Independent Auditor's Report

To the Board of Trustees
Oak State Products, Inc. 401(k) Retirement Plan
Wenona, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of Oak State Products, Inc. 401(k) Retirement Plan (the Plan) as of June 30, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended June 30, 2010, and the supplemental Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) for the year ended June 30, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by Associated Trust Company, N.A., the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodian as of and for the year ended June 30, 2010, and as of June 30, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Oak State Products, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Oak State Products, Inc. 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Oak State Products, Inc. (the Company) that have completed six months of service and are age eighteen or older. Employees who are members of a collective bargaining agreement between employee representatives and the Company or leased employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to reduce their salary and have that amount contributed to the Plan. The elective deferred amount may not be more than the lesser of (a) 100 percent of their compensation, (b) maximum dollar limit allowed under the requirements of the Internal Revenue Code or (c) such lesser amount as determined by the discrimination tests for the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes 50 percent of the first 3 percent of base compensation that a participant contributes to the Plan, plus 20 percent of salary deferrals that exceed 3 percent of base compensation but do not exceed 8 percent of base compensation. Participants direct the investment of their contributions into various options offered by the Plan. The Plan currently offers eighteen investment options for participants. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's elective and, if applicable, rollover contributions, transfers to the Plan, and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions (elective, rollover and employer matching contributions) and earnings credited to their accounts.

Participant notes receivable: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their account balance, whichever is less. Loan terms include a maximum of 5 years, unless the loan qualifies as a home loan. The loans are secured by the balance in the participant's account and bear interest at rates ranging between 3.25 percent to 8.25 percent, which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payments of benefits: On termination of service due to death, disability, or retirement, a participant with a total value of vested accounts greater than \$5,000 may elect to delay distribution or elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a period of years not longer than the participant's life expectancy or the joint and last survivor life expectancies of the designated beneficiary. Participants with vested account balances less than \$5,000 receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Oak State Products, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Certain other administrative expenses are also paid directly by the Company.

Adoption of accounting pronouncements: The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended June 30, 2010. See Note 7 for additional information.

In April 2009, the FASB issued accounting guidance on determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly. Under this guidance, if an entity determines that there has been a significant decrease in the volume and level of activity for the asset or the liability in relation to the normal market activity for the asset or liability, then transactions or quoted prices may not accurately reflect fair value. In addition, if there is evidence that the transaction for the asset or liability is not orderly, the entity shall place little, if any, weight on that transaction price as an indicator of fair value. The Plan adopted this guidance effective for the year ended June 30, 2010. The adoption of this guidance did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits.

In June 2009, the FASB issued accounting guidance which established the FASB Accounting Standards Codification (the ASC) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities. This guidance was effective for financial statements issued for annual periods ending after September 30, 2009. On the effective date, this guidance superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the ASC became non-authoritative. The Plan adopted this new guidance effective June 30, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements.

Oak State Products, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

In September 2009, the FASB issued an amendment that provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance did not have a material impact on the Plan's financial statements.

Recent accounting standard: In January 2010, the FASB issued an amendment that requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. We are currently evaluating the impact of the guidance related to Level 3 measurements on our disclosures.

In September 2010, FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented. This amendment has not yet been adopted. Adoption of this amendment is not expected to have a material impact on the net assets.

Subsequent events: The Plan Administrator has evaluated subsequent events through December 14, 2010, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Associated Trust Company, N.A.

The following is a summary of the investment information as of June 30, 2010 and 2009, and for the year ended June 30, 2010, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements, Notes 3 and 4 and the supplemental schedule related to the following investments below.

Note 4. Fair Value Measurements

Accounting guidance on fair value measurements and disclosures defines fair value, establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system, and expands disclosures about fair value measurement. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business.

The Plan's statement of net assets available for benefits contains Plan investments and participant loans that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1 uses quoted market prices in active markets for identical assets or liabilities.

Level 2 uses observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3 uses unobservable inputs that are not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010 and 2009.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end, as determined by the Plan's custodian.

Collective investment funds: The Plan holds investments in collective investment funds (a trust). The custodian manages and administers the assets held in the collective investment funds according to terms established by the Plan's investment policy. The collective investment funds are valued on each market opening date. Unit values are based on the market value of the fund's assets on the valuation date (daily) minus the fund's liabilities on the valuation date. The fund's unit value is calculated by dividing the fund's NAV on the valuation date by the number of units of the fund outstanding on the valuation date.

Participant notes receivable: Valued at their amortized balances, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 5. Party-in-Interest Transactions

The Plan invests in shares of registered investment companies and collective investment funds managed by the custodian and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the custodian are paid by the Company.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, each participant's account balance will be distributed to the participant or named beneficiary.

Note 7. Tax Status

The Company has adopted a prototype plan, for which a favorable opinion letter was issued by the Internal Revenue Service on December 21, 2001, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in a manner that qualifies it under the Internal Revenue Code Section 401(a) and, therefore, is exempt from income taxes under the provisions of the Internal Revenue Code Section 501(a).

