APAC HOURLY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2010 AND DECEMBER 31, 2009

1. DESCRIPTION OF PLAN

On March 31, 2010, APAC Holding's Inc.'s (the Company) APAC Hourly Retirement Plan (the Plan) was merged into the Oldcastle Materials, Inc. Retirement Savings Plan (the Continuing Plan) pursuant to the terms of a Plan amendment. Thus the Plan assets became part of the assets of the Continuing Plan and the Continuing Plan assumed all liabilities of the Plan. The following notes relate to the Plan as it existed prior to the merger.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering eligible hourly employees of the Company who have completed at least one year of service, as defined in the plan document. Eligible employees may enter the Plan as active members on the first day of the month after which they meet the entry requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may contribute up to 60% of pretax annual compensation as defined in the plan document up to IRS annual limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing eligible rollover distributions from other qualified benefit plans as defined in the plan document. The Company contributes 55% of the first 4% of eligible compensation that a participant contributes to the Plan.

The Company also makes an annual contribution for each participant that has completed at least 501 hours of service during the plan year and is employed as of the last day of the plan year equal to \$1,000. These requirements are waived in the event of death, disability, or retirement during the plan year. This contribution is known as the Annual Retirement Contribution ("ARC") and is completely independent of any employee contributions or employer matching contributions. Participants direct investments of all contributions into various investment options offered by the Plan.

Participant Accounts:

Upon enrollment in the Plan, a participant may direct contributions into any combination of pooled investment accounts with various investment strategies. Each participant's account is credited with the participant's contribution, the Company contributions and allocations of Plan earnings. Allocations are based on the specific investment

APAC HOURLY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2010 AND DECEMBER 31, 2009

performance of each participant's investment account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their pretax, rollover, and matching Company contributions plus actual earnings thereon. Vesting of the "ARC" and earnings on those contributions is based on the years of service as outlined in the following table:

<u>Years of service</u>	<u>Percent of non-forfeitable interest</u>
Less than 3	0%
3 or more	100%

Participant Loans:

The Plan does not provide for participant loans. However, loans from prior years were being administered in accordance with the repayment provisions in place when such loans were allowed until all loans had been discharged in full.

Payment of Benefits:

Upon termination of employment from the Company, a participant or participant's beneficiary (in the event of a participant's death) may elect to receive the entire value of his or her account in a lump sum payment or monthly, quarterly, or annual installments over a limited period of time. If a participant's entire account value is \$1,000 or less, it will be distributed without consent. In the event of Plan termination, the Plan administrator will facilitate the distribution of account balances under the provisions of the Plan and Trust Agreement until all assets have been distributed by the Trustee.

Forfeitures:

Upon termination of employment from the Company, if a participant is less than 100% vested in their profit sharing contribution account, the participant will forfeit the non-vested portion. A forfeiture will occur in the Plan year that a participant receives a distribution of their entire vested account, or if they do not receive a distribution, after five consecutive one year breaks in service. Forfeitures are retained in the Plan and will first be used to pay administrative expenses. Any remaining amounts will be used to reduce future Company contributions payable under the Plan. Forfeitures used to pay administrative expenses and reduce current year Company contributions for the three months ended March 31, 2010 and year ended December 31, 2009 totaled approximately \$2,700 and \$32,800, respectively.

APAC HOURLY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2010 AND DECEMBER 31, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the Plan is presented to assist in the understanding of the Plan's financial statements. The financial statements and notes are representations of the Plan's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the accompanying financial statements.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition:

Fidelity Management Trust Company (FMTC) manages Plan assets. Additionally, FMTC is the Trustee of the Plan and, therefore, such transactions qualify as party-in-interest transactions.

Investments in money market funds are valued at historical cost, which approximates fair value. Shares of mutual funds are valued at fair market value based on quoted market prices. Participant loans are valued at their outstanding balances, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

All Plan assets were transferred to the Continuing Plan before the close of business on March 31, 2010.

Payment of Benefits:

Benefits are recorded when paid.

APAC HOURLY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2010 AND DECEMBER 31, 2009

Subsequent Events:

The Plan has evaluated events or transactions occurring subsequent to the Statement of Net Assets Available for Benefits date for recognition and disclosure in the accompanying financial statements through the date the financial statements are available to be issued, which is January 17, 2011.

3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of March 31, 2010 and December 31, 2009 and the related investment activity reflected in the statements of changes in net assets available for benefits for the three months ended March 31, 2010, and the year ended December 31, 2009.

4. FAIR VALUE MEASUREMENTS

Accounting Standards Codification 820-10-50 (ASC 820-10-50), formerly Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10-50 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">▪ Quoted prices for similar assets or liabilities in active markets;▪ Quoted prices for identical or similar assets or liabilities in inactive markets;▪ Inputs other than quoted prices that are observable for the asset or liability;▪ Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |
-

APAC HOURLY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2010 AND DECEMBER 31, 2009

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2010 and December 31, 2009.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2010 and December 31, 2009:

Assets at Fair Value as of March 31, 2010

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

APAC HOURLY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2010 AND DECEMBER 31, 2009

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended March 31, 2010 and December 31, 2009.

	<u>Level 3 Assets</u> <u>Participant Loans</u>

Purchases, sales, issuances and settlements (net)	<u>(10,817)</u>
March 31, 2010	\$ <u><u>0</u></u>

5. RELATED PARTY TRANSACTIONS

The Company absorbs a portion of the administrative expenses of the Plan. Additionally, the Plan is not charged for accounting and administrative services performed on its behalf by the Company.

6. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2009:

APAC HOURLY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2010 AND DECEMBER 31, 2009

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 7, 2004, that the Plan, as then designed, was in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter by implementing a Company contribution in the form of the "Annual Retirement Contribution" independent of any employee contributions or Company match, the Plan administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of March 31, 2010 and December 31, 2009. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. TRANSFERS

All Plan assets were transferred to the Continuing Plan before the Close of business on March 31, 2010.

In February 2008, the Company acquired all the capital stock of Renfro Construction Company, Inc. As a result of this acquisition, the former Renfro Construction Company, Inc. Profit Sharing Plan (the Renfro Plan) was closed and certain participants became participants in the APAC Hourly Retirement Plan. The accounts formerly maintained on behalf of these participants by the Renfro Plan were transferred to the APAC Hourly Retirement Plan in 2009.

APAC HOURLY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2010 AND DECEMBER 31, 2009

1. DESCRIPTION OF PLAN

On March 31, 2010, APAC Holding's Inc.'s (the Company) APAC Hourly Retirement Plan (the Plan) was merged into the Oldcastle Materials, Inc. Retirement Savings Plan (the Continuing Plan) pursuant to the terms of a Plan amendment. Thus the Plan assets became part of the assets of the Continuing Plan and the Continuing Plan assumed all liabilities of the Plan. The following notes relate to the Plan as it existed prior to the merger.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering eligible hourly employees of the Company who have completed at least one year of service, as defined in the plan document. Eligible employees may enter the Plan as active members on the first day of the month after which they meet the entry requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may contribute up to 60% of pretax annual compensation as defined in the plan document up to IRS annual limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing eligible rollover distributions from other qualified benefit plans as defined in the plan document. The Company contributes 55% of the first 4% of eligible compensation that a participant contributes to the Plan.

The Company also makes an annual contribution for each participant that has completed at least 501 hours of service during the plan year and is employed as of the last day of the plan year equal to \$1,000. These requirements are waived in the event of death, disability, or retirement during the plan year. This contribution is known as the Annual Retirement Contribution ("ARC") and is completely independent of any employee contributions or employer matching contributions. Participants direct investments of all contributions into various investment options offered by the Plan.

Participant Accounts:

Upon enrollment in the Plan, a participant may direct contributions into any combination of pooled investment accounts with various investment strategies. Each participant's account is credited with the participant's contribution, the Company contributions and allocations of Plan earnings. Allocations are based on the specific investment

performance of each participant's investment account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their pretax, rollover, and matching Company contributions plus actual earnings thereon. Vesting of the "ARC" and earnings on those contributions is based on the years of service as outlined in the following table:

<u>Years of service</u>	<u>Percent of non-forfeitable interest</u>
Less than 3	0%
3 or more	100%

Participant Loans:

The Plan does not provide for participant loans. However, loans from prior years were being administered in accordance with the repayment provisions in place when such loans were allowed until all loans had been discharged in full.

Payment of Benefits:

Upon termination of employment from the Company, a participant or participant's beneficiary (in the event of a participant's death) may elect to receive the entire value of his or her account in a lump sum payment or monthly, quarterly, or annual installments over a limited period of time. If a participant's entire account value is \$1,000 or less, it will be distributed without consent. In the event of Plan termination, the Plan administrator will facilitate the distribution of account balances under the provisions of the Plan and Trust Agreement until all assets have been distributed by the Trustee.

Forfeitures:

Upon termination of employment from the Company, if a participant is less than 100% vested in their profit sharing contribution account, the participant will forfeit the non-vested portion. A forfeiture will occur in the Plan year that a participant receives a distribution of their entire vested account, or if they do not receive a distribution, after five consecutive one year breaks in service. Forfeitures are retained in the Plan and will first be used to pay administrative expenses. Any remaining amounts will be used to reduce future Company contributions payable under the Plan. Forfeitures used to pay administrative expenses and reduce current year Company contributions for the three months ended March 31, 2010 and year ended December 31, 2009 totaled approximately \$2,700 and \$32,800, respectively.

3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of March 31, 2010 and December 31, 2009 and the related investment activity reflected in the statements of changes in net assets available for benefits for the three months ended March 31, 2010, and the year ended December 31, 2009.

4. FAIR VALUE MEASUREMENTS

Accounting Standards Codification 820-10-50 (ASC 820-10-50), formerly Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10-50 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: ▪ Quoted prices for similar assets or liabilities in active markets; ▪ Quoted prices for identical or similar assets or liabilities in inactive markets; ▪ Inputs other than quoted prices that are observable for the asset or liability; ▪ Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

APAC HOURLY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2010 AND DECEMBER 31, 2009

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2010 and December 31, 2009.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2010 and December 31, 2009:

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 7, 2004, that the Plan, as then designed, was in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter by implementing a Company contribution in the form of the "Annual Retirement Contribution" independent of any employee contributions or Company match, the Plan administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of March 31, 2010 and December 31, 2009. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. TRANSFERS

All Plan assets were transferred to the Continuing Plan before the Close of business on March 31, 2010.

In February 2008, the Company acquired all the capital stock of Renfro Construction Company, Inc. As a result of this acquisition, the former Renfro Construction Company, Inc. Profit Sharing Plan (the Renfro Plan) was closed and certain participants became participants in the APAC Hourly Retirement Plan. The accounts formerly maintained on behalf of these participants by the Renfro Plan were transferred to the APAC Hourly Retirement Plan in 2009.
