Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Associated Benefits Corporation
Plan Administrator for The Modified Contributory
Retirement Plan for Cooperatives and Participants
(Participating Employer — Central Valley Ag, O'Neill, NE, Group 327):

We have audited the accompanying statements of net assets available for benefits of The Modified Contributory Retirement Plan for Cooperatives (Participating Employer — Central Valley Ag, O'Neill, NE, Group 327) ("Plan") as of March 31, 2010 and 2009 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of the internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of March 31, 2010 and 2009, and the changes therein for the years then ended, and its financial status as of April 1, 2009 and 2008 and the changes therein for the year ended April 1, 2009, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2010 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

1. DESCRIPTION OF THE PLAN

The following description of The Modified Contributory Retirement Plan for Cooperatives (Participating Employer — Central Valley Ag, O'Neill, NE, Group 327) ("Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a contributory defined benefit plan administered by Associated Benefits Corporation ("Plan Administrator") that covers substantially all full-time employees of Central Valley Ag. Employees who work 1,000 hours or more per year are eligible on the first day of the first or the seventh month of the Plan year following the attainment of age 21. Prior to July 1, 2009, eligible employees made contributions equal to 3 percent of their compensation. Subsequent to July 1, 2009, eligible employees make contributions equal to 5 percent of their compensation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits — Participants can retire with their full pension on the first day of the month coincident with or immediately following the later of their 65th birthday (normal retirement) or the fifth anniversary of the date participation began.

The monthly pension benefit under the Plan is equal to 1.25 percent of average monthly earnings, as defined, multiplied by years of credited service prior to July 1, 2009. Effective July 1, 2009, the monthly pension benefit under the Plan changed to 1.75% of average monthly earnings for years of credited service after July 1, 2009. The normal form is a pension payable for the participant's lifetime. However, an actuarially reduced joint and 50 percent survivorship basis with 120 guaranteed monthly payments is the automatic form for married participants unless both the participant and spouse elect another form.

Participants are immediately vested in employee contributions plus an annual interest rate of 120 percent of the Federal mid-term rate for the month of April of each Plan year. Accumulated employee contributions and interest thereon, net of applicable benefit payments, at April 1, 2009 and 2008, were $309,557 and $169,899, respectively. The interest rates were 3.54 percent and 5.54 percent as of April 1, 2009 and 2008, respectively. Participants become 100 percent vested in employer contributions after completion of five years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RELATED MATTERS

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan's investment in the Retirement Trust for Cooperatives (the "Trust") utilizes various investment securities including U.S. government securities, corporate debt instruments, mutual funds and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investment in the Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. Investments in notes, bonds, and debentures, including direct investments in United States government and agency notes and bonds, are priced based through wire services that look at the bid/ask quote across the market for that issue. Certain issues, that trade less frequently, are priced based on an estimate using previous market data and determined by looking at a similar asset that is currently trading. The fair value of equity funds and real estate funds is determined on the basis of that net asset value per share or its equivalent without adjustment. Common collective trust funds are stated at fair value as determined by the issuer of the common collective trust funds based on the fair market value of the underlying investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses — Administrative expenses consisting of Trustee fees, investment management fees, actuarial fees and payments to the Pension Benefit Guarantee Corporation (PBGC) are paid from Plan assets. Other administrative expenses, including expenses of the Plan Administrator, are paid by the participating employer. Trustee fees and investment management fees are deducted from investment income or loss.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

New Accounting Standards Adopted — The accounting standards initially adopted in the 2010 financial statements described below affected certain note disclosures but did not impact the statements of net assets available for benefits or the statement of changes of net assets available for benefits.

Accounting Standards Codification — The Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) became effective on July 1, 2009. At that date, the ASC became FASB's official source of authoritative GAAP applicable to all public and nonpublic nongovernmental entities, superseding existing guidance issued by the FASB, the American Institute of Certified Public Accountants (AICPA), the Emerging Issues Task Force (EITF) and other related literature. The FASB also issues Accounting Standards Updates (ASU). An ASU communicates amendments to the ASC. An ASU also provides information to help a user of GAAP understand how and why GAAP is changing and when the changes will be effective.

