We were engaged to audit the accompanying statement of net assets available for benefits of Wren Industries, Inc. Profit Sharing Plan and Trust as of March 31, 2010, and the related statement of changes in net assets available for benefits for the year then ended and the supplemental schedule of Schedule H, line 4i-Schedule of Assets Held (At End of Year) as of or for the year ended March 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management. The statement of net assets available for benefits of Wren Industries, Inc. Profit Sharing Plan and Trust as of March 31, 2009 was audited by other auditors whose report dated December 11, 2009, disclaimed an opinion on that statement.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Principal Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of March 31, 2010 and 2009 and for the year ended March 31, 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN:

The following description of the Wren Industries, Inc. Profit Sharing Plan and Trust (plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

1. *General.* The plan is a defined contribution plan covering all full-time employees of the company. All full-time employees of the Company are eligible to participate in the retirement savings plan on April 1, August 1, November 1, or January 1 following the attainment of one year of service. The plan is subject to the provisions of ERISA.
2. *Contributions.* Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the plan, limited to the statutory maximum contribution of \$16,500. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions of \$5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds and an insurance investment contract as investment options for participants. Each year, the company has an option to match contributions made by the employees and an option to make a profit sharing contribution to the Plan. The amounts contributed are determined by the company's board of directors and is discretionary. The matching company contribution and profit sharing amounts are invested in investments directed by the participant.
3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) plan earnings, (c) forfeitures of terminated participants' nonvested accounts, and (d) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. *Vesting.* Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.
5. *Participant Loans.* Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms range from 1 to 5 years. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 10.25 percent, which are commensurate with local prime rates offered by financial institutions. Principal and interest are paid ratably through weekly payroll deductions.
6. *Payment of Benefits.* On termination of service, the participant may elect to receive the value of the vested interest in his or her account as a lump sum distribution or life annuities.
7. *Forfeited Accounts.* At March 31, 2010, forfeited nonvested accounts totaled \$136. These amounts will be used to reduce future employer contributions.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

The majority of the expenses of maintaining the plan are paid by the company.

Date of Management's Review

Subsequent events have been evaluated through January 7, 2011, which is the date the financial statements were available to be issued.

C. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information is included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

Investments, at fair value:	
Pooled Separate Accounts (Mutual Funds)	\$ 2,021,170
Common/Collective Trust	1,479,320
Participant Loans	141,235
Investment, at contract value:	
Common/Collective Trust	1,485,697
Investment Income	688,223

D. INVESTMENTS:

The plan's investments are held in pooled separate accounts at Principal Trust Company. The following presents investments that represent 5 percent or more of the plan's net assets at March 31, 2010:

Russell LifePoints Moderate Strategy	\$ 263,106
Alliance Bernstein Large Cap Value III	290,819
Principal Large Cap S&P 500	300,648
T Rowe Price Large Cap Growth I	186,916
Goldman Sachs Mid Cap Value I	192,626
Principal Diversified International	340,582
KeyBank EB Managed Guaranteed Investment Contract	1,485,697

E. PARTY-IN-INTEREST TRANSACTIONS:

Certain plan investments are shares of mutual funds managed by Principal Financial Group. Principal Trust Company (a member of the Principal Financial Group) is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions.

F. FAIR VALUE MEASUREMENTS:

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

WREN INDUSTRIES, INC.
PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

F. FAIR VALUE MEASUREMENTS (continued):

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the plan has the ability to access.

Level 2 - Inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.

Level 3 - Inputs are unobservable inputs for the asset or liability and rely on plan management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the plan's own data.)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2010:

Pooled separate accounts (mutual funds): Valued at the net asset value (NAV) of shares held by the plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

Common/collective trust: Guaranteed investment contract valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See note G).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

F. FAIR VALUE MEASUREMENTS (continued):

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of March 31, 2010.

G. INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The plan has a benefit-responsive investment contract with Principal Trust Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Principal because contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

WREN INDUSTRIES, INC.
PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

G. INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued):

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by Principal Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at March 31, 2010 was \$1,479,320. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The average market yield for the contract for the year ended March 31, 2010 was 2.62%.

H. PLAN TERMINATION:

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

I. TAX STATUS:

The plan is a prototype plan designed by the plan's trustee. The Internal Revenue Service has determined and informed the third party administrator by a letter dated March 31, 2008, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

WREN INDUSTRIES, INC.
PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

J. RISKS AND UNCERTAINTIES:

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
