ABC AUTO PARTS, LTD. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
April 30, 2010

Note 1 – Description of Plan:

The following description of ABC Auto Parts, Ltd. 401(k) Savings Plan provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General – The Plan, amended and restated effective May 1, 2008, is a defined contribution plan covering substantially all of the full-time employees of ABC Auto Parts, Ltd. ("Company" or "we") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Effective May 6, 2008, Fidelity Management Trust Company (Fidelity) serves as the Plan asset custodian and record keeper (the Custodian). Massachusetts Mutual Life Insurance Company served as Plan asset custodian and record keeper prior to May 2008.

Eligibility – Employees are eligible for participation in the Plan after completing one year of service and reaching age twenty and one-half or older. Plan entry dates are May 1 and November 1.

Contributions – Each year, participants may contribute up to 25 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 are permitted to make additional "catch up" contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. We contribute a discretionary matching contribution which for the year ending April 30, 2010 and 2009 was equal to the first two percent of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of our board of directors. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) our contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Notes Receivable – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as general investments of the Plan. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest based on commercial lending rates for similar loans at the time of the loan. Interest rates range from 6.25 percent to 10.25 percent. Principal and interest is paid ratably through monthly payroll deductions.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in company contributions, and all earnings on these amounts are based on years of continuous service. These vest at a rate of 20 percent per year beginning with the second year of service and are 100 percent vested after six years of credited service. A participant's entire account balance becomes 100 percent vested upon the death or disability of the participant.

Investment Options – Upon enrollment in the Plan, a participant may direct employee and Company contributions in any of numerous investment options. These options include a money market fund, bond mutual funds, and numerous equity mutual funds with various investment objectives. Participants may change their investment options daily through Fidelity.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of his or her account in either a lump-sum amount, or in annual installments over a fixed time period or over the life expectancy of the participant or his beneficiary. For termination of service due to other reasons, a participant may receive the value of his or her account as a lump-sum distribution, installment payments or a deferred annuity.

Note 1 – Description of Plan: (continued)

Forfeitures – Forfeited nonvested accounts of former plan participants are used first to reduce expenses related to Plan administration or to reduce Company matching contributions. For the years ended April 30, 2010 and 2009, forfeitures of participant accounts totaling $8,003 and $-0-, respectively, were used to reduce company matching contributions. At April 30, 2010 and 2009, there are $2,173 and $3,299, respectively, of forfeitures that have not yet been applied to reduce employer contributions.

Note 2 – Summary of Significant Accounting Policies:

Basis of Accounting – The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles and practices as permitted by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and accounting principles generally accepted in the United States of America.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from those estimates. Accordingly, actual results may differ from those estimates.

Accounting Standards Codification

On July 1, 2009, the Financial Accounting Standards Board (FASB) launched the FASB Accounting Standards Codification (FASC). The FASC becomes the single source of authoritative GAAP for nongovernmental entities. Rules and interpretive releases of the SEC are also sources of authoritative GAAP for public entities. The FASC is not intended to change GAAP but incorporates existing standards into a single codified source. The FASC narrows the GAAP hierarchy to two levels: authoritative and nonauthoritative. The FASC is organized by topic, subtopic, section, and paragraph and references to GAAP in our footnotes are to the applicable FASC topic. The FASC is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

Fair Value Measurement

In accordance with FASC Topic 820 – Fair Value Measurements and Disclosures, we measure fair value at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts. We apply a hierarchy that prioritizes the information used to develop assumptions used in determining fair value. The hierarchy contains three levels of inputs: Level 1 – quoted prices in active markets for identical assets or liabilities; Level 2 – observable inputs, such as, quoted market prices of similar assets or liabilities in active markets or for identical assets or liabilities in markets that are not active; and Level 3 – unobservable inputs obtained from our own data. FASC Topic 820 applies whenever other standards require or permit assets or liabilities to be measured at fair value; however, it does not expand the use of fair value in any new circumstances. FASC Topic 820 does not apply to lower of cost or market determinations for inventory and does not eliminate the practicability exceptions to fair value measurements.