Subsequent Events — In May 2009, the FASB issued ASC 855 (originally issued as FASB Statement No. 165, *Subsequent Events*) to establish general standards of accounting for and disclosing events that occur after the balance sheet date, but prior to the issuance of financial statements. ASC 855 provides guidance on when financial statements should be adjusted for subsequent events and requires companies to disclose subsequent events and the date through which subsequent events have been evaluated. ASC 855 is effective for periods ending after June 15, 2009.

Updates to Fair Value Measurements and Disclosures — In 2009, FASB Staff Position 157-4, *Disclosures Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP), was issued and later codified into ASC 820, which expanded disclosures and required that major category for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments.

In September 2009, the FASB issued ASU No. 2009-12, *Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)* ("ASU 2009-12"), which amended ASC Subtopic 820-10, *Fair Value Measurements and Disclosures — Overall*. ASU No. 2009-12 is effective for the first reporting period ending after December 15, 2009. ASU No. 2009-12 expands the required disclosures for certain investments with a reported net asset value (NAV). ASU No. 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. The ASU requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Plan has adopted ASU No. 2009-12 on a prospective basis for the year ended March 31, 2010 (see Note 6). The effect of the adoption of the ASU had no impact on the statements of net assets available for benefits and statement of changes in net assets available for benefits.

New Accounting Standards to Be Adopted — ASU No. 2010-06, Fair Value Measurements and Disclosures — In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact ASU No. 2010-06 will have on the financial statements.

3. FUNDING POLICY

The participating employer's funding policy is to make cash contributions to the Plan in excess of employee contributions as determined by the Plan's independent actuary. The participating employer met the minimum funding requirements of ERISA for the years ended March 31, 2010 and 2009. For financial statement purposes, all employer contributions made to meet the minimum funding requirements of ERISA are considered attributable to the current plan year and are accrued in the financial statements if not paid by year end. For PBGC funding purposes, all employer contributions made to the Plan prior to the filing of the Form 5500 are considered attributable to the previous year.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by independent actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Actuarial assumptions used in the valuations as of April 1, 2009 and 2008 were (1) expected long-term rate of return —8.0 percent per annum; (2) discount rate — full yield curve with an estimated average rate of 8.0 percent with a range of rates from 4.9 percent to 8.5 percent, and segmented as 5.3 percent for years 1–5, 6.0 percent years 6–20, and 6.5 percent years 20 and over, respectively; (3) mortality — RP 2000 (Separate Male & Female Tables) Annuitant and Non-Annuitant static separate tables as set forth in Proposed Regulation 1.430(h)(3)-1; (4) turnover — based on selected rates of turnover for the first four years of service and on termination rates from Table T-5 of the Actuary's Pension Handbook; (5) spouse's benefit — 80 percent of employees are assumed married with male spouses 2 years older; (6) salaries — will increase according to an age-related table ranging from 8 percent down to 1.5 percent; (7) expenses — investment related expenses and administration expenses will be paid from investment income in excess of assumed rate of return; (8) contingency fund charge — 0.3640 percent and 0.2274 percent of covered payroll, respectively; and (9) eligible employees will retire according to the following schedule — employees eligible for the special rule of 85 benefit are assumed to retire according to the select rates shown below for the first year after becoming eligible. The ultimate rates apply to rule of 85 retirements after the first year since becoming eligible and regular retirements. The first year rates will not start before age 55 even if the rule of 85 applies earlier, nor will they ever fall below the ultimate rate for that age.

As of April 1, 2009 and 2008, the rates of retirement assumed were as follows:

	Rate of Retirement	
Age	First Year	Ultimate
55	6 %	3 %
56	6	3
57	6	3
58	6	5
59	6	5
60	6	5
61		20
62		30
63		25
64		25
65		50
66		25
67		25
68 and over		100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits, using the aggregate cost method, is as follows:

	As determined on April 1, 2009	As determined on April 1, 2008
Vested:		
Active participants	$ 792,031	$ 644,968
Beneficiaries and retirees	608,226	530,310
Other participants (including participants active at other groups)	264,192	343,303
	1,664,449	1,518,581
Nonvested active participants	167,965	66,094
Total actuarial present value of accumulated Plan benefits	$ 1,832,414	$ 1,584,675

The changes in the actuarial present value of the Plan's accumulated benefits from April 1, 2008 to April 1, 2009 are as follows:

Actuarial present value of accumulated Plan benefits at beginning of year	$ 1,584,675
Increase (decrease) during the year attributable to:	
Benefit accumulations/actuarial gains and losses	268,695
Decrease for change in actuarial assumption	(6,003)
Increase for interest due to the decrease in the discount period	121,323
Benefits paid	(136,276)
Net increase	247,739
Actuarial present value of accumulated Plan benefits at end of year	$ 1,832,414

5. FAIR VALUE MEASUREMENTS

ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair market value measurements. ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active

market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

In accordance with the update to ASC 820 (originally issued as FSP 157-4), the table below includes the major categorization for investments on the basis of the nature and risk of the investments at March 31, 2010.

