DAN GERNATT GRAVEL PRODUCTS, INCORPORATED SAVINGS AND SECURITY PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN

The following description of the Dan Gernatt Gravel Products, Incorporated ("Company") Savings and Security Plan ("Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution Plan (401(K) Plan) covering all employees of Dan Gernatt Gravel Products, Inc., Dan Gernatt Farms, Country Side Sand and Gravel, Inc., and Gernatt Asphalt Products, Inc., who have completed one month of service and are age twenty and one half or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to 50 percent of qualified annual compensation as defined in the Plan. The maximum amount of contribution, subject to dollar limits as established by the Internal Revenue Service, is $16,500 and $15,500 for the plan years 2009 and 2008 respectively. In addition effective January 1, 2004 the plan permits eligible participants who have attained age 50 by the end of the plan year, December 31, to make catch-up contributions. The catch-up contribution allows catch-up eligible participants to make contributions in excess of Plan and Internal Revenue Service limits. The catch-up contributions are additional salary deferrals from the participants compensation. they are not automatic and must be elected by the participant. The maximum additional amount that a participant can contribution is $5,500 and $5,000 for 2009 and 2008, respectively. Additional after tax voluntary contributions may be made by participants up to 10 percent of compensation or by the Company at its discretion. The Company contributes 25 percent of employee contributions up to 25 percent of the first 10 percent of employee compensation. Contributions are subject to certain limitations.

The Plan provides that all employee contributions to the Plan will be invested in certain individual funds as directed by each participant. The Plan currently offers a Guaranteed Interest Account and nineteen Separate Investment Accounts as investment options for participants. Participants may also invest their money in allocated life insurance contracts.

Contributions, and related earnings, received from participants for 2009 are net of repayment of $10,863 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2009.

The plan allows the rollover of a qualifying distribution from another tax qualified retirement plan to this plan.

Expenses - The employer has agreed to pay reasonable and customary expenses which were incident to administration of the plan.

1. DESCRIPTION OF PLAN (continued)

Participant Accounts - Each participant's account is credited with the participant's contribution, the company's contribution and an allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participant's non-vested accounts (which amounted to $1,540 and $841 for the periods ended December 31, 2009 and 2008, respectively) are used to reduce future administrative expenses which are paid for by the company. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings/losses thereon. Vesting in the company's matching and discretionary contribution portion of their accounts plus earnings thereon is based on years of credited service. A participant is fully vested after six years of credited service.

Participant notes receivable - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 (subject to limitations) or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. The maximum number of loans permitted to each participant is two and the loan term cannot exceed five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates used by commercial lending institutions (prime + 2 percent) ranging from 5.25 percent to 10.25 percent. Principal and interest are paid ratably through weekly payroll deductions.

Payment of benefits - Upon termination of service, a participant may receive the value of the vested interest in his/her account as a lump-sum distribution, under installment payments, as a plan-to-plan transfer, as an annuity to commence at normal retirement date or the participant may elect to continue his/her account until age 70 ½. If a participant's vested account balance is $5,000 or less the entire vested amount will be paid as a lump-sum distribution.

Restricted cash - Cash includes $94 and $3,237 at December 31, 2009 and 2008, respectively, of forfeited balances of terminated participant's non vested accounts which have not yet been used to offset administrative expenses (See Note 1, Participant Accounts).

Plan Amendments - During the plan year 2009 with formal plan adoption March 2010 the plan was amended pursuant to IRS Announcement 2008-23.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting. For tax purposes, the Form 5500 is prepared using the cash method of accounting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment valuation and income recognition - The Plan's investments are stated at fair value as quoted by commercial quoting services except for its benefit responsive investment contracts which are valued at contract value (Note 4) with an allowance adjustment to fair value. Participant notes receivable are valued at cost which approximates fair value. Interest income is recorded on the accrual basis.

Payment of benefits - Benefits are recorded when paid.

Pervasiveness of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2009	2008
Investments, estimated at fair value		
Guaranteed Investment Contracts	$ 5,888,061	$ 4,713,297
Investments at fair value as determined by quoted prices

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

MassMutual Retirement Services (MMRS) General Investment Account investment option for defined contribution plans is a guaranteed interest account provided through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the guaranteed interest account and participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at Contract Value. Contract Value represents contributions plus credited interest less participant withdrawals and fees. Contract Value is also referred to as "Book Value." MMRS considers this investment option to be benefit responsive not withstanding the liquidation value events under the contract that limit the ability of the plan to transact at Contract Value.

The Fair Value presented below represents the estimated liquidation value determined within contract specifications (see the termination provisions stated within the contract). During 2008, MMRS modified the guaranteed interest account liquidation formula by changing the index used as the prevailing market rate from the Moody's Baa Corporate Bond Yield Average Index to the Barclays Capital U.S. Aggregate Index (excluding Treasuries). If the plan has a liquidation formula with the Moody's index in your contract, MMRS would give the plan the option of using either index when calculating the liquidation factor upon discontinuance, depending on which produces the higher factor. As of December 31, 2009, this change in the liquidation formula, in all instances, produced a higher liquidation value than under the prior formula. Accordingly, the good faith estimate of Fair Value is based on the Barclays Capital index.

