, sales, issuances and settlements in the roll-forward of activities in Level 3 are effective for fiscal years beginning after December 15, 2010. The Plan adopted this guidance on January 1, 2010, and will include the new disclosures prospectively, as required.

3. Investments

The following table presents investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008.

	2009	2008
Investments at fair value as determined by quoted market price:		
Mutual fund:		
Morgan Stanley Liquid Asset Fund	$ 1,664,900	$ 2,059,453

4. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets of liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual funds - Mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end and are classified as Level 1.

Common trust fund – The common trust fund is stated at fair value based on the quoted market prices of the underlying investments. The underlying investments are primarily debt and equity securities and money market funds that are valued at the closing price reported in the active market in which the individual securities are traded. The common trust fund is classified as Level 2.

Participant loans - Loans to participants are valued at their estimated fair value on the basis of their future principal payments and are classified as Level 3.

4. Fair Value Measurements …continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual funds				
Asset allocation funds	$ 1,664,900	$ -	$ -	$ 1,664,900
Growth funds	851,739	-	-	851,739
Bond funds	182,357	-	-	182,357
Growth and income funds	182,236	-	-	182,236
Total mutual funds	2,881,232	-	-	2,881,232
Participant loans	-	-	152,517	152,517
Total investments at fair value	$ 2,881,232	$ -	$ 152,517	$ 3,033,749

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,983,510	$ -	$ -	$ 2,983,510
Common trust fund	-	1,284	-	1,284
Participant loans	-	-	123,572	123,572
Total investments at fair value	$ 2,983,510	$ 1,284	$ 123,572	$ 3,108,366

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the years ended December 31, 2009 and 2008:

	2009	2008
Participant loans:		
Balance, beginning of year	$ 123,572	$ 65,620
Receipts and disbursements, net	28,945	57,952
Balance, end of year	$ 152,517	$ 123,572

5. Loans to Participants

The Plan permits its participants to obtain loans against their account balance. The loans are administered by the trustee and are recorded at their estimated fair value of remaining principal payments. As of December 31, 2009 and 2008, total loans outstanding were $152,517 and $123,572, respectively. Certain restrictions apply to participant loans, as defined in the Plan document.

6. Excess Contributions Refundable

Amounts contributed to the Plan from highly compensated employees in excess of the IRS-approved limit during the year ended December 31, 2008 totaled $8,281. This amount is reflected as excess contributions payable on the accompanying statements of net assets available for benefits and were refunded to the participants during March 2009.

7. Information Prepared and Certified by Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan, State Street Bank and Trust Company, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008, and the Schedule H, line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2009, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2009 and 2008.

8. Tax Status

The Plan obtained its latest determination letter from the Internal Revenue Service (IRS) dated May 3, 2002, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Service Code (the Code). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

10. Form 5500 Reconciliations

11. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by affiliates of State Street Bank and Trust Company, the Trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions as that term is defined in Section 3(14) of ERISA. In addition the Plan issues loans to participants which are secured by the balances in the participants accounts. These also qualify as party-in-interest transactions.

12. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

13. Subsequent Events

The Company has evaluated subsequent events for potential disclosure or recognition through October 13, 2010, the issuance date of the financial statements.