Our significant fair value measurements are those required by FASC Topic 825 – Financial Instruments. We have not chosen to use fair value measurements unless required to do so by applicable accounting standards.

ABC AUTO PARTS, LTD. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
April 30, 2010

Note 2 – Summary of Significant Accounting Policies: (continued)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Participant notes receivable are valued at cost which approximates fair value. Investment contracts are valued at estimated fair value as provided by insurance companies issuing the contracts. Mutual funds are valued at fair value as certified by the Plan Custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the risks associated with certain investment securities, it is at least reasonably possible that changes in the market values of these investments may occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Payment of Benefits – Benefits are recorded when paid.

Benefit Distributions – Benefit distributions for the plan years ended April 30, 2010 and 2009 include payments of $1,304 and $3,182, respectively, made to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan for the prior year.

Note 3 – Administration of Plan Assets:

The Plan assets are held by the custodian of the Plan. Employer and employee contributions are invested by the custodian as directed by our board of directors, Plan trustees, and Plan participants. Administrative and other operating expenses for the Plan are paid from Plan assets except for certain administrative expenses paid by the Company.

Note 4 – Information Prepared and Certified by Plan Custodian:

The April 30, 2010 and 2009 Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the years ended April 30, 2010 and 2009, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Custodians in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $2,614,755 and $1,836,467 at April 30, 2010 and 2009, respectively, and related income (losses) of $566,276 and $(626,272) for the years ended April 30, 2010 and 2009.

The fair value of mutual funds is based on quoted net asset values (as certified by the Custodian) of the shares held by the Plan at year-end. The group annuity contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the group annuity contract was reported at the amount certified by the Custodian, and the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements for the years ending April 30, 2010 and 2009.

Ending balance, April 30, 2010	$ -0-	$ 107,304	$ 107,304

Note 7 – Tax Status:

The Internal Revenue Service has determined, in its letter dated March 31, 2008, that the Fidelity prototype plan as adopted by the Company November 30, 2009 was a qualified plan under Section 401(a) of the Internal Revenue Code and the trust, under which the Plan operates, was exempt from federal income taxes under Section 501(a) of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ABC AUTO PARTS, LTD. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
April 30, 2010

Note 1 – Description of Plan:

The following description of ABC Auto Parts, Ltd. 401(k) Savings Plan provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General – The Plan, amended and restated effective May 1, 2008, is a defined contribution plan covering substantially all of the full-time employees of ABC Auto Parts, Ltd. ("Company" or "we") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Effective May 6, 2008, Fidelity Management Trust Company (Fidelity) serves as the Plan asset custodian and record keeper (the Custodian). Massachusetts Mutual Life Insurance Company served as Plan asset custodian and record keeper prior to May 2008.

Eligibility – Employees are eligible for participation in the Plan after completing one year of service and reaching age twenty and one-half or older. Plan entry dates are May 1 and November 1.

Contributions – Each year, participants may contribute up to 25 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 are permitted to make additional "catch up" contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. We contribute a discretionary matching contribution which for the year ending April 30, 2010 and 2009 was equal to the first two percent of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of our board of directors. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) our contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Notes Receivable – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as general investments of the Plan. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest based on commercial lending rates for similar loans at the time of the loan. Interest rates range from 6.25 percent to 10.25 percent. Principal and interest is paid ratably through monthly payroll deductions.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in company contributions, and all earnings on these amounts are based on years of continuous service. These vest at a rate of 20 percent per year beginning with the second year of service and are 100 percent vested after six years of credited service. A participant's entire account balance becomes 100 percent vested upon the death or disability of the participant.

Investment Options – Upon enrollment in the Plan, a participant may direct employee and Company contributions in any of numerous investment options. These options include a money market fund, bond mutual funds, and numerous equity mutual funds with various investment objectives. Participants may change their investment options daily through Fidelity.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of his or her account in either a lump-sum amount, or in annual installments over a fixed time period or over the life expectancy of the participant or his beneficiary. For termination of service due to other reasons, a participant may receive the value of his or her account as a lump-sum distribution, installment payments or a deferred annuity.

