Note 1 - Description of the Plan

The following description of the Actimize Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Actimize Inc. (the "Company"). An employee must be 21 years of age to participate in the Plan. There is no service requirement to enter the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Subject to the Internal Revenue Service ("IRS") limitations, participants may elect to make contributions to the Plan in amounts up to 100% of pre-tax compensation not to exceed $16,500 and $15,500 for 2009 and 2008, respectively. Participants 50 years or older may elect to defer additional amounts (called "catch-up contributions") to the Plan. The additional amounts may be deferred regardless of any other limitations on the amount participants may defer to the Plan. The maximum "catch-up contribution" allowable for 2009 and 2008 was $5,500 and $5,000, respectively. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

The Company matches the participant's pre-tax contributions at a rate of 50% to a maximum of 6% of compensation. Discretionary profit-sharing contributions may be made at the option of Plan management. To be eligible for discretionary profit-sharing contributions, a participant must be active any time during the Plan year. Participants direct the investment of participant and employer contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings or losses, and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately 100% vested in their contributions, plus actual earnings or losses thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service.

Note 1 - Description of the Plan (continued)

Vesting (continued)

Vesting in the Company's match and discretionary profit-sharing contribution portion of their accounts, plus actual earnings thereon, is as follows:

Years of Service	Percentage
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4+ years	100%

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate based on the prevailing interest rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. Interest rates on outstanding loans range from 5.25% to 7.25%.

Payment of Benefits

All or a portion of a participant's vested balance is payable upon the participant's normal retirement. Benefits are recorded when paid.

Forfeitures

Forfeited non-vested accounts are used to reduce future Company contributions and pay Plan administrative expenses. At December 31, 2009, there was approximately $5,800 available to reduce future employer contributions and pay Plan administrative expenses. During the year ended December 31, 2009, approximately $16,800 of forfeitures were used to reduce employer contributions and pay Plan administrative expenses.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices that represent the net asset value of shares held by the Plan. Money market mutual funds are valued using the amortized cost method as permitted by Rule 2a-7 under the Investment Company Act of 1940, which approximates fair value. The value underlying assets in the pooled separate accounts consist of mutual funds. The value of each pooled separate account and of each unit of participation is determined at the close of each day. Whenever possible, the pooled separate accounts use independent pricing services to value investments. Loans to participants are stated at amortized cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Plan Expenses

Substantially all expenses incurred in connection with the administration of the Plan are paid by the Company.

Fair Value of Financial Instruments

As required by the *Fair Value Measurements and Disclosure* topic of the FASB Codification, fair value to be determined is based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such is a market-based measurement, not an entity-specific measurement. This topic establishes a three-level valuation hierarchy based upon observable and unobservable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value, as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Note 2 - Summary of Significant Accounting Policies (continued)
Fair Value of Financial Instruments (continued)

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162* ("FASB Codification"), which is effective for reporting periods ending after September 15, 2009. The FASB Codification is the single source of authoritative, nongovernmental U.S. generally accepted accounting principles ("GAAP"), superseding existing FASB, American Institute of Certified Public Accountants ("AICPA"), Emerging Issues Task Force ("EITF") and related accounting literature. The FASB Codification reorganizes the thousands of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. The adoption of the FASB Codification did not impact the Plan's financial position or results of operations.

Accounting for Uncertainty in Income Taxes

The *Income Taxes* topic of the FASB Codification clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and is effective for fiscal years beginning after December 15, 2008. The Plan adopted the provisions of the topic, and the adoption did not impact the amounts reported in the Plan's financial statements.

Subsequent Events

As required by the *Subsequent Events* topic of the FASB Codification, Actimize Inc. evaluated subsequent events through November 30, 2010, which is the date the financial statements were available to be issued.

Note 3 - Investment Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal"), the custodians, have certified the completeness and accuracy of all investments and related activity in the accompanying 2009 financial statements and supplemental schedules.

Such amounts were less than 1% of net assets available for benefits at fair value as of December 31, 2009 and 2008, respectively.

Note 5 - Fair Value Measurements (continued)

The following table presents changes in assets measured at fair value using Level 3 inputs on a recurring basis for the year ended December 31, 2009:

Participant loans	9,912	22,680	$ 32,592
	$ 11,243	$ 21,349	$ 32,592

Note 6 - Party-in-Interest Transactions

Certain Plan investments are managed by Principal. Principal is the Plan's custodian and, therefore, these transactions qualify as party-in-interest.

Note 7 - Tax Status

The Plan adopted a plan document sponsored by Principal Life Insurance Company that received an opinion letter from the IRS dated March 31, 2008, which stated that an employer that adopts the plan document may rely on the letter with respect to the qualification of its plan under the Internal Revenue Code ("IRC"). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal income taxes has been made in the accompanying financial statements.

Note 8 - Risk and Uncertainties

The Plan provides for various investment options in registered investment companies. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2009 may not necessarily be indicative of amounts that could be realized in a current market exchange.

Note 9 - Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-l fees. 12b-l fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.