	Fair Value Measurements at March 31, 2010, Using

Total	$ -	$ 257,145,743	$ 16,256,796	$ 273,402,539

The following tables present a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3):

	Real Estate Funds 2010	Real Estate Funds 2009
Beginning balance — April 1	$ 16,256,796	$ -
Unrealized gains (losses)	(5,675,038)	(2,243,204)
Purchases, issuances, and settlements		18,500,000
Ending balance — March 31	$ 10,581,758	$ 16,256,796
The amount of total gains or losses for the years ended March 31, 2010 and 2009 included in changes in net assets attributable to the change in unrealized gains or losses related to assets still held at the reporting date	$ (5,675,038)	$ (2,243,204)

The valuation methods as described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Asset Value (NAV) per Share — In accordance with ASU No. 2009-12, the Plan expanded its disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of March 31, 2010.

The following table for March 31, 2010, sets forth a summary of the Trust's investments with a reported NAV.

		Fair Value Estimated Using Net Asset Value per Share March 31, 2010				
Investment		Fair Value *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Russell Equity I Core Fund	(a)	$ 81,844,000	$ -	Immediate	None	None
Russell Equity II Core Fund	(b)	45,887,560		Immediate	None	None

Total		$ 280,806,145	$ -			

*The fair values of the investments have been estimated using the net asset value of the investment.

(a) The Russell Equity I Core Fund seeks to provide long-term growth of capital by investing primarily in equity securities and to achieve above average results over a market cycle. This fund employs a "multi-style, multi-manager" approach whereby portions of the fund are allocated to different money managers who employ distinct investment styles. The fund uses three principal investment styles intended to complement one another:

Growth: Emphasizes investments in equity securities of companies with above-average earnings growth prospects.

Value: Emphasizes investments in equity securities of companies that appear to the money manager to be undervalued relative to their corporate worth, based on earnings, book or asset value, revenues, cash flow or other measures.

Market-Oriented: Emphasizes investments in companies from the broad equity market rather than focusing on the growth or value segments of the market.

(b) The Russell Equity II Core Fund is a small capitalization fund designed to provide maximum long-term appreciation through investments that are well diversified by industry. As in the Russell Equity I Core Fund, this fund combines Growth, Value, and Market-Oriented Advisers to ensure style diversification.

(c) The Russell Global Real Estate Securities Fund provides broad exposure to equity securities of real estate companies throughout the world, primarily real estate investment trusts (REITs) and other real estate operating companies whose value is derived from ownership, development and management of commercial properties. This fund seeks to provide current income and long-term capital growth with above-average consistency.

(d) The Russell International Core Fund provides participation in financial markets outside of the United States. The Fund invests in international financial markets, primarily those of developed economies in Europe and the Pacific Basin. This fund invests primarily in equity securities issued by foreign corporations, but may invest in other securities perceived as offering attractive investment return opportunities. The fund seeks to provide appreciation of capital as well as diversification when used in conjunction with a portfolio of U.S. securities, recognizing the lack of perfect correlation in the movement of security prices in international markets relative to those in the United States, and to invest in companies successfully competing in the international arena.

(e) The Russell 1000 Index Fund, Series I is designed to track the performance of the large and medium capitalization companies contained in the index, which represents approximately 90 percent of the market capitalization of the U.S. stock market. This fund seeks to achieve its own investment objective by investing in the BlackRock Russell 1000 Index Fund E.

(f) The Russell Real Estate Equity Fund employs a multi-style, multi-adviser investment approach to private core and enhanced core real estate. This fund seeks to obtain a favorable total return through income and growth, and to outperform the NCREIF Open-End Diversified Core Equity Fund Index — Equal Weight.

