Independent Auditors' Report

To the Plan Committee of the
Global Performance, LLC 401(k) Plan
Houston, Texas

We were engaged to audit the financial statements of Global Performance, LLC 401(k) Plan (the "Plan") as of February 10, 2010 and December 31, 2009, and for the period from January 1, 2010 through February 10, 2010 and the supplemental schedule as of February 10, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As described in Note B, these financial statements and supplemental schedule were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Reliant Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee held the Plan's investment assets and executed investment transactions. The Plan Administrator has obtained a certification from the trustee as of February 10, 2010 and December 31, 2009, and for the period from January 1, 2010 through February 10, 2010, that the information provided to the Plan Administrator by the trustee is complete and accurate.

As further discussed in Note A to the financial statements, on February 10, 2010, the Plan Sponsor elected to merge the Plan's assets into the Mustang Engineering 401(k) Plan and the Mustang Engineering LBO 401(k) Plan.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GLOBAL PERFORMANCE, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
FEBRUARY 10, 2010 AND DECEMBER 31, 2009

NOTE A - DESCRIPTION OF PLAN

The following description of the Global Performance, LLC 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

During December 2009, a Merger Agreement was executed, effective February 10, 2010, transferring all assets and liabilities of the Plan to the Mustang Engineering 401(k) Plan and the Mustang Engineering LBO 401(k) Plan, to be held therein in trust. Additionally, on December 31, 2009, the Plan was frozen so that no employee who was not already a participant in the Plan as of this date would be eligible to become a participant in the Plan.

General: The Plan was a defined contribution retirement plan covering all employees, except leased employees, of Global Performance, LLC (the “Employer”) who were age twenty-one and older and had completed 30 days of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), and its amendments.

Contributions: Contributions from employees were based on elective salary reductions determined by the employee and could not exceed the maximum amount authorized by the Plan. Participants could contribute at least 1% but no more than 75% of their compensation restricted to the limitations set forth by the Internal Revenue Service (the “IRS”). Participants who attained age 50 before the end of the plan year were eligible to make catch-up contributions. There were no participant contributions to the Plan during the period from January 1, 2010 through February 10, 2010. Participants who had completed 30 days of service and were age twenty-one or older were eligible to receive the Employer’s elective contributions. The Employer could elect to make “safe harbor” matching contributions equal to 100% of compensation deferrals up to the first 3% of compensation plus 50% of the compensation deferrals that exceed 3% of compensation but that do not exceed 5% of compensation. The Employer made no safe harbor matching contributions to the Plan during the period from January 1, 2010 through February 10, 2010.

The Employer could also make a discretionary matching and profit sharing contribution each year. Any profit sharing contribution was to be divided among the accounts of plan participants on the last day of the plan year in proportion to their compensation as compared with the total compensation received by all participants of the Plan during the plan year. The Employer made no discretionary contributions to the Plan during the period from January 1, 2010 through February 10, 2010.

Participant Accounts: Each participant’s account was credited with the participant’s contributions, allocation of the Employer’s safe harbor matching and discretionary contributions, and plan earnings. Allocations were based on participant compensation or account balances, as defined by the plan document. The benefit to which a participant was entitled is the benefit that can be provided from the participant’s vested account.

Vesting: Participants were immediately vested in their contributions and related earnings. Participants were also immediately vested in the Employer’s safe harbor matching and discretionary contributions.

GLOBAL PERFORMANCE, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
FEBRUARY 10, 2010 AND DECEMBER 31, 2009

NOTE A - DESCRIPTION OF PLAN (Continued)

Participant Loans: Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest were paid ratably through payroll deductions. The loan terms were not to exceed five years, unless it is for the purchase of a principal residence in which case the loan repayment period may not exceed ten years.

Payment of Benefits: Participants were eligible for benefits as a result of retirement, death, disability, separation of service, or under certain circumstances prior to termination of employment as described under the plan document. Participants could elect to receive a lump-sum amount equal to the value of their account, dependent on various factors.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared on the modified cash basis of accounting. This basis differs from accounting principles generally accepted in the United States of America because the Plan has not recognized contributions receivable or payable. Modified cash basis differs from cash basis because the investments are adjusted to fair value.

Use of Estimates: The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: The Plan provided for self-directed investment programs for individual participants as provided by Reliance Trust Company. Investment changes could be made at any time. Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments were recorded on a trade-date basis. Interest income was recorded when received. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period ended February 10, 2010.

