Independent Auditor's Report

To the Investment Committee
Topco Associates LLC 401(k) Plan
Skokie, Illinois

We have audited the accompanying statements of net assets available for benefits of Topco Associates LLC 401(k) Plan as of March 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended March 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Topco Associates LLC 401(k) Plan as of March 31, 2010 and 2009, and the changes in net assets available for the year ended March 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of March 31, 2010, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1. Plan Description

The following description of Topco Associates LLC 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Topco Associates LLC and TopSource LLC (together, the Company). Employees are eligible to participate on the first day of employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Under the 401(k) provisions of the Plan, participants may contribute up to 60 percent of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company makes matching contributions of
33-1/3 percent of each eligible participant's pre-tax contributions. No matching contributions shall be made on participant's deferrals in excess of 3 percent of his or her compensation. The Company may also make an additional discretionary Matching Company Contribution and Company Non-elective Contributions as declared by the Board of Directors. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching contributions, allocations of plan earnings, discretionary Company contributions and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions and earnings thereon for those participants that were hired prior to January 1, 2010. Participants with a hire date after January 1, 2010 vest in the Company Matching Contributions and Company Non-Elective Contributions and any earnings thereon based on years of continuous service. A participant is 100 percent vested after 6 years of credited service.

Forfeitures: At March 31, 2010 and 2009, there were no forfeited nonvested accounts. These accounts are used to reduce future Company contributions. During the year ended March 31, 2010, there was no reduction of Company contributions from forfeited nonvested accounts.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant notes receivable: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. The loan repayment period is not to exceed five years except for the purchase of a principal residence, for which the loan repayment period may not exceed ten years. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with the rates of lending institutions under similar circumstances. The interest rate on loans currently outstanding is 6.5 percent. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service, a participant's vested accrued benefit shall be paid in the form of a lump sum or installment payments.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Valuation of investments and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

New accounting pronouncements: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, *Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. See Note 3 for the disclosures related to the adoption of ASU 2009-12.

The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local authorities for years before 2006.

Note 2. Summary of Significant Accounting Policies (Continued)

Pending accounting pronouncements: The FASB issued ASU 2010-6, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements* which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010. Management is currently evaluating the impact of the guidance related to disclosures in the financial statements.

In September 2010, the FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented. This amendment has not yet been adopted. Management is currently evaluating the impact of the guidance related to disclosures in the financial statements.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through December 16, 2010, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2010:

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Shares of common/collective fund: Valued at fair market value which represents the NAV of shares held by the trust at year-end as determined by Fidelity Management Trust Company (and equals cost plus net interest earned).

Participant notes receivable: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at measured fair value as of March 31, 2010 and 2009.

	Assets at Fair Value at March 31, 2010			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies:				
Money Market	$ 909,925	$ -	$ -	$ 909,925

Total assets at fair value	$ 19,658,370	$ 3,052,921	$ 523,242	$ 23,234,533

Note 3. Fair Value Measurements (Continued)

	Assets at Fair Value at March 31, 2009			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 12,248,639	$ -	$ -	$ 12,248,639
Shares of common/collective fund	-	2,935,621	-	2,935,621

Total assets at fair value	$ 12,248,639	$ 2,935,621	$ 384,704	$ 15,568,964

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended March 31, 2010.

	Participant Notes Receivable
Balance, beginning of year	$ 384,704
Issuances and repayment (net)	147,538
Balance, end of year	$ 532,242

The following table sets forth the fair value of investments in certain entities that calculate NAV per share (or its equivalent):

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Managed Income Portfolio Fund (a)	$ 3,052,921	$ -	None	12 months

a) This category includes U.S. government and government agency obligations, asset backed securities, mortgage securities, nonconvertible bonds and cash equivalents. Investments in this category can be redeemed immediately at the participant level and in 12 months at the plan level at the current NAV per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the NAV per share of the investments.

Note 4. Investments

The following table presents the fair value of investments representing 5 percent or more of the Plan's net assets as of March 31, 2010 and 2009.

	2010	2009
Shares of common/collective fund:		
Fidelity Management Trust Company Managed Income Portfolio Fund	$ 3,052,921	$ 2,935,621
Shares of registered investment companies:		
Vanguard Fiduciary Trust Company Index Trust 500 Portfolio Fund	3,656,896	2,043,616
Fidelity Management Trust Company Growth and Income Fund	3,046,608	2,035,873
Fidelity Management Trust Company Blue Chip Growth Fund	5,320,141	3,042,508
Fidelity Management Trust Company Spartan International Index Fund	1,832,292	993,720
Fidelity Management Trust Company Short-Term Bond Fund	1,900,051	1,802,244
Fidelity Management Trust Company Retirement Government Money Market Fund	*	1,268,354

* Less than 5 percent of net assets

Contract value of the Managed Income Portfolio Fund was $3,079,268 and $3,081,666 at March 31, 2010 and 2009, respectively. During the plan year ended March 31, 2010, the Plan's investments in shares of registered investment companies, including investments bought, sold and held during the year, appreciated in value by $5,079,636.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 6. Related Party Transactions

Certain plan investments are shares of a common/collective fund and shares of registered investment companies managed by Fidelity Management Trust Company, the trustee. These transactions qualify as party-in-interest. The trustee also performed administration and recordkeeping services for the Plan. Fees for these services paid by the Plan were $3,207 for the year ended March 31, 2010.

Certain administrative expenses are being paid by the Company. Certain employees of the Company are performing services for the Plan and are not compensated by the Plan.

Note 7. Tax Status

Effective January 1, 2010, the Plan adopted a volume submitter plan sponsored by Fidelity Management & Research Co. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter's qualified status. The sponsor has relied on the volume submitter opinion letter. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 7. Tax Status (Continued)

Prior to January 1, 2010, the Plan had adopted a non-standardized form of a prototype plan sponsored by Fidelity Management & Research Co., which was effective beginning March 1, 2004. The prototype plan had received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The sponsor has relied on the prototype opinion letter. The Plan was amended since its adoption. The plan administrator believes the Plan was designed and was being operated in compliance with the applicable provisions of the Internal Revenue Code, prior to the change in adoption.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Subsequent Event

Effective October 1, 2010, the Company switched third-party administrators from Fidelity Investments to Putnam Investments.
