NOTE 1 - PLAN DESCRIPTION

The following description of the FCI Constructors, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution Plan covering all full-time employees of FCI Constructors, Inc. (the Company) who are at least eighteen years of age. Employees are eligible to participate in the profit sharing portion of the Plan once they have attained at least one hour of service with the Company. Employees are eligible to make 401(k) pre-tax salary deferral contributions and receive Company safe harbor contributions once they have attained at least one year of service with the Company, as defined by the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Contributions

Participants are permitted to contribute pre-tax salary deferrals of their annual compensation up to allowable dollar limits set by federal law. Participants direct the investment of their contributions into various investment options offered by the Plan. Transfers from qualified plans are allowable under the provisions of the Plan.

Employer Contributions

The Company, at the discretion of Company management, may make profit sharing contributions, as defined by the Plan document. Additionally, the Company will make safe harbor contributions equal to 3% of each participant's compensation. For the years ended March 31, the Company made safe harbor and profit sharing contributions of $3,471,324 (2010) and $3,749,675 (2009).

Participant Accounts

Each participant's account is credited with an allocation of Company profit sharing contributions, plan earnings, and forfeitures of non-vested terminated participants' accounts in addition to participant contributions and Company safe harbor contributions. Allocations are based on participant earnings, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Elections

Each participant may direct that salary reductions and profit sharing contributions allocated to their account be invested in one or more of the mutual fund investments offered. Participants may change such allocations at any time directly with Wells Fargo Bank, N.A., trustee.

Vesting

Vesting in Company contributions plus earnings thereon is based on years of continued service. Participants are 100% vested after three years of credited service. Participants are always 100% vested in their voluntary salary deferrals plus actual earnings thereon, rollover contributions, and safe harbor match contributions.

Payment of Benefits
Upon separation of service, a participant will receive a lump-sum payment equal to the value of his or her account, provided the account does not have a value greater than $1,000. Distributions greater than $1,000 must be directly rolled over to an IRA on behalf of the terminated participants who do not select a payout option. A participant with a vested account balance greater than $5,000 may continue holding investments within the Plan, or elect to withdraw.

Forfeitures
Forfeitures of employer contributions resulting from terminations of non-vested participants may be used to offset employer contributions for the Plan year in which the distribution occurs or in the Plan year immediately following the year in which the forfeiture occurs. Net forfeitures used to reduce employer contributions for the years ended March 31 were approximately $115,000 (2010) and $212,000 (2009). Unallocated forfeitures are not considered assets available for Plan benefits as of year end. As of March 31, 2010 and 2009 there were no unallocated forfeitures.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Investments Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 5). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation in investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The stable value fund investment represents shares of an underlying collective investment trust operated by Wells Fargo Bank, N.A., who is also the Plan's trustee. The underlying assets of the fund consist primarily of guaranteed investment contracts (GICs) and security-backed contracts issued by insurance companies and other financial institutions. GICs are investment contracts backed by the general account of the contract issuer to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity.

Payment of Benefits
All benefits are recorded when paid.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 3 - INVESTMENTS

The following presents the fair value of investments representing five percent or more of the Plan's net assets at March 31:

NOTE 4 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wells Fargo Bank, N.A., the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of assets available for Plan benefits as of March 31, 2010 and 2009, Note 3, the supplemental schedule H, line 4i - schedule of assets (held at end of year) as of March 31, 2010, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended March 31, 2010 and 2009.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 - FAIR VALUE MEASUREMENTS

Effective April 1, 2008, the Plan adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (ASC 820). ASC 820 defines fair values, establishes a consistent framework for measuring fair value, and expands disclosure requirements for fair value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Under ASC 820, assets and liabilities are grouped in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 – Valuation is based upon quoted prices for identical instruments traded in active markets.

- Level 2 – Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

- Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobserved assumptions reflect the Plan's own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Under ASC 820, the Plan bases fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon the Plan's estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future values.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common Collective Trust: Valued at the reporting unit of each fund within the trust, based on the number of shares held by the Plan at year end. The common collective trust investment represents shares of a collective trust fund operated by Wells Fargo Bank, N.A., trustee. The underlying assets are in various investment instruments including traditional guaranteed investment contracts and security-backed contracts issued by insurance companies and other financial institutions. The fair value of a GIC is based on the present value of future cash flows using the current discount rate. The fair values of security-backed contracts are based on the cumulative value of their underlying investments and are similar to positions in investment funds as they allow for periodic deposits and withdrawals. The contract values of underlying investments are determined using the discounted cash flow method based on current yields of similar instruments with comparable durations approximates fair value. The inputs used to value the underlying investments are observable inputs and are considered Level 2.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair value measurements for assets recorded at fair value on a recurring basis at March 31, 2010 are as follows:

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - PLAN TAX STATUS

The Plan has adopted a prototype standardized profit sharing plan offered by the trustee. On August 30, 2001, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under the applicable sections of the Internal Revenue Code (the Code). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the terms of the prototype plan are being followed. The Plan has been amended since receiving the above letter, however, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable provisions of the Code.

NOTE 8 - RELATED PARTY TRANSACTIONS

The Company absorbs certain administrative expenses on behalf of the Plan, such as accounting fees and certain Plan expenses. During the years ended March 31, the Company paid administrative expenses on behalf of the plan of approximately $33,000 (2010) and $28,000 (2009).

Wells Fargo Bank, N.A., the trustee of the Plan, manages certain Plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental schedule H, line 4i, schedule of assets (held at end of year).

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - SUBSEQUENT EVENTS

The Plan's management has evaluated subsequent events through December 1, 2010, the date which the financial statements were available to be issued and determined that no events have occurred that require disclosure.
