Independent Auditors' Report

The Plan Administrator
API Foils North America Pension Plan
Rahway, New Jersey

We were engaged to audit the accompanying statements of net assets available for benefits of API Foils North America Pension Plan as of March 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the year ended March 31, 2010 and the six months ended March 31, 2009, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j- Schedule of Reportable Transactions as of or for the year ended March 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the year ended March 31, 2010 and the six months ended March 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, Part V – Statement of Actuarial Assumptions and Methods (continued)**Actuarial Cost Method**

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described in “Plan Assumptions” of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year for all Participants plus an estimate of the expenses to be paid from the plan assets during the plan year.

Target Liability and Funding Shortfall

As of October 1, 2008, a Target Liability is established which represents the present value of accrued benefits. This Target Liability is offset by adjusted assets, and the remainder (i.e. Funding Shortfall), if any, is amortized over seven years.

Subsequent changes in the Funding Shortfall due to asset experience, liability experience, plan amendments, and/or actuarial assumption changes will be amortized over a seven year period from their valuation dates.

Discount Rate

The plan sponsor has elected to use the IRS Full Yield Curve approach for discount rate purposes, with an applicable month that is 0 months prior to the valuation date.

The plan sponsor elected not to phase in the new interest rate basis. Refer to the plan assumptions section (Appendix E) for additional detail.

II. ASSET VALUATION METHOD

Assets have been valued in accordance with generally accepted procedures as described below.

All funds invested are valued in the following manner:

Definitions

i(t)	assumed growth rate, set equal to the lesser of the expected return on assets or the applicable 3 rd segment rate for the 6-month Period t.
C(t)	sum of contributions and other additions to the fund from all sources other than investment transactions in 6-month Period t.
W(t)	sum of all withdrawals and other decreases to the fund from all sources other than investment transactions in 6-month Period t.
AV(t)	Actuarial Value of Assets as of 6-month Period t.
MV(t)	Market Value of Assets as of 6-month Period t.
EV(t)	Expected Value of Assets as of 6-month Period t.
G/L(t)	Gain or Loss for 6-month Period t.

Schedule SB, Part V – Statement of Actuarial Assumptions and Methods (continued)**Method**

A description of the method used to determine the current year's Actuarial Value of Assets {AV(t)} is below.

For the preceding 3 6-month periods, G/L(t) is determined as follows:

$$EV(t) = MV(t-1) * (1 + i(t-1)) + [C(t-1) - W(t-1)] * (1 + i(t-1) * m)$$

Where m represents a proportionate yield consistent with the portion of the 6-month period for which C and W are invested

$$G/L(t-1) = EV(t) - MV(t)$$

For the current year, AV(t) is determined as follows:

$$AV(t) = MV(t) + 3/4 * G/L(t-1) + 1/2 * G/L(t-2) + 1/4 * G/L(t-3)$$

Corridor Limits

The Actuarial Value of Assets may not be less than 90% or more than 110% of the current market value of plan assets as of the applicable valuation date [as required by IRC Section 430(g)(3)(B)(iii)]

Please note, as highlighted above, the assumed asset growth rate for each year is limited to the applicable 3rd segment rate by law. As a result, if the plan's expected rate of return is greater than this applicable rate, this method is expected to produce an actuarial value of assets that can be expected to be slightly less than the market value of assets, on average.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The Plan Administrator
API Foils North America Pension Plan
Rahway, New Jersey

We were engaged to audit the accompanying statements of net assets available for benefits of API Foils North America Pension Plan as of March 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the year ended March 31, 2010 and the six months ended March 31, 2009, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j- Schedule of Reportable Transactions as of or for the year ended March 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the year ended March 31, 2010 and the six months ended March 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
March 31, 2010 and 2009

(1) Description of Plan

The following brief description of the API Foils North America Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General

The Plan is a noncontributory defined benefit plan covering all nonunion employees of API Foils, Inc. (the Company), who meet certain eligibility requirements as to length of service and age. It is subject to the provisions of the Employees Retirement Income Security Act of 1974 (ERISA).

The effective date of the Plan is November 1, 1985. The original name of the Plan was the Dri-Print Foils, Inc. Pension Plan. Dri-Print Foils, Inc. merged with Astor Universal Foils, Inc. during 1998 and the merged plan is the API Foils North America Pension Plan. Employees of the merged companies are eligible for participation in the Plan. Former employees of Dri-Print Foils, Inc. are eligible to be participants of this plan as of their employment commencement date. Former employees of Astor Universal Foils, Inc. are eligible to be participants of this plan as of April 8, 1998 or as of their employment commencement date. However, all years of service with Astor Universal Foils, Inc. are counted for purposes of determining vesting service.

Effective October 1, 2004, the Plan was amended to permanently cease benefit accruals to all participants. In addition, no future employees will become active plan participants and no future changes in compensation will be taken into account in determining a participant's accrued benefit. Any benefit accrued under the Plan by a participant before October 1, 2004 will remain in the Plan until the participant elects to begin to take pension distributions.

Effective on and after April 1, 2009, the plan year was amended as the twelve month consecutive period beginning on April 1 and ending on March 31. The accompanying 2009 statement of changes in net assets available for benefits represents the Plan's activity for the six month period from October 1, 2008 through March 31, 2009.

