REPORT OF INDEPENDENT ACCOUNTANTS

To the Pension Committee
Lafarge North America Inc. Pension Plan for
Hourly Compensated Employees (Aggregates, Concrete and Asphalt)

We were engaged to audit the financial statements of Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Aggregates, Concrete and Asphalt) (the Plan) as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by State Street Bank and Trust Company and The Northern Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that The Northern Trust Company held the Plan's investment assets and executed investment transactions from September 1, 2009 to December 31, 2009, and that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions as of December 31, 2008, and for the period January 1, 2008 to September 1, 2009. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008**

Note 1 – Description of plan

The following description of the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Aggregates, Concrete and Asphalt) (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

The Plan, created in 1950, covers hourly employees of the Standard Lafarge Division—Lafarge North America Inc. (the Company) who are represented by the United Steelworkers of America. The Plan is a noncontributory defined benefit plan that provides for pension and disability benefits. The normal retirement date is the date the employee attains age 65 and completes 5 years of continuous service. An employee may retire with unreduced benefits anytime after attaining age 62 with 15 years of continuous service or attaining age 60 with 30 years continuous service. The Plan was amended and restated effective January 1, 2008, for the purpose of incorporating prior amendments and making certain other changes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2009, the Plan was amended to allow payment of certain administrative expenses, to implement new pension factors in accordance with collective bargaining agreements, and to update the listing of groups eligible to participate in the Plan.

The assets of the Plan and certain other pension plans of the Company are held in the Lafarge North America Inc. Master Trust (Master Trust). At December 31, 2009 and 2008, assets in the Master Trust were held by The Northern Trust Company and State Street Bank and Trust Company (the Trustees), respectively. Upon the order of the Company, the Trustees pay amounts to specified Plan beneficiaries. SEI currently acts as investment manager and has authority to invest and reinvest the Master Trust assets.

In compliance with the Tax Reform Act of 1986, participants of the Plan become fully vested after five years of credited service. The Company has contributed such amounts as it believes are necessary to provide assets sufficient to meet the benefits to be paid to the Plan's participants. These contributions are also sufficient to meet the minimum funding requirements of ERISA.

The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination, all accrued benefits become 100% vested, and the net assets of the Plan are set aside for payment of such vested benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at the time of termination. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not, as described in the articles of the Plan.

Note 2 – Significant accounting policies

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

In June 2009, the Financial Accounting Standards Board (FASB) established the FASB Accounting Standards Codification (ASC) as the single source of authoritative GAAP. The FASB ASC superseded all then existing non-SEC accounting and reporting standards. The issuance of this statement did not change GAAP, but has

(AGGREGATES, CONCRETE AND ASPHALT)
NOTES TO THE FINANCIAL STATEMENTS

(Continued)

changed the applicable citations and naming conventions used when referencing GAAP within these financial statements.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the accounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments – Investments are stated at fair value. Investment transactions are recorded at the trade date. The Plan's net interest in the Master Trust is stated at the fair value of the underlying net assets of the Master Trust as estimated by the Trustees. The investments in the Master Trust, including securities, are stated at fair value based upon quotations of national security exchanges or, for unlisted securities, upon quotations obtained by the Trustees from brokerage firms. Where investments comprise shares in commingled equity investment funds, estimated fair values were obtained by the Trustees from the administrator of such investment funds. Investments in mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Master Trust at year-end. Under the Master Trust, investment transactions, income on investments, and realized and unrealized appreciation and depreciation have been prorated by the Trustees among the plans based on each plan's proportionate share of the market value of the Master Trust on a monthly basis.

Cash and cash equivalents – For purposes of the disclosure of investments in the Master Trust (see Note 6), the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Risks and uncertainties – The Master Trust provides for investments in various investment securities, which are exposed to various risks such as interest rate, credit, and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Master Trust contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Administrative expenses – Administrative expenses include plan-specific expenses as well as expenses incurred by the Master Trust. Expenses related specifically to the Master Trust are allocated to the plans based on the ending market value of assets held in each plan, respectively as a percentage of total assets in the Master Trust. General and administrative expenses incurred by the Company on behalf of the Plan are paid by the Company.