Note 1 – Description of Plan: (continued)

Forfeitures – Forfeited nonvested accounts of former plan participants are used first to reduce expenses related to Plan administration or to reduce Company matching contributions. For the years ended April 30, 2010 and 2009, forfeitures of participant accounts totaling $8,003 and $-0-, respectively, were used to reduce company matching contributions. At April 30, 2010 and 2009, there are $2,173 and $3,299, respectively, of forfeitures that have not yet been applied to reduce employer contributions.

Note 2 – Summary of Significant Accounting Policies:

Basis of Accounting – The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles and practices as permitted by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and accounting principles generally accepted in the United States of America.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from those estimates. Accordingly, actual results may differ from those estimates.

Accounting Standards Codification

On July 1, 2009, the Financial Accounting Standards Board (FASB) launched the FASB Accounting Standards Codification (FASC). The FASC becomes the single source of authoritative GAAP for nongovernmental entities. Rules and interpretive releases of the SEC are also sources of authoritative GAAP for public entities. The FASC is not intended to change GAAP but incorporates existing standards into a single codified source. The FASC narrows the GAAP hierarchy to two levels: authoritative and nonauthoritative. The FASC is organized by topic, subtopic, section, and paragraph and references to GAAP in our footnotes are to the applicable FASC topic. The FASC is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

Fair Value Measurement

In accordance with FASC Topic 820 – Fair Value Measurements and Disclosures, we measure fair value at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts. We apply a hierarchy that prioritizes the information used to develop assumptions used in determining fair value. The hierarchy contains three levels of inputs: Level 1 – quoted prices in active markets for identical assets or liabilities; Level 2 – observable inputs, such as, quoted market prices of similar assets or liabilities in active markets or for identical assets or liabilities in markets that are not active; and Level 3 – unobservable inputs obtained from our own data. FASC Topic 820 applies whenever other standards require or permit assets or liabilities to be measured at fair value; however, it does not expand the use of fair value in any new circumstances. FASC Topic 820 does not apply to lower of cost or market determinations for inventory and does not eliminate the practicability exceptions to fair value measurements.

Our significant fair value measurements are those required by FASC Topic 825 – Financial Instruments. We have not chosen to use fair value measurements unless required to do so by applicable accounting standards.

ABC AUTO PARTS, LTD. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
April 30, 2010

Note 2 – Summary of Significant Accounting Policies: (continued)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Participant notes receivable are valued at cost which approximates fair value. Investment contracts are valued at estimated fair value as provided by insurance companies issuing the contracts. Mutual funds are valued at fair value as certified by the Plan Custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the risks associated with certain investment securities, it is at least reasonably possible that changes in the market values of these investments may occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Payment of Benefits – Benefits are recorded when paid.

Benefit Distributions – Benefit distributions for the plan years ended April 30, 2010 and 2009 include payments of $1,304 and $3,182, respectively, made to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan for the prior year.

Note 3 – Administration of Plan Assets:

The Plan assets are held by the custodian of the Plan. Employer and employee contributions are invested by the custodian as directed by our board of directors, Plan trustees, and Plan participants. Administrative and other operating expenses for the Plan are paid from Plan assets except for certain administrative expenses paid by the Company.

Note 4 – Information Prepared and Certified by Plan Custodian:

The April 30, 2010 and 2009 Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the years ended April 30, 2010 and 2009, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Custodians in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $2,614,755 and $1,836,467 at April 30, 2010 and 2009, respectively, and related income (losses) of $566,276 and $(626,272) for the years ended April 30, 2010 and 2009.

The fair value of mutual funds is based on quoted net asset values (as certified by the Custodian) of the shares held by the Plan at year-end. The group annuity contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the group annuity contract was reported at the amount certified by the Custodian, and the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements for the years ending April 30, 2010 and 2009.

Note 7 – Tax Status:

The Internal Revenue Service has determined, in its letter dated March 31, 2008, that the Fidelity prototype plan as adopted by the Company November 30, 2009 was a qualified plan under Section 401(a) of the Internal Revenue Code and the trust, under which the Plan operates, was exempt from federal income taxes under Section 501(a) of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