Pension Benefits

The Plan provides participants or their beneficiaries with benefits in accordance with a benefit formula. The benefit amount is based on age, years of service, compensation, and other relevant factors. Full vesting is provided after five years of service have been completed.

(1) Description of Plan, Continued

Pension Benefits, Continued

Employees are entitled to receive benefit payments at the normal retirement age of 65, although earlier retirement with lesser benefits is permitted. Benefit payments are paid in the following forms: (1) single life annuity for participant only; (2) years certain and life annuity with a five, ten or fifteen-year period certain for participant or designated beneficiary; (3) percentage certain and life annuity with a 50%, 66 2/3%, 75% or 100% certain for participant or designated beneficiary; or (4) lump sum distribution.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) Summary of Significant Accounting Policies, Continued

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated participants or their beneficiaries are based principally on the participants' annual benefit earned prior to November 1, 1985 and the benefit earned after November 1, 1985 reduced by any benefit earned under the ICI Specialty Chemical Pension Plan. The accumulated plan benefits for active employees are based on the above preceding the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to the employee service rendered at the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an actuary from Prudential Retirement Services and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations are as follows at April 1, 2009 and October 1, 2008:

Interest rate	6.0%
Discount rate	8.0%
Mortality (predecrement and postdecrement)	IRS 2009 Static Mortality Table and IRS 2008 Static Mortality Table
Retirement age	Attained age 65
Funding method	Unit Credit Actuarial Cost Method

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(2) Summary of Significant Accounting Policies, Continued

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative expenses relating to the operations of the Plan are paid by the Company. All other administrative expenses are paid by the Plan.

Subsequent Events

The Plan has evaluated subsequent events through November 1, 2010, the date the financial statements were available to be issued.

(3) Funding Policy

The Company's funding policy is to make annual contributions to the Plan in amounts that are estimated to ensure all employees' benefits will be fully provided for by the time they retire. The Company's contributions of \$146,000 and \$43,190 for the periods ended March 31, 2010 and 2009, respectively, met or exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(4) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect any time during the five years preceding plan termination.

API FOILS NORTH AMERICA PENSION PLAN

Notes to Financial Statements March 31, 2010 and 2009

(4) Plan Termination, Continued

- Other vested benefits insured by the Pension Benefits Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2010, that ceiling is \$4,500 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

(5) Investments

Investments that represent 5% or more of the net assets available for benefits as of March 31, 2010 and 2009 are as follows:

	2010	2009
Core Plus Bond/ PIMCO Fund	\$ 1,382,782	\$ 1,232,320
Large Capital Blend/ Victory Fund	\$ 338,289	\$ 238,988

(5) Investments, Continued

During 2010 and 2009, the Plan's investments in pooled separate accounts (including investments purchased and sold, as well as held during the year) appreciated (depreciated) in fair value by \$620,277 and \$(454,096), respectively.

(6) Investments Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, as permitted under such elections, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Prudential Retirement Insurance and Annuity Company (Prudential) except for comparing such information to information included in the Plan's financial statements and supplemental schedules. The following information was certified as complete and accurate by Prudential:

- Investments, at fair value, at March 31, 2010 and 2009.
- Net appreciation (depreciation) in fair value of investments for the periods ended March 31, 2010 and 2009.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year).
- Schedule H, Line 4j – Schedule of Reportable Transactions.

(7) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include
 - quoted prices for similar assets or liabilities in active markets;

API FOILS NORTH AMERICA PENSION PLAN

Notes to Financial Statements March 31, 2010 and 2009

(7) Fair Value Measurements, Continued

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2010 and 2009.

Pooled separate accounts: Valued on a participation-unit basis. The Plan's equity account provides a cumulative record of the number of participant units credited to the account and the number of units allocated to or withdrawn from the account. The balance of the Plan's participation units multiplied by the participant-unit value equals the Plan's pooled separate account balance at fair value. The participant-unit value is based upon the quoted market values of the underlying assets in the account.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(8) Actuarial Present Value of Accumulated Pension Benefits, Continued

The change in the actuarial present value of accumulated plan benefits for the years ended April 1, 2009 and October 1, 2008 are as follows:

	2009	2008
Actuarial present value of accumulated plan benefits at beginning of year	\$ 3,150,875	\$ 3,009,832
Increase (decrease) attributable to:		
Benefits accumulated and actuarial (gain) loss	41,191	(142,699)
Increase for interest due to decrease in the discount period	123,141	236,311
Assumption changes	82,666	161,508
Benefits paid	(24,160)	(114,077)
Net increase	222,838	141,043
Actuarial present value of accumulated plan benefits at end of year	\$ 3,373,713	\$ 3,150,875

(9) Related Party Transactions

Certain Plan investments are pooled separate accounts managed by Prudential. Prudential is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

(10) Tax Status

The Internal Revenue Service has determined and informed the plan sponsor by a letter dated December 11, 2007, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although, the Plan has been amended since receiving the determination letter the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

API FOILS NORTH AMERICA PENSION PLAN

Notes to Financial Statements

March 31, 2010 and 2009

(11) Risks and Uncertainties, Continued

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rate, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