Employer contributions and benefit payments – Employer contributions and benefit payments to participants are specifically identified by the plan administrator with respect to each plan as reflected in the accompanying statements of changes in net assets available for benefits. Benefit payments are recorded when paid.

Accumulated plan benefits – Accumulated plan benefits (see Note 3) are those periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the services rendered by employees to the

(Continued)

valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits for retired or terminated employees or their beneficiaries are based on employees' credited service as of their last date of employment. The accumulated plan benefits for active employees are based on credited service earned preceding the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Fair value measurement – The Fair Value Measurements and Disclosures Topic of the FASB ASC provides a single authoritative definition of fair value and enhanced guidance for measuring the fair value of assets and liabilities. It requires additional disclosures regarding the extent to which the Plan measures assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. This topic is effective for fiscal years beginning after November 15, 2007, and interim periods within those years. The Plan adopted this topic effective January 1, 2008, for all financial assets and liabilities as required.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual funds – These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

Common stock – These investments are valued at the closing price reported on the New York Stock Exchange Composite Listing or other active market on which these statements are traded. These securities are classified within level 1 of the valuation hierarchy.

Common/collective trust – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level

2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Cash and cash equivalents – These investments are public investment vehicles valued using \$1 for the NAV, and are classified with level 1 of the valuation hierarchy.

Note 3 – Actuarial present value of accumulated plan benefits

The actuarial information is based on reports prepared by the Plan's actuary, Towers Watson, as of January 1, 2009. The actuarial calculations are based on participants becoming fully vested after five years of continuous service. Employer contributions to the Plan are calculated in accordance with the Company's policy of funding an amount within the minimum required and the maximum allowable contributions as calculated each year in accordance with ERISA regulations. The Company's contributions for 2009 and 2008 exceeded the minimum funding requirements of ERISA.

The actuarial present value of accumulated plan benefits was calculated using the present value of accrued benefits method as required by the Pension Protection Act of 2006 (PPA). As of January 1, 2009, significant assumptions underlying the actuarial computations include an asset return of 7.50%, an effective interest rate of 8.20%, the use of the RP-2000 Employees and RP-2000 Healthy Annuitants mortality tables used for the calculation of the current liability, and the assumption that retirement takes place no later than age 65 and completion of 5 years of service. As of January 1, 2009, the actuarial value of assets was determined using the average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, with certain adjustments made for contributions, benefits, etc.; whereas the actuarial value of assets was determined using the market value of assets including contributions receivable in the prior period. Additionally, the funding interest rate changed from IRS prescribed segment rates without 3-year transition based on bond yields through the December preceding the valuation date to the IRS prescribed one-month average yield-curve based on bond yields during the October preceding the valuation date.

The actuarial present value of accumulated plan benefits as of January 1, 2009 is as follows:

Vested benefits	
Participants currently receiving payments	\$ 7,982,077
Other participants	<u>5,126,144</u>
Total vested benefits	13,108,221
Non-vested benefits	<u>520,377</u>

Net increase	471,286
Actuarial present value of accumulated plan benefits, end of year	\$ 13,628,598

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 – Income tax status

The Plan has received its latest determination letter from the Internal Revenue Service (IRS) dated September 19, 2008 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 5 – Changes in Plan provisions

Plan provisions have been updated to correspond with IRS guidelines in effect during 2009. These changes did not have a material impact on the Plan's financial statements.

Note 6 – Investment in the Master Trust

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2009 and 2008 and net investment income (loss) in the Master Trust for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustees. The Trustees have also certified the Plan's proportionate share of such items to be complete and accurate.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008
(Continued)

Effective September 2009, all assets previously held in the Blue Circle Heritage Master Trust, totaling \$4,938,496, were transferred into the Master Trust. Assets in the Master Trust were transferred from State Street Bank and Trust Company to The Northern Trust Company at this time.

Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustees. At December 31, 2009 and 2008, the Plan's interest in the investments of the Master Trust was approximately 2.82% and 2.68%, respectively.

The following table presents the fair values of investments in the Master Trust:

	December 31,	
	2009	2008
Investments at fair value, as determined by quoted market prices:		
Common stock	\$ 68,194	\$ 64,699
Mutual funds	438,216,898	341,442,991
Cash and cash equivalents	3,116,726	-
Investments at estimated fair value:		
Common/collective trusts	-	138,110
	441,401,818	341,645,800
Receivable and accrued interest for securities sold	-	2,193,718
	<u>\$ 441,401,818</u>	<u>\$ 343,839,518</u>

Investment income (loss) for the Master Trust was as follows:

	Year ended December 31,	
	2009	2008
Net appreciation (depreciation) in fair value of investments	\$ 80,897,451	\$ (192,500,754)
Interest and dividends	9,206,540	15,458,616
	<u>\$ 90,103,991</u>	<u>\$ (177,042,138)</u>

See "Fair value measurement" in Note 2 above for discussion of the methodologies and assumptions used to determine the fair value of the Master Trust's investments.

Participants hired before 1/1/2001:

Assumed retirement age is 62

Participants hired after 1/1/2001:

The weighted average retirement age is computed as follows:

(A)	(B)	(C)	(D)	
	Probability	Retirement	Percentage	
<u>Age</u>	<u>of Attaining</u>	<u>Rate</u>	<u>Retiring</u>	<u>(A) * (D)</u>

65	0.621	1.000	0.621	<u>40.389</u>

Average Retirement Age

63.931

As of January 1, 2009 there are 49 participants hired after 1/1/2001 and 41 participants hired before 1/1/2001. The weighted average retirement age overall is :

$$49 / 90 * 64 + 41 / 90 * 62 = 63.089$$

The average retirement age is 63

PN 021
Attachment to 2009 Schedule SB Part V – Statement of Actuarial Assumptions/Methods

Methods

Contributions:

— Valuation date	First day of plan year
— Funding target	Present value of accrued benefit
— Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
— Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of fair value, including contributions receivable.</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.</p>

Benefits Not Valued

All benefits described in the Plan Provisions of this report were valued except plant shutdown and other “unpredictable contingent event benefits” which are not valued until and unless the triggering event occurs. Towers Watson is not aware of any significant benefits required to be valued that were not.

EIN 58-1290226
PN 021
Attachment to 2009 Schedule SB Part V – Statement of Actuarial Assumptions/Methods

Change in Assumptions & Methods

The funding interest rate changed from IRS prescribed segment rates without 3-year transition based on bond yields through the December preceding the valuation date to the IRS prescribed one-month average yield-curve based on bond yields during the October preceding the valuation date.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

An assumption for administrative expenses was included as part of the target normal cost, as required by The Worker, Retiree and Employer Recovery Act of 2008.

There was a change in the method for calculating the actuarial value of assets. The prior valuation used the market value of assets (including contributions receivable).

Data Sources

Towers Watson used asset data and retiree data supplied by the trustees. Lafarge North America Inc. furnished other participant data and the dates and amounts of the contributions that were paid in 2009. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by the Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Benefits Paid Upon the Following Events

Normal retirement Monthly pension benefit determined as of NRD

Early retirement Employees hired after December 31, 2000 may retire with an unreduced benefit at age 60 with 30 years of service.

An employee hired before January 1, 2001 may retire with an unreduced benefit anytime after satisfying one of the following conditions

<u>Age</u>	<u>Continuous Service</u>
62	15
60	30

An employee hired before January 1, 2001 may also retire at age 60 with 15 years of continuous service with a reduced benefit (e.g., 83.82% at age 60, 91.45% at age 61, unreduced at age 62).