6. INVESTMENTS AND INTEREST IN THE RETIREMENT TRUST FOR COOPERATIVES

Wells Fargo Bank, n.a. manages the Trust on behalf of the Plan under the terms of the trust agreement between the Wells Fargo Bank, n.a. and the Plan. The Plan is a participant in the Trust. The authority to invest is vested in the appointed money managers, subject to the funding policy and investment objectives established by the Plan Administrator. The investments and changes therein of the Trust have been reported to the Plans by Wells Fargo Bank, n.a. (“Trustee”) as having been determined through the use of fair values. Since the Plan’s funds are commingled with other plans participating in the Trust, the investments reported in these financial statements reflect only the Plan’s allocable portion of the individual investments. Although assets of all plans are commingled in the Trust, the Plan Administrator maintains supporting records for the purpose of allocating the net investment income to the participating plans. The net investment income is allocated by the Plan Administrator to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The following presents the Trust's net assets as of March 31, 2010 and 2009:

	2010	2009
INVESTMENTS — At fair value:		
Common stock and equity funds	$270,228,342	$153,282,401

Plan's interest in The Retirement Trust for Cooperatives as a percentage of the total	0.7 %	0.6 %

The Trust's investments that represented five percent or more of the Trust's net assets available for benefits as of March 31, 2010 and 2009, are as follows:

	2010	2009
Russell Equity I Core Fund	$81,844,000	$45,943,980
Russell Equity II Core Fund	45,887,560	24,920,754

Russell 1000 Index Series I	78,765,857	*
Wells Fargo Short Term Investment Fund	*	17,322,922

* Balance did not exceed 5%

During the years ended March 31, 2010 and 2009, the Trust's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2010	2009
Interest and dividend income	$ 4,675,286	$ 5,943,588
Net appreciation (depreciation):		
Investments — at fair value:		
Common stock and equity funds	89,514,524	(80,356,558)
United States government and agency obligations	436,736	1,945,253

Net appreciation (depreciation)	89,428,391	(85,563,145)
Investment expenses	1,528,194	1,276,947
Net investment gain (loss)	$ 92,575,483	$ (80,896,504)
Plan's allocable portion of net investment gain (loss) of The Retirement Trust for Cooperatives	$ 613,296	$ (465,321)

The Trust participates in a securities lending program through the Trustee. Under this program, the Trust's investment securities are loaned to investment brokers for a fee. At the inception of each loan, the Trust requires a minimum of 102% of the fair value of the loaned securities to be separately maintained as collateral for the loans. The Trust has reinvested the collateral in common collective trusts holding cash, letters of credit, securities issued or guaranteed by the U.S. government, its agencies, and instrumentalities and corporate bonds. At March 31, 2010 and 2009, approximately $3,100,000 and $7,500,000, respectively, of the Trust's securities were on loan under the Trustee's securities lending program. Securities loaned under such transactions may be sold or repledged by the transferee. Income from the program was $4,640 and $58,961 for the years ended March 31, 2010 and 2009, respectively.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Trust investments are shares of mutual funds which are managed by Wells Fargo Bank, n.a. Wells Fargo Bank, n.a. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Trust for the investment management services are included as a reduction of the return on each fund.

8. FEDERAL INCOME TAX STATUS

The Plan has not filed for a determination letter from the Internal Revenue Service that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). However, the Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the participating employer has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

10. SUBSEQUENT EVENTS

Subsequent events related to the financial statements have been evaluated through July 15, 2010, which is the date the financial statements were available to be issued, and has determined that there are no material events that require adjustment to the disclosures in these financial statements.

Schedule SB, Part V – Summary of plan provisions

	Contributory Plan	Noncontributory Plan
Monthly earnings	Monthly Earnings are calculated by dividing the prior calendar year total earnings by the number of weeks worked and multiplying the result times 4 1/3 to obtain a monthly rate. Earnings are limited to $200,000 per year indexed as provided for by law – limit for 2008 is $230,000.	Same. Note that total earnings include 401(k) and Section 125 elective deferrals.
Average monthly earnings	Plan benefits are computed using the average of the monthly earnings for the highest five consecutive years prior to termination.	Same
Credited service	Prior to May 1, 1975, Credited Service is the number of years and months from date of hire. Since May 1, 1975, Credited Service is the number of 1,000-hour plan years. If less than 1,000 hours in year of hire or termination, partial credit is given equal to the number of full months worked divided by 12. Employers who adopt the Plan choose whether to grant Credited Service prior to date of adoption.	Same
Normal retirement date	Participants are entitled to retire and receive their full pension benefit on the first of the month coincident with or immediately following their 65th birthday.	Same

