Matson, Driscoll & Damico
Defined Benefit Plan and Trust

We were engaged to audit the accompanying statements of net assets available for benefits of MATSON, DRISCOLL & DAMICO DEFINED BENEFIT PLAN AND TRUST as of April 30, 2010 and 2009, and the related statement of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Bank of America, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of and for the year ended April 30, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

As further discussed in Note 1 to the financial statements, the Board of Trustees of Matson, Driscoll & Damico, LLP voted to terminate the Plan. In accordance with accounting principles generally accepted in the United States of America, the Plan's financial statements were prepared on a liquidation basis.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DEFINED BENEFIT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following brief description of the Matson, Driscoll & Damico Defined Benefit Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

Plan Termination – On November 30, 2007, the Plan was terminated. As a result, all participants became fully vested in the monthly pension which is payable starting at age 65 and guaranteed for life. If a participant is 65 years of age or older at that point in time, the monthly benefit is immediately payable. All other participants have the option of a lump sum or actuarially equivalent options. If the participant elects the lump sum, they have the option of transferring their balances over to: (a) a new profit sharing plan established by Matson, Driscoll & Damico, LLP (the Partnership), (b) an IRA account, or (c) paid directly to the participant as a taxable lump-sum distribution. The following policies were in effect until the Plan was terminated.

General – The Plan is a defined benefit pension plan covering substantially all employees of the Partnership.

It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Pension Benefits – Employees with five or more years of service were entitled to annual pension benefits beginning at normal retirement age (62). The Plan permits early retirement at age 60. The normal form of a benefit payment was a single life annuity. For married participants a 50% joint and survivor benefit was payable until November 30, 2007. A member whose service was terminated for any reason other than death, disability or retirement, vested in his or her accrued benefit according to the following vesting schedule:

<u>Years of Service</u>	<u>Vested Interest</u>
Less than two	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

Participants were able to elect to receive benefits as follows:

- A single lump-sum payment;
- An annuity paid during your life or during the joint lives of you and your non-spousal beneficiary;
or
- A series of equal installments over a period not exceeding the participant's life expectancy (or the life expectancies of the participant and his/her beneficiary) at the time of distribution.

1. Description of Plan (Cont.)

General (cont.) –

Death and Disability Benefits – A participant who died prior to retirement was fully vested in his accrued benefit which was payable to his beneficiary. A member who is disabled was fully vested in his accrued benefit.

2. Summary of Significant Accounting Policies

Basis of Accounting – During the year ended April 30, 2008, the Plan was terminated. Due to the decision to terminate the Plan, the financial statements were prepared using the liquidation basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan provides for investments that, in general, are exposed to various risks such as interest rates, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amount reported in the statements of net assets available for benefits.

Funding Policy – The contribution required to fund the Plan was determined using the Frozen Initial Liability, Level Dollar Cost Method under the termination date. The actuary expects that the contribution income will meet the minimum required by ERISA under this method.

Actuarial Present Value of Accumulated Plan Benefits – Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their highest consecutive five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the "valuation date"). Benefits payable under all circumstances (retirement, death, disability, and termination of

employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Benefit Services Group, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and expected date of payment.

Due to the freezing of plan benefits and termination of the Plan, no valuations were performed as of April 30, 2010 and 2009.

Payment of Benefits – Benefits payments to participants are recorded upon distribution.

Plan Termination – The Plan has been terminated, subject to the provisions set forth in ERISA, effective November 30, 2007.

Upon termination, all unallocated amounts shall be allocated in accordance with the provisions hereof and the accrued benefit of each affected participant shall become fully vested and shall not thereafter be subject to forfeiture.

Upon approval from the PBGC of the Plan termination, the administrator shall allocate the assets of the Plan among participants and beneficiaries in accordance with the provision of the Plan agreement.

The foregoing allocations shall be made by a committee in accordance with the determinations of the actuary pursuant to the regulations.

Operating Expenses – Expenses paid on behalf of the Plan for legal, accounting and other administrative expenses are paid by the Plan in accordance with the Plan document.

3. Investment Certification

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, the custodian of the Plan, has certified to the completeness and accuracy of all investments, at fair value, reflected on the accompanying statements of net assets available for benefits as of April 30, 2010 and 2009, and the investment income (loss) and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended April 30, 2010 and 2009.

4. Investments

The Plan's investments that represent 5% or more of the Plan's net assets available for benefits as of April 30, 2010 and 2009 were as follows:

	<u>2010</u>	<u>2009</u>
Registered investment companies:		
Columbia Cash Reserves	<u>\$ -</u>	<u>\$ 2,696,380</u>

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$0 and \$134,086 in the years ended April 30, 2010 and 2009, respectively.

6. Party-in-Interest

Historically, plan investments were shares of mutual funds managed by the custodian. These transactions qualified as exempt party-in-interest transactions. Fees paid by the Plan for the custodial and administrative services were \$705 and \$45,932 for the years ended April 30, 2010 and 2009, respectively.

7. Tax Status

The Plan obtained its latest determination letter on March 17, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the IRC). The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

8. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires the plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

MATSON, DRISCOLL & DAMICO
DEFINED BENEFIT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

8. Fair Value Measurements (Cont.)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of April 30, 2010 and 2009:

		Fair Value Measurements at Report Date Using		
		Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	<u>Fair Value</u>			
April 30, 2010	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
April 30, 2009:				
Registered investment companies	<u>\$ 2,696,380</u>	<u>\$ 2,696,380</u>	<u>\$ -</u>	<u>\$ -</u>

9. Subsequent Events

Management has evaluated subsequent events through December 8, 2010, the date which the financial statements were available to be issued.
