SPEC SERVICES, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2010 AND 2009

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the SPEC Services, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – Effective September 28, 1981, Spec Services, Inc. adopted a profit sharing plan for its employees to provide eligible employees a share of the profits of Spec Services, Inc. and to encourage long-term employment of such employees.

Eligibility – All employees, except leased employees, are eligible to enter the Plan the first month following their date of hire. Participants are eligible to receive matching contributions after they have completed 6 months of service.

Contributions – The Company's eligible employees may contribute a percentage of their compensation, subject to the limits as defined by the Internal Revenue Code, each year on a pre-tax basis by salary reduction.

The Company may make matching contributions, qualified non-elective safe harbor contributions and/or discretionary contributions without regard to the Company's current or accumulated profits as determined each year by resolution of the Company's board of directors. The Company made qualified non-elective safe harbor contributions of $439,508 and a discretionary contribution of $1,745,850 for the Plan year ended March 31, 2010.

Participant Accounts – Each participant's account is credited with the participant's allocation of (a) the Company's discretionary contributions, (b) the participant's contribution, and (c) Plan earnings. Allocations of the Company discretionary profit sharing contributions are based on the participant's compensation and the total compensation of all participants. Allocations of fund earnings are based upon the ratio that each participant's fund balance bears to the total investment fund balance.

Administrative Expenses – The Company pays for certain administrative expenses on behalf of the Plan.

Investment of Plan Funds – A participant may choose among various funds in which his or her respective participant accounts may be invested subject to the limitations as defined by the Plan.

Vesting – Participants are always 100% vested in their contributions and related earnings account and in their employer safe harbor contributions and related earnings account. Each participant's interest in their Company matching and/or discretionary contributions and related earnings account are vested as follows:

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Years of Vesting Service	Vested Percentage
One year	30%
Two years	60%
Three years	75%
Four years	90%
Five years	100%

Payment of Benefits –Participants are entitled to receive the vested portion of their account balances as soon as administratively possible following retirement, termination or upon becoming disabled. Participants can also elect to defer benefit payments until April 1 following the year in which they reach the age of 70 ½.

Forfeitures – Amounts forfeited from terminating participants' non-vested portion of their Company matching and discretionary contributions and earnings on Company contributions are allocated among the accounts of eligible participants. Approximately $40,000 of forfeitures were allocated to participant accounts of eligible participants. As of March 31, 2010 and 2009, there were approximately $52,000 and $35,000, respectively, of unallocated forfeitures available. The reduction in the forfeiture account is attributable to allocations of forfeitures relating to the year ended March 31, 2009.

Participant Loans – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent (50%) of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.75 percent to 10.5 percent which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through payroll deductions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Valuation of Investments – All investments are carried at fair value or an approximation of fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned. The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounting Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

Safe Harbor Election – The Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan is not subject to the ADP or ACP discrimination tests, and no excess deferral contributions have been calculated or accrued as a liability.

Funding Policy – Contributions for participant deferrals is funded on a bi-weekly basis.

Subsequent Events – Subsequent events have been evaluated through _____, the date the financial statements were available for issuance.

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable can be corroborated by observable market data for substantially the full term of the assets or liabilities.

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of March 31, 2010 and 2009:

Mutual Funds: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Money Market Funds: These investments are public investment securities valued using the NAV provided by the investment custodian. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Common/Collective Trust Funds: These investments are public investment securities valued using the NAV provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Participant Loans: These investments are valued at amortized cost, which approximates fair value.