Schedule SB, Part V – Summary of plan provisions

	Contributory Plan	Noncontributory Plan
Normal retirement benefit	The monthly pension is equal to the percent of Average Monthly Earnings specified in the Employer's Adoption Agreement multiplied by years of Credited Service. The following employers (by group number) have selected the 1.55% post March 31, 1994 accrual formula: 32, 71, 122, 138, and 168. The following employers (by group number) have selected the 1.65% post March 31, 1994 accrual formula: Groups 81.	The monthly pension is equal to 1.1% of Average Monthly Earnings multiplied by years of Credited Service. Participants have a minimum benefit equal to the accrued benefit as of the later of March 31, 1989 and the date the Employer adopted the Noncontributory Plan, PLUS 1.1% of Average Monthly Earnings multiplied by years of Credited Service earned after the later of March 31, 1989 and the date of adoption. Section 401(a)(17) Members have an additional minimum benefit equal to the accrued benefit frozen as of 3/31/94 (determined limiting Earnings to $235,840) PLUS 1.1% of Average Monthly Earnings multiplied by Credited Service after April 1, 1994. The frozen March 31, 1994 accrued benefit is adjusted to reflect increases in the Member's Average Monthly Earnings after March 31, 1994 as allowed by 42 C.F.R. Section 1.401(a)(4)-13.

Schedule SB, Part V – Summary of plan provisions

	Contributory Plan	Noncontributory Plan
Normal retirement benefit (cont'd)	Participants have a minimum benefit equal to the accrued benefit frozen as of 3/31/94 under the prior contributory formula (1.1% of Average Monthly Earnings up to $400 PLUS 1.65% of Average Monthly Earnings in excess of $400 multiplied by Credited Service) PLUS the future benefit percent of Average Monthly Earnings specified in the Employer's Adoption Agreement multiplied by years of Credited Service after April 1, 1994. O'Neill (Group 327) – the monthly pension is equal to 1.25% of Average Monthly Earnings multiplied by years of Credited Service.	Ag Processing, Inc. (Group 4) - the monthly pension is equal to 1.15% of Average Monthly Earnings up to $833.33 PLUS 1.65% of Average Monthly Earnings in excess of $833.33, this sum multiplied by years of Credited Service after January 1, 1984 PLUS the sum of 0.8% of Average Monthly Earnings up to $1,250 PLUS 1.2% of Average Monthly Earnings in excess of $1,250, this sum multiplied by years of Credited Service prior to January 1, 1984. Section 401(a)(17) Members have a minimum benefit equal to the Accrued Benefit frozen as of March 31, 1994 (determined limiting Earnings to $235,840) PLUS the benefit determined under the formula using Credited Service after April 1, 1994 and monthly earnings limited to the OBRA '93 Annual Compensation Limit. The frozen March 31, 1994 accrued benefit is adjusted to reflect increases in the Member's Average Monthly Earnings after March 31, 1994 as allowed by 42 C.F.R. Section 1.401(a)(4)-13.

Schedule SB, Part V – Summary of plan provisions

	Contributory Plan	Noncontributory Plan
Normal retirement benefit (cont'd)	For plan years after March 31, 1994, participants are guaranteed a minimum accrual for each plan year. The minimum accrual is equal to one-half of the accrual on the benefit formulas since April 1, 1994 PLUS the benefit deemed to be purchased by employee contributions made since April 1, 1994 under IRC Section 411(c)(2).	New Cooperative, Inc. (Group 23) – the monthly pension is equal to 1.4% of Average Monthly Earnings multiplied by years of Credited Service. Farmers Cooperative Company (Group 144) – the monthly pension can't be less than 1.465% of Average Monthly Earnings as of March 31, 1993 multiplied by years of Credited Service to April 1, 1993 PLUS 1.1% of Average Monthly Earnings multiplied by Credited Service earned after April 1, 1993. Everly (Group 177) – Accruals frozen as of January 1, 2009. F.C. Stone LLC (Group 201) – the monthly pension is equal to 1.25% of Average Monthly Earnings multiplied by years of Credited Service. Accruals frozen as of September 1, 2008. FGDI (Group 441) – the monthly pension is equal to 1.25% of Average Monthly Earnings multiplied by years of Credited Service.
Form of monthly retirement income	The standard form of receiving monthly retirement income will be for a participant's lifetime. However, if the participant is married and unless he specifically elects the standard form or another alternate form of benefit and his spouse consents, his benefits will be paid on a joint and 50% survivorship basis with 120 guaranteed payments.	Same