	2009	2008
Total General Investment Account assets at Fair Value	$ 5,888,061	$ 4,713,297
Adjustments from Fair Value to Contract Value for fully benefit-responsive investment contracts	(260,667)	421,108
Total General Investment Account assets at Contract Value	$ 5,627,394	$ 5,134,405

Fair Value Rollforward

	2009	2008
Beginning balance at Fair Value	$ 4,713,297	$ 4,297,300
Change in unrealized appreciation / (depreciation)	681,778	(199,548)
Net cash flow activity at Contract Value	492,986	615,545
Ending balance at Fair Value	$ 5,888,061	$ 4,713,297

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

Interest Crediting Rates

	2009	2008
Average yield earned by the Plan (a)	3.36%	4.23%
Average interest rate credited to participants (b)	3.36%	4.23%
Average yield earned less average interest rate credited (a-b)	0.00%	0.00%

(a) The average yield earned is calculated by dividing the annual interest credited to the plan during the plan year by the average annual fair value (applicable for those plans that have been in-force with MMRS for more than one year).

(b) The average interest rate credited to participants is calculated by dividing the annual interest credited to the participants during the plan year by the average annual fair value (applicable for those plans that have been in-force with MMRS for more than one year).

(a-b) The average yield earned by the plan and the average interest credited to participants is the same, therefore, no adjustment is needed. However, the average yield earned by the plan and the average interest rate credited to participants reported above may differ form the guaranteed crediting rate on participant balances due to interest being credited based on contract values, the timing of cash flows, the process by which rates may be reset during the plan year and simplified assumptions used in the calculations noted above.

Certain events may limit the ability of the Plan to transact at Contract Value. Such events include but may not be limited to the following: (1) temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business; (5) removal from the plan of one or more groups or classifications of participants; (6) partial or complete plan termination; or (7) plan disqualification. Consult the Plan's group annuity contract for further information

5. INVESTMENTS

6. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

SFAS No. 157, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Financial assets valued using level 2 inputs are based primarily on quoted prices for similar assets in active or inactive markets. Financial assets using level 3 inputs have the lowest priority and primarily valued using assumptions about the assumptions market participants would utilize in pricing the asset. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

6. **FAIR VALUE MEASUREMENTS** (continued)

Level 2 Fair Value Measurements

The fair value of pooled separate accounts is based on the closing prices of the securities on the Valuation Date. The fair value of each Separate Investment Account is determined by computing the value of the total assets held in such Separate Investment Account and deducting total liabilities, including accrued liabilities.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations, and the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides details of the Level 3 fair value measurements.

	Investment Contract	Participant Loans	Total
2009			
Beginning balance	$ 4,713,297	$ 149,657	$ 4,862,954
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	178,260	0	178,260
Purchases, sales, issuances, and settlements (net)	996,504	10,269	1,006,773
Ending balance	$ 5,888,061	$ 159,926	$ 6,047,987
2008			
Beginning balance	$ 4,297,300	$ 129,625	$ 4,426,925
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	190,749	0	190,749
Purchases, sales, issuances, and settlements (net)	225,248	20,032	245,280
Ending balance	$ 4,713,297	$ 149,657	$ 4,862,954

7. ALLOCATED LIFE INSURANCE CONTRACTS

The Plan makes available to participants the option of investing in life insurance contracts. Under these whole life policies, the Plan is the owner of the policy with premiums being paid by the insured participants through annual deductions from the participants respective accounts or from payroll withholdings. Because the purchase of these contracts transfers the obligation to pay the benefits and related risks to the insurance company, the benefit obligations have not been included in the financial statements. Premiums paid on these policies for the years ended December 31, 2009 and 2008 were $8,960 and $9,256, respectively.

8. BENEFIT OBLIGATIONS

Net assets available for benefits at December 31, 2009 and 2008 include $465,412 and $544,492, respectively, allocated to accounts of persons who as of, or prior to, that date had withdrawn from participating in the operations of the Plan. The affected participants have elected to receive periodic payments or have deferred distributions as allowed by the Plan.

9. RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of general investment accounts and separate investment accounts managed by Massachusetts Mutual Life Insurance Company (Mass Mutual). Mass Mutual is the trustee and record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Administrative expenses paid to Mass Mutual for the periods ended December 31, 2009 and 2008 amounted to $21,661 and $23,188, respectively.

The plan administrator and a trustee also contribute to the plan as permitted by the plan document because eligibility requirements have been met.

10. TAX STATUS

The plan obtained its latest determination letter on April 23, 2002, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2009
Net assets available for benefits per the financial statements	$ 11,918,548
Contributions receivable	(9,326)
Interest receivable	(208)
Excess contribution	10,863
Net assets available for benefits per Form 5500	$ 11,919,877

12. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan without the consent of any participant or beneficiary subject to the provisions of ERISA. In the event of Plan termination participants will become 100 percent vested in their accounts.

13. SUBSEQUENT EVENTS

Events that occur after the balance sheet date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the balance sheet date are recognized in the accompanying financial statements. subsequent events which provide evidence about conditions that existed after the balance sheet date, require disclosure in the accompanying notes. Management evaluated the activity of the partnership through October 4, 2010 and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.