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

To the Board of Trustees
Oak State Products, Inc. 401(k) Retirement Plan
Wenona, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of Oak State Products, Inc. 401(k) Retirement Plan (the Plan) as of June 30, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended June 30, 2010, and the supplemental Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) for the year ended June 30, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by Associated Trust Company, N.A., the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodian as of and for the year ended June 30, 2010, and as of June 30, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Oak State Products, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Oak State Products, Inc. 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Oak State Products, Inc. (the Company) that have completed six months of service and are age eighteen or older. Employees who are members of a collective bargaining agreement between employee representatives and the Company or leased employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to reduce their salary and have that amount contributed to the Plan. The elective deferred amount may not be more than the lesser of (a) 100 percent of their compensation, (b) maximum dollar limit allowed under the requirements of the Internal Revenue Code or (c) such lesser amount as determined by the discrimination tests for the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes 50 percent of the first 3 percent of base compensation that a participant contributes to the Plan, plus 20 percent of salary deferrals that exceed 3 percent of base compensation but do not exceed 8 percent of base compensation. Participants direct the investment of their contributions into various options offered by the Plan. The Plan currently offers eighteen investment options for participants. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's elective and, if applicable, rollover contributions, transfers to the Plan, and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions (elective, rollover and employer matching contributions) and earnings credited to their accounts.

Participant notes receivable: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their account balance, whichever is less. Loan terms include a maximum of 5 years, unless the loan qualifies as a home loan. The loans are secured by the balance in the participant's account and bear interest at rates ranging between 3.25 percent to 8.25 percent, which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payments of benefits: On termination of service due to death, disability, or retirement, a participant with a total value of vested accounts greater than \$5,000 may elect to delay distribution or elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a period of years not longer than the participant's life expectancy or the joint and last survivor life expectancies of the designated beneficiary. Participants with vested account balances less than \$5,000 receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Oak State Products, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Certain other administrative expenses are also paid directly by the Company.

Adoption of accounting pronouncements: The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended June 30, 2010. See Note 7 for additional information.

In April 2009, the FASB issued accounting guidance on determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly. Under this guidance, if an entity determines that there has been a significant decrease in the volume and level of activity for the asset or the liability in relation to the normal market activity for the asset or liability, then transactions or quoted prices may not accurately reflect fair value. In addition, if there is evidence that the transaction for the asset or liability is not orderly, the entity shall place little, if any, weight on that transaction price as an indicator of fair value. The Plan adopted this guidance effective for the year ended June 30, 2010. The adoption of this guidance did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits.

In June 2009, the FASB issued accounting guidance which established the FASB Accounting Standards Codification (the ASC) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities. This guidance was effective for financial statements issued for annual periods ending after September 30, 2009. On the effective date, this guidance superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the ASC became non-authoritative. The Plan adopted this new guidance effective June 30, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements.

Oak State Products, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

In September 2009, the FASB issued an amendment that provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance did not have a material impact on the Plan's financial statements.

Recent accounting standard: In January 2010, the FASB issued an amendment that requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. We are currently evaluating the impact of the guidance related to Level 3 measurements on our disclosures.

In September 2010, FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented. This amendment has not yet been adopted. Adoption of this amendment is not expected to have a material impact on the net assets.

Subsequent events: The Plan Administrator has evaluated subsequent events through December 14, 2010, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Associated Trust Company, N.A.

The following is a summary of the investment information as of June 30, 2010 and 2009, and for the year ended June 30, 2010, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements, Notes 3 and 4 and the supplemental schedule related to the following investments below.

Note 4. Fair Value Measurements

Accounting guidance on fair value measurements and disclosures defines fair value, establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system, and expands disclosures about fair value measurement. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business.

The Plan's statement of net assets available for benefits contains Plan investments and participant loans that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1 uses quoted market prices in active markets for identical assets or liabilities.

Level 2 uses observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3 uses unobservable inputs that are not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010 and 2009.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end, as determined by the Plan's custodian.

Collective investment funds: The Plan holds investments in collective investment funds (a trust). The custodian manages and administers the assets held in the collective investment funds according to terms established by the Plan's investment policy. The collective investment funds are valued on each market opening date. Unit values are based on the market value of the fund's assets on the valuation date (daily) minus the fund's liabilities on the valuation date. The fund's unit value is calculated by dividing the fund's NAV on the valuation date by the number of units of the fund outstanding on the valuation date.

Participant notes receivable: Valued at their amortized balances, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Oak State Products, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 5. Party-in-Interest Transactions

The Plan invests in shares of registered investment companies and collective investment funds managed by the custodian and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the custodian are paid by the Company.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, each participant's account balance will be distributed to the participant or named beneficiary.

Note 7. Tax Status

The Company has adopted a prototype plan, for which a favorable opinion letter was issued by the Internal Revenue Service on December 21, 2001, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in a manner that qualifies it under the Internal Revenue Code Section 401(a) and, therefore, is exempt from income taxes under the provisions of the Internal Revenue Code Section 501(a).

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