As described in the Financial Accounting Standards Board Accounting Standards Codification ("ASC") 962, *Plan Accounting - Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan Agreement. The Statements of Net Assets Available for Benefits - Modified Cash Basis present the fair value for the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits - Modified Cash Basis is prepared on a contract value basis.

GLOBAL PERFORMANCE, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
FEBRUARY 10, 2010 AND DECEMBER 31, 2009

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The participants were permitted to invest in various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits - Modified Cash Basis.

Payment of Benefits: Benefits were recorded as a reduction to net assets available for benefits upon distribution.

Administrative Expenses: The Plan's administrative expenses were paid by either the Plan or the Employer, as provided by the plan document.

NOTE C - INVESTMENTS CERTIFIED BY TRUSTEE (UNAUDITED)

As permitted by the rules and regulations of the Department of Labor with respect to reporting and disclosure under ERISA, the trustee, Reliance Trust Company, has certified to the Plan Administrator that all amounts shown in the accompanying financial statements and supplemental schedule, related to investments, are complete and accurate as of February 10, 2010 and December 31, 2009, and for the period from January 1, 2010 through February 10, 2010.

The following table presents the fair value of investments. Individual investments that represent 5% or more of the Plan's net assets available for benefits in either year are shown separately.

NOTE D - FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy as defined by ASC 820 are as follows:

- Level 1: Valuations utilizing unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. This is the most reliable evidence of fair value and does not require a significant degree of judgment.
- Level 2: Valuations utilizing quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly for substantially the full term of the asset or liability.
- Level 3: Valuations utilizing significant, unobservable inputs. This provides the least objective evidence of fair value and requires a significant degree of judgment. Inputs may be used with internally developed methodologies and should reflect an entity's assumptions using the best information available about the assumptions that market participants would use in pricing an asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 10, 2010 and December 31, 2009:

- The fair values of mutual funds are determined based on quoted market prices ("fair value") on the last business day of the plan year as reported by the investment trustee of the Plan's assets. The change in the current value of investments during the period are reflected in the Statement of Changes in Net Assets Available for Benefits - Modified Cash Basis as net appreciation or depreciation in fair value of mutual funds. Investments are generally subject to the volatility of the major stock markets in which the underlying investments are held.
- Common collective investment trust funds are stated at fair value as determined by the issuer of the common collective investment trust funds based on the fair market value of the underlying investments. Common collective investment trust funds with underlying investments in investment contracts are valued at fair value of the underlying investments and then adjusted by the issuer to contract value. The MetLife Stable Value Fund is a stable value fund that typically invests in fixed-income securities or bond funds and may include derivative instruments such as future contracts and swap agreements. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

GLOBAL PERFORMANCE, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
FEBRUARY 10, 2010 AND DECEMBER 31, 2009

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

- Participant loans are cash loans made to participants who hold accounts with the Plan. The fair value of these loans are reported at amortized cost and cannot be readily determined in an active market or other observable market as it is not practical to estimate the loan's fair value due to restrictions on the transferability of the loans.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Effective February 10, 2010, all assets were transferred to other plans and, accordingly, the Plan held no assets. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Equity funds	\$ 4,167,180	\$ -	\$ -	\$ 4,167,180
Fixed income funds	140,016	-	-	140,016
Total mutual funds	4,307,196	-	-	4,307,196
Common collective investment trust	-	2,429,803	-	2,429,803

NOTE E - INCOME TAX STATUS

The IRS has determined and informed the Employer by letter dated November 1, 2004, that the Plan and related trust were designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although, the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan was designed and operated in compliance with the applicable provisions of the IRC.

GLOBAL PERFORMANCE, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
FEBRUARY 10, 2010 AND DECEMBER 31, 2009

NOTE F - SUBSEQUENT EVENTS

The Plan adopted ASC 855, *Subsequent Events*, in 2009 which establishes general standards of accounting for and disclosures of events that occur after the Statement of Net Assets Available for Benefits - Modified Cash Basis date but before the financial statements are issued or are available to be issued. The standard sets forth the period after the Statement of Net Assets Available for Benefits - Modified Cash Basis date during which management should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the Statement of Net Assets Available for Benefits - Modified Cash Basis date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the Statement of Net Assets Available for Benefits - Modified Cash Basis date. It requires the disclosure of the date through which an entity has evaluated subsequent events.

The Plan Administrator has evaluated all subsequent events through December 14, 2010, the date which the financial statements were available to be issued and determined that there are no events that require recognition in the financial statements or disclosure in the notes to the financial statements.