Schedule SB, Part V – Summary of plan provisions

	Contributory Plan	Noncontributory Plan
Optional forms	Lifetime with 60, 120 or 180 payments guaranteed. Joint and ½, 2/3, ¾ or full, with 120 payments guaranteed. 60, 120 or 180 guaranteed payments only. Lump sum, if actuarial value is less than $5,000.	Same
Early retirement benefit	A participant may retire at (i) age 55 with 10 years of service, (ii) age 62 with five years of service, or (iii) any time after the sum of his attained age and service is 85 or more provided that he has at least 20 years of Credited Service and his last five years of service count as Credited Service. The benefit is calculated in the same manner as the normal retirement benefit, based on Credited Service to early retirement. If the participant qualifies under (iii) above, there is no reduction in the benefit. Otherwise, the benefit is reduced 1/300 for each month by which the early retirement date precedes age 62.	Same for all employees other than Ag Processing, Inc. (Group 4). Ag Processing, Inc. – The benefit is reduced 1/300 for each month by which the early retirement date precedes age 62 for nonhighly compensated employees unless they qualify under (iii). For highly compensated employees, the benefit is reduced 1/150 for each month prior to age 62. Highly compensated employees are not eligible for early retirement under (iii).
Termination benefit (vested)	Employer chooses: 1. Participants who terminate employment after completing five years of service are 100% vested in their accrued benefit which is payable at age 65. 2. Participants are vested in accordance with the following schedule:	Same

Years of service	Vested %
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Schedule SB, Part V – Summary of plan provisions

	Contributory Plan	Noncontributory Plan
Termination benefit (vested) (continued)	Participants who are not vested are entitled to their Employee Contribution Benefit payable at age 65. At the time of termination, a participant may, by written request receive his Contribution Account. His accrued benefit is reduced by the portion of the benefit funded by his Contribution Account.	
Death benefit	The spouse or beneficiary of a participant who dies after becoming eligible for early or normal retirement is entitled to receive a death benefit equal to the greater of the Actuarial Value of i) the survivor income payable had the participant retired and elected the joint and 100% survivor option on the first day of the month preceding his death, and ii) the participant's accrued benefit payable for 60 months. If an active participant dies prior to meeting eligibility requirements for early or normal retirement, the spouse or beneficiary is entitled to receive a death benefit equal to the greater of the Actuarial Value of i) the survivor income payable had the participant terminated employment and immediately begun receiving benefits under 50% Joint & Survivor option, and ii) the member's accrued benefit payable for 60 months. If survived by a spouse, the death benefit is paid as a life annuity equivalent in value to the greater of the Actuarial Values. The spouse may elect to receive the benefit as a 60 month certain annuity. If not survived by a spouse, the death benefit is paid as a 60 month annuity. Such death benefit shall be paid first to the beneficiary designated by the participant. If no beneficiary is designated, it is paid first to the surviving spouse; if there is no surviving spouse, then in equal parts to the surviving children of the member; or if there are no surviving children, then in equal parts to the surviving parents of the member; or if there are no surviving parents, then in equal parts to the surviving siblings of the member. The death benefit is payable to the member's estate if the member is not survived by a spouse, child, parent, or sibling and has not designated a beneficiary.	Same

Significant events

To the best of our knowledge, no significant event occurred during the year.

Change in benefit or eligibility provisions

The IRS mandated limits for benefits and compensation in qualified plans increased for calendar year 2008. The maximum benefit limit is $185,000 and the maximum compensation limit is $230,000.

Schedule SB, Part V – Actuarial assumptions

Actuarial assumptions

This section presents the actuarial assumptions and methods used in the valuation, a summary of plan provisions, and participant data upon which the valuation was based.

The actuarial assumptions used in the valuation of the Restated Contributory and Noncontributory Plans are shown below. The assumptions used were the same as the assumptions used in the April 1, 2008 valuation, except as noted below.

