YETTER MANUFACTURING COMPANY
PROFIT SHARING AND RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Yetter Manufacturing Company Profit Sharing and Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established July 1, 1984 to provide retirement benefits to the full-time employees of Yetter Manufacturing Company, Inc. (Company). Employees become participants in the Plan upon the completion of one year of service and attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to fifteen percent of their annual compensation, subject to certain ERISA limitations. Participants may choose to begin, modify or terminate their contributions on January 1, April 1, July 1 and October 1 of each year. Company contributions are discretionary and are determined annually by the Company's Board of Directors.

Participant Accounts

Each participant's account is credited with the participant's contribution, as well as an allocation of the Company's contribution, Plan earnings and forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

Forfeited non-vested accounts may be used to pay Plan expenses or reduce employer contributions. For the years ended June 30, 2010 and 2009, forfeitures of $1,108 and $6,683, respectively, were used to reduce employer contributions. At June 30, 2010, there was $9,431 of unallocated forfeitures. This amount will be allocated during the year ended June 30, 2011.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on covered years of service. A covered year of service is any twelve-month period ending on the Plan year and during which the participant worked at least 1,000 hours. Additionally, participants become 100% vested upon retirement, death or disability.

Years of Service	Percent Vested
less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant Loans

In April 2009 the Plan was amended and no longer allows any new participant loans. Prior to the amendment, participants could borrow a maximum of 50% of their vested account balance, or $50,000, whichever was less. The minimum loan amount allowed was $1,000. The participant's vested account balance serves as security for the loan, and a fixed rate of interest is charged based on the commercial rate at the time the funds are borrowed. Participants are required to sign a promissory note with repayment terms no longer than 5 years. Payments are required at least quarterly, generally through payroll deduction.

Payment of Benefits

All distributions from the Plan are made in single lump-sum cash payments. Benefits are recorded when paid.

Administrative Expenses

Significant costs of plan administration are paid by the employer.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their accounts.

Tax Status

The Plan obtained its latest determination letter on July 22, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Revenue Recognition

Interest income is recognized as it is earned. Employer contributions are recognized concurrent with the Company's accrual of such expenditures.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates based on management's knowledge and experience. Due to their prospective nature, actual results could differ from those estimates.

Investments

Deposits with the insurance company are included in the financial statements at fair market value for separate accounts and guaranteed investment accounts, as reported to the Plan by Principal Life Insurance Company. See Note 8 for discussion of fair value measurements.

Subsequent Events

The Plan has evaluated subsequent events through November 23, 2010, the date which the financial statements were available to be issued.

NOTE 3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the financial statements was obtained from data that has been prepared and certified as complete and accurate by Principal Life Insurance Company, the custodian:

	2010	2009

NOTE 4. INVESTMENTS

During the Plan year ended June 30, 2005, the Plan entered into a deposit contract with the Principal Life Insurance Company, the custodian. The custodian, as directed by the Plan's participants, maintains the contributions in either pooled separate accounts or in guaranteed investment accounts. The pooled separate accounts are credited with actual earnings on the underlying investments (units of participation). The guaranteed investment accounts are credited with a guaranteed minimum interest rate under the terms of the guaranteed investment contract. The guaranteed investment accounts earned guaranteed rates ranging from .27% to 4.09% and .89% to 3.75% for the years ended June 30, 2010 and 2009, respectively. According to the terms of the contract, interest rates may be reset annually or as considered necessary by the custodian to avoid significant hardship. These accounts are charged for Plan withdrawals and administrative expenses incurred by the custodian. The guaranteed investment accounts are not fully benefit responsive.

The following presents investments that represent 5% or more of the Plan's net assets:

	2010	2009
Principal Life Insurance Company		
Principal Lifetime 2020	$1,293,145	$1,093,056
Principal Guaranteed 5 Yr	1,500,753	1,510,439
Principal Lifetime 2030	238,373	-

NOTE 5. PLAN TRUSTEES

The Plan has contracted with Bernard Whalen and Patrick Whalen to act as Plan trustees. Under the terms of the agreement, the trustees are responsible for the management of Plan assets. There were no trustee fees paid during the years ended June 30, 2010 and 2009.

NOTE 6. TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan's transactions with parties-in-interest during the years ended June 30, 2010 and 2009 were as follows:

Party-in-interest	Description of Transaction	Amount
Principal Life Insurance Company	Plan custodian and investment manager	Administrative expenses of $13,147 and $11,677 for 2010 and 2009, respectively
Yetter Manufacturing, Inc.	Plan sponsor	Contributions of $210,977 and $203,050 for 2010 and 2009, respectively

NOTE 7. NET ASSETS AVAILABLE FOR BENEFITS

Net assets available for benefits consist of the following:

	2010	2009
Current participants	$ 4,292,394	$ 3,915,683
Former participants – vested	38,891	-
	$ 4,331,285	$ 3,915,683

NOTE 8. FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under accounting standards are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010 from prior year.

Separate accounts with insurance companies: Valued daily at the net asset value (NAV) based on the market value of the applicable underlying investments. The NAV is not a publicly-quoted price in an active market.

Guaranteed investment contract: Contracts are not fully benefit responsive and are valued at fair value, which is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2010:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
