NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Hartman Newspapers L.P. Profit Sharing Plan and Trust (the Plan) was adopted effective October 1, 1979 to establish a savings and investment plan for the exclusive benefit of the employees of Hartman Newspapers L.P., Met Publishing, Inc., Brenham Banner Press, Cuero Record, and Hartman Publishers, Ltd. (the Company and Plan Administrator) and their beneficiaries. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting, which is acceptable under the Department of Labor Rules and Regulations. Interest and dividend income are recognized when earned.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options. Investments are exposed to certain risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

The guaranteed interest account (fixed account) is presented at fair value on the statements of net assets available for plan benefits. Fully benefit-responsive investments are stated at contract value which is equal to the principal balance plus accrued interest. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The fair value of fully benefit-responsive investment contracts is calculated using a discounted cash flow model which considers recent bids as determined by recognized dealers, the discount rate and the duration of the underlying portfolio securities.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefit-Responsive Fund - The fixed account invests primarily in asset-backed contracts that are fully benefit-responsive. These asset-backed contracts have two components: (1) a portfolio of securities or underlying assets and (2) a wrap contract. Pursuant to the contract, the issuer of the contract (wrap provider) undertakes to repay the principal amount deposited plus accrued interest less expenses to fund participant-directed withdrawals, transfers and loans. The crediting rate of the asset-backed contract is a function of the relationship between the market value, yield and duration of the underlying assets versus the contract value. If the positive adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value increases, the crediting rate at the next reset date will be negatively impacted and vice versa. Interest rate change is a key factor that can influence future crediting rates because it impacts the value, yield and duration of the underlying securities.

The net weighted average yield earned by the entire fund was 3% for 2008. The net weighted interest rate credited to participants in the fund was 3.97% for 2008.

All of the asset-backed contracts held by the fixed account are fully participating contracts. In a fully participating contract, the asset and liability risks may be transferred from the wrap provider to the fixed account in the event of a termination or non-participant directed withdrawal, transfer or loan. The risk of this event happening is not probable. The wrap provider may terminate a fully benefit-responsive contract and settle at an amount different from the contract value if the wrap provider of the fixed account is unable to meet the terms of the contract.

Federal Income Tax - The Company adopted a Prototype Standardized Profit Sharing Plan with a deferral arrangement. The Prototype Standardized Profit Sharing Plan received a favorable opinion letter from the Internal Revenue Service on September 18, 2001 which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (Code). The Plan has been amended since receiving the favorable opinion letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and therefore believes that the Plan was qualified and the related Trust was tax exempt as of the financial statement date.

Subsequent Events - The Plan has evaluated subsequent events through October 15, 2010, the date the financial statements were available to be issued. No subsequent events occurred, which require adjustment or disclosure to the financial statements at December 31, 2009.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - An employee is eligible to become a participant in the Plan on the first day of the month coincident with being credited with one year of service and having attained the age of 21.

Contributions - Participants may elect to make contributions to the Plan in an annual amount ranging from 1% to 100% of their compensation exclusive of commissions. Contributions are made through authorized payroll reductions. Participant contributions are limited to $16,500 in 2009 for participants under 50 years of age. For those participants over 50, contributions are limited to $22,000 in 2009. This limitation is adjusted periodically to reflect cost-of-living increases.

The Company elected to contribute a matching 401(k) contribution equal to 25% of employee contributions. The Company may make additional contributions, in an amount determined solely at the discretion of the Directors of the Company. Such additional discretionary contributions, if any, are allocated pro rata to all eligible participants based upon the proportion of the participant's compensation to the total compensation of all eligible participants not to exceed 5.7% of compensation. The discretionary contribution for 2009 was $148,822.

Each participant account is credited with the participant's contribution, the Company's contribution, and a pro rata share of the earnings of each fund in which the participant has invested.

Vesting - A participant is immediately fully vested with respect to the portion of the participant's account attributable to participant contributions. Any Company elective contributions and related earnings vest as follows:

Full Years of Vesting Service	Vested Interest
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Forfeitures of account balances not fully vested are used to reduce future employer contributions to the Plan or to pay administrative expenses of the Plan. At December 31, 2009, forfeitures of $66,926 can be used to reduce future employer contributions.

Participant Loans - The Plan does not currently allow for participant loans.

NOTE B PLAN DESCRIPTION (CONTINUED)

Forms of Benefits - The normal form of benefit payable under this Plan is a lump sum. If the amount payable is $5,000 or less, the participant may receive a lump sum distribution as soon as feasible following the date of termination and the optional form of benefit will be a direct rollover to an individual retirement plan designated by the Plan Administrator. If the amount payable is greater than $5,000, the participant must give written consent before the distribution can be made.

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Trustees.

Administration - The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan.

Plan Termination – Three officers of the Company serve as Trustees of the Plan. The Company has the right under the Plan to terminate the Plan subject to provisions set forth in ERISA. Upon termination, all participants would become fully vested in their accrued benefits as of the date of termination.

NOTE D FAIR VALUE DISCLOSURES

Generally accepted accounting principles provide a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

Following is a description of the valuation techniques used for investments measured at fair value. There have been no changes in the techniques used during 2009 and 2008.

Registered investment companies are valued at the net asset value of shares held by the Plan at year end.

Pooled separate accounts and the guaranteed interest account are valued at the net asset value of the underlying securities held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation techniques are appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair values of investments are categorized as follows at December 31, 2009 and 2008:

	2009			
	Level 1	Level 2	Level 3	Total
Registered Investment Companies	$ 7,381,124	$ -	$ -	$ 7,381,124
Total Investments at Fair Value	$ 7,381,124	$ -	$ -	$ 7,381,124

	2008			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	$ -	$ 4,707,382	$ -	$ 4,707,382
Guaranteed Interest Account	-	1,754,045	-	1,754,045
Total Investments at Fair Value	$ -	$ 6,461,427	$ -	$ 6,461,427

There were no significant transfers in and/or out of the fair value categories during 2009 and 2008.

NOTE E PROHIBITED TRANSACTIONS

Certain employee contributions totaling $17,875 and $115,593 were not timely remitted by the Company to the Plan as required by ERISA during 2009 and 2008, respectively. Because the Company was delinquent in forwarding participant employee contributions and held them commingled with its general assets, the Company engaged in nonexempt prohibited transactions under ERISA Section 406.

NOTE F PARTY-IN-INTEREST

The Plan invested in various funds offered by Hartford Life Insurance Company. These investments are considered party-in-interest transactions because Hartford Life Insurance Company serves as the Asset Custodian of the Plan. The Company approved these investment options.