Postponed retirement Monthly pension benefit determined as of actual retirement date

Vested termination The monthly benefit is equal to the accrued normal retirement benefit on the date of termination. A participant who terminates after age 40 with at least 15 years of service will receive payments at age 62 (reduced payments may start as early as age 60, e.g., 83.82% at age 60, 91.45% at age 61).

An employee hired before January 1, 2001 who terminated before age 40 or after age 40 but before completing 15 years of service may receive an unreduced benefit at 65 or a reduced benefit as early as age 60 (e.g., 63.10% at age 60, 75.28% at age 62, 90.72% at age 64).

An employee hired after December 31, 2000 may retire with an unreduced benefit at 65 or a reduced benefit as early as age 60 (reduced 6% per year commencement before age 65).

Disability retirement The monthly disability benefit, payable immediately, is equal to the accrued benefit as of the date of disability.

Preretirement death Monthly preretirement death benefits on behalf of both active and terminated vested employees with minimum benefit of \$140 before age 60 and \$90 thereafter.

Other Plan Provisions

Forms of payment

Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin. Otherwise, benefits are paid in the form of an actuarially equivalent 50% joint and survivor annuity, or, if the participant elects and the spouse consents, an actuarially equivalent 75% joint and survivor annuity.

Actuarial equivalence for optional form conversion:

- ▶ Participant mortality: GAM 1971 Blended 80% males; 20% females
- ▶ Beneficiary mortality: GAM 1971 Blended 20% males; 80% females

Interest rate: 7.00%

Plant shutdown

Participants at the Weirton, Warren, Lordstown, Salt Springs or McDonald facilities receive unreduced pension benefits in the event that the facility is permanently closed or sold, if age and service criteria are met.

Special normal retirement benefit

Special payment equivalent to 13 weeks of vacation reduced by the amount of vacation received. The normal retirement benefit begins three months after retirement.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.

Future Plan Changes

No future plan changes were recognized. Towers Watson is not aware of any future plan changes which are required to be reflected other than scheduled pension increases. An amendment was adopted December 27, 2009 to include Buffalo in this plan effective January 1, 2009. This was not reflected in the actuarial valuation.

The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Pension Committee
Lafarge North America Inc. Pension Plan for
Hourly Compensated Employees (Aggregates, Concrete and Asphalt)

We were engaged to audit the financial statements of Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Aggregates, Concrete and Asphalt) (the Plan) as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by State Street Bank and Trust Company and The Northern Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that The Northern Trust Company held the Plan's investment assets and executed investment transactions from September 1, 2009 to December 31, 2009, and that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions as of December 31, 2008, and for the period January 1, 2008 to September 1, 2009. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DECEMBER 31, 2009 AND 2008**

Note 1 – Description of plan

The following description of the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Aggregates, Concrete and Asphalt) (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

The Plan, created in 1950, covers hourly employees of the Standard Lafarge Division—Lafarge North America Inc. (the Company) who are represented by the United Steelworkers of America. The Plan is a noncontributory defined benefit plan that provides for pension and disability benefits. The normal retirement date is the date the employee attains age 65 and completes 5 years of continuous service. An employee may retire with unreduced benefits anytime after attaining age 62 with 15 years of continuous service or attaining age 60 with 30 years continuous service. The Plan was amended and restated effective January 1, 2008, for the purpose of incorporating prior amendments and making certain other changes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2009, the Plan was amended to allow payment of certain administrative expenses, to implement new pension factors in accordance with collective bargaining agreements, and to update the listing of groups eligible to participate in the Plan.

The assets of the Plan and certain other pension plans of the Company are held in the Lafarge North America Inc. Master Trust (Master Trust). At December 31, 2009 and 2008, assets in the Master Trust were held by The Northern Trust Company and State Street Bank and Trust Company (the Trustees), respectively. Upon the order of the Company, the Trustees pay amounts to specified Plan beneficiaries. SEI currently acts as investment manager and has authority to invest and reinvest the Master Trust assets.