Interest	Funding The plan sponsor elected to use the full yield curve with a 4-month lookback. (For 2008, the plan sponsor elected to use segmented rates with no phase-in with a 1-month lookback. These rates were 5.24%, 5.97%, and 6.49%.) FAS 35 8.00% per annum for all groups.
Expenses	Administrative related expenses (actuarial fees, PBGC premiums, and trustee fees) assumed to be 0.35% of assets. (For 2008, no expenses were assumed for noncontributory plans.)
Mortality	PPA Funding Target Separate Annuitant and Non-Annuitant mortality tables.
Turnover	Based on select rates of turnover for the first four years of service and ultimate rates thereafter. Sample rates are shown on the following page.

Schedule SB, Part V – Actuarial assumptions

Incidence of retirement

Employees eligible for the special Rule-of-85 benefit are assumed to retire according to the select rates shown below for the first year after becoming eligible. The ultimate rates apply to Rule-of-85 retirements after the first year since becoming eligible and other retirements. The first year rates will not start before age 55 even if the Rule-of-85 applies earlier, nor will they ever fall below the ultimate rate for that age.

	Rate of retirement	
Age	First year	Ultimate
55	6%	3%
56	6	3
57	6	3
58	6	5
59	6	5
60	6	5
61	20	20
62	30	30
63	25	25
64	25	25
65	50	50
66	25	25
67	25	25
68 & Over	100	100

For employees who become eligible to retire prior to age 55, turnover rates are used.

For frozen groups 177 and 201, same assumptions until eligible for unreduced retirement, but then 100% at unreduced retirement age.

Spouse's benefit

80% of all employees are assumed married with husbands two years older than their wives.

Contingency fund charge

0.3640% of covered payroll for all groups except group 4 (0.2274% in prior valuation); 0.0848% of covered payroll for group 4 (0.0523% in prior valuation).

Conversion basis -

For the Contributory Plan contribution accounts are converted to equivalent monthly benefits using segmented interest rates.

Form of payment -

⅓ are expected to elect a Life Only annuity, ⅓ 100% J&S annuity, and ⅓ Five-Year Certain Only annuity.

Schedule SB, Part V – Actuarial methods

Asset valuation method

The actuarial value of assets was determined in accordance with IRC Section 430(g)(3)(B) as amended by the Worker, Retiree and Employer Recovery Act of 2008 using guidance published in Notice 2009-22. For West Central Cooperative (group 138) the maximum value was limited to 107.75%. For FGDI, LLC (group 441), the asset valuation method was equal to the fair market value. Contributions made after April 1, 2009 were assumed to be made on the last day of the month they were contributed. (For 2008, the actuarial value of assets was equal to the market value for all employers.)

A characteristic of this asset method is that over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Associated Benefits Corporation provides us with data on only those employees who have completed the eligibility requirements so only participants are included in the valuation of the liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Transferred participants:** The liabilities for benefits earned prior to their transfer by employees who have transferred to another Associated Benefits Corporation employer have been included with the liabilities for terminated vested participants at their former employer.

Actuarial cost method

Minimum funding method

Target liability for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

The maximum deductible contribution is the greatest of (a) the minimum required contribution, (b) the funding target plus target normal cost plus cushion amount minus the actuarial value of assets, and (c) the plan's at-risk funding target plus at-risk target normal cost minus the actuarial value of assets (if the plan is not-at-risk). The cushion amount is 50 percent of the funding target.

Schedule SB, line 24 – Change in actuarial assumptions

The interest rate for funding calculations was changed from the segmented rates with no phase-in with a 1-month lookback to the full yield curve with a 4-month lookback.

These changes were made to better reflect anticipated plan experience and to comply with the requirements of the Pension Protection Act of 2006.

Schedule SB, line 25 – Change in method

The interest rate for funding calculations was changed from the segmented rates with no phase-in with a 1-month lookback to the full yield curve with a 4-month lookback.

The asset valuation method was changed from market value to a smoothed method in accordance with IRC Section 430(g)(3)(B) as amended by the Worker, Retiree and Employer Recovery Act of 2008 using guidance published in Notice 2009-22. Contributions made after April 1, 2009 were assumed to be made on the last day of the month they were contributed. Annual measurement dates were used for smoothing.