In compliance with the Tax Reform Act of 1986, participants of the Plan become fully vested after five years of credited service. The Company has contributed such amounts as it believes are necessary to provide assets sufficient to meet the benefits to be paid to the Plan's participants. These contributions are also sufficient to meet the minimum funding requirements of ERISA.

The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination, all accrued benefits become 100% vested, and the net assets of the Plan are set aside for payment of such vested benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at the time of termination. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not, as described in the articles of the Plan.

Note 2 – Significant accounting policies

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

In June 2009, the Financial Accounting Standards Board (FASB) established the FASB Accounting Standards Codification (ASC) as the single source of authoritative GAAP. The FASB ASC superseded all then existing non-SEC accounting and reporting standards. The issuance of this statement did not change GAAP, but has

PENSION PLAN FOR HOURLY COMPENSATED EMPLOYEES
(AGGREGATES, CONCRETE AND ASPHALT)
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008
(Continued)

changed the applicable citations and naming conventions used when referencing GAAP within these financial statements.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the accounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments – Investments are stated at fair value. Investment transactions are recorded at the trade date. The Plan's net interest in the Master Trust is stated at the fair value of the underlying net assets of the Master Trust as estimated by the Trustees. The investments in the Master Trust, including securities, are stated at fair value based upon quotations of national security exchanges or, for unlisted securities, upon quotations obtained by the Trustees from brokerage firms. Where investments comprise shares in commingled equity investment funds, estimated fair values were obtained by the Trustees from the administrator of such investment funds. Investments in mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Master Trust at year-end. Under the Master Trust, investment transactions, income on investments, and realized and unrealized appreciation and depreciation have been prorated by the Trustees among the plans based on each plan's proportionate share of the market value of the Master Trust on a monthly basis.

Cash and cash equivalents – For purposes of the disclosure of investments in the Master Trust (see Note 6), the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Risks and uncertainties – The Master Trust provides for investments in various investment securities, which are exposed to various risks such as interest rate, credit, and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Master Trust contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Administrative expenses – Administrative expenses include plan-specific expenses as well as expenses incurred by the Master Trust. Expenses related specifically to the Master Trust are allocated to the plans based on the ending market value of assets held in each plan, respectively as a percentage of total assets in the Master Trust. General and administrative expenses incurred by the Company on behalf of the Plan are paid by the Company.

Employer contributions and benefit payments – Employer contributions and benefit payments to participants are specifically identified by the plan administrator with respect to each plan as reflected in the accompanying statements of changes in net assets available for benefits. Benefit payments are recorded when paid.

Accumulated plan benefits – Accumulated plan benefits (see Note 3) are those periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the services rendered by employees to the

LAFARGE NORTH AMERICA INC.
PENSION PLAN FOR HOURLY COMPENSATED EMPLOYEES
(AGGREGATES, CONCRETE AND ASPHALT)
NOTES TO THE FINANCIAL STATEMENTS

(Continued)

valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits for retired or terminated employees or their beneficiaries are based on employees' credited service as of their last date of employment. The accumulated plan benefits for active employees are based on credited service earned preceding the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Fair value measurement – The Fair Value Measurements and Disclosures Topic of the FASB ASC provides a single authoritative definition of fair value and enhanced guidance for measuring the fair value of assets and liabilities. It requires additional disclosures regarding the extent to which the Plan measures assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. This topic is effective for fiscal years beginning after November 15, 2007, and interim periods within those years. The Plan adopted this topic effective January 1, 2008, for all financial assets and liabilities as required.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual funds – These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

Common stock – These investments are valued at the closing price reported on the New York Stock Exchange Composite Listing or other active market on which these statements are traded. These securities are classified within level 1 of the valuation hierarchy.

Common/collective trust – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level

2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Cash and cash equivalents – These investments are public investment vehicles valued using \$1 for the NAV, and are classified with level 1 of the valuation hierarchy.

Note 3 – Actuarial present value of accumulated plan benefits

The actuarial information is based on reports prepared by the Plan's actuary, Towers Watson, as of January 1, 2009. The actuarial calculations are based on participants becoming fully vested after five years of continuous service. Employer contributions to the Plan are calculated in accordance with the Company's policy of funding an amount within the minimum required and the maximum allowable contributions as calculated each year in accordance with ERISA regulations. The Company's contributions for 2009 and 2008 exceeded the minimum funding requirements of ERISA.

The actuarial present value of accumulated plan benefits was calculated using the present value of accrued benefits method as required by the Pension Protection Act of 2006 (PPA). As of January 1, 2009, significant assumptions underlying the actuarial computations include an asset return of 7.50%, an effective interest rate of 8.20%, the use of the RP-2000 Employees and RP-2000 Healthy Annuitants mortality tables used for the calculation of the current liability, and the assumption that retirement takes place no later than age 65 and completion of 5 years of service. As of January 1, 2009, the actuarial value of assets was determined using the average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, with certain adjustments made for contributions, benefits, etc.; whereas the actuarial value of assets was determined using the market value of assets including contributions receivable in the prior period. Additionally, the funding interest rate changed from IRS prescribed segment rates without 3-year transition based on bond yields through the December preceding the valuation date to the IRS prescribed one-month average yield-curve based on bond yields during the October preceding the valuation date.

The actuarial present value of accumulated plan benefits as of January 1, 2009 is as follows:

Vested benefits	
Participants currently receiving payments	\$ 7,982,077
Other participants	<u>5,126,144</u>
Total vested benefits	13,108,221
Non-vested benefits	<u>520,377</u>

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2009:

Actuarial present value of accumulated plan benefits, beginning of year	\$ 13,157,312
Increase (decrease) during the year attributable to:	
Benefits accumulated	64,924
Increase for interest due to decrease in discount period	949,935
Benefits paid	(1,001,130)
Assumption changes	328,611
Plan amendments (Note 1)	128,946
Net increase	471,286
Actuarial present value of accumulated plan benefits, end of year	\$ 13,628,598

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 – Income tax status

The Plan has received its latest determination letter from the Internal Revenue Service (IRS) dated September 19, 2008 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 5 – Changes in Plan provisions

Plan provisions have been updated to correspond with IRS guidelines in effect during 2009. These changes did not have a material impact on the Plan's financial statements.

Note 6 – Investment in the Master Trust

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2009 and 2008 and net investment income (loss) in the Master Trust for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustees. The Trustees have also certified the Plan's proportionate share of such items to be complete and accurate.

Form 5500 Administrative Penalties - Explanation of Reasonable Cause

Plan Name	LAFARGE NORTH AMERICA INC. PENSION PLAN FOR HOURLY COMPENSATED EMPLOYEES	EIN:	58-1290226
Plan Sponsor's Name	LAFARGE NORTH AMERICA, INC.	PN:	021

Explanation:

To Whom It May Concern: Please accept the attached Form 5500, required schedules and financial statements for the above referenced plan. The Master Trust associated with this plan converted to a new trust company during the 2009 plan year. During the audit process, significant reporting errors were discovered on the trust reports provided by the custodian. Due to the complexity of the errors; it took several weeks for the custodian to provide revised trust reports which caused the completion of the financials statements to be delayed. As soon as the corrected reports were provided, the financial statements were finalized and the Forms 5500 were prepared. We understand the strict rules in relation to the timely filing of the Form 5500 however, under the above circumstances, the Form 5500 could not be completed until the trust reports along with the audited financial statements were completed. Thank you in advance for your consideration to accept this late filing. We also respectfully request an abatement of any penalties or interest that may be assessed for this late filing. Sincerely, Teri Herzog Trustee
