Pension Committee
Retirement Income Plan for Employees of Grange
Mutual Casualty Company

We were engaged to audit the financial statements (modified cash basis) of the Retirement Income Plan for Employees of Grange Mutual Casualty Company (the Plan) as of and for the years ended March 31, 2010 and 2009, and the supplemental schedules as of and for the year ended March 31, 2010 as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by JPMorgan Chase Bank, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended March 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

As described in Note 2, these financial statements and supplemental schedules were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information in the Plan's financial statements and supplemental schedules that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan

The following brief description of the Retirement Income Plan for Employees of Grange Mutual Casualty Company (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

- A. General - The Plan is a defined benefit plan and covers substantially all employees of Grange Mutual Casualty Company (the Company) that were hired on or before December 31, 2006. Employees of the Company hired on or after January 1, 2007 are not eligible to participate in the Plan. Employees hired on or after January 1, 2007 participate in an additional benefit under the Company's defined contribution plan, referred to as Retirement Accumulation Accounts (RA Accounts), which utilize a combination of the employee's age and years of credited service to determine the annual contribution made by the Company. Existing employees of the Company as of December 31, 2006 continue their participation in the Plan and are not eligible to participate in the RA Accounts.

Employees hired on or before December 31, 2006 become participants in the Plan on the first April 1 or October 1 after reaching the age of 21 and completion of one year of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

- B. Benefits - Under the terms of the Plan, participants are eligible to receive normal retirement benefits upon reaching age 65 and completing 5 years of credited service. A participant may elect an early retirement date at a reduced benefit upon reaching age 55 and completing 5 years of credited service. The normal form of benefits is a life annuity for single participants and a 50% joint and survivor pension for married participants. Optional forms of benefit payments are available at the election of the participant. Under the provisions of the Plan, benefits are determined by applying factors specified in the Plan to a participant's defined average monthly compensation. The terms of the amended and restated Plan provide that participants who were covered under a prior Plan shall receive a benefit at least equal to that determined under the former agreement. A participant is vested in the Plan after completion of 5 years of credited service. If a vested participant in the Plan dies, a death benefit equal to the value of the participant's accumulated pension benefits is paid to the participant's beneficiary. The method of distribution of the death benefit varies in accordance with Plan specifications.

Note 2. Summary of Significant Accounting Policies

- A. Basis of Presentation - The accompanying financial statements have been prepared on a modified cash basis of accounting and present the net assets available for benefits and the changes in net assets available for benefits. These practices differ from U.S. generally accepted accounting principles as additions to net assets are recognized when received rather than when earned and benefits are recognized when the related check is cashed by the participant.

**RETIREMENT INCOME PLAN FOR EMPLOYEES OF
GRANGE MUTUAL CASUALTY COMPANY**

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

B. Use of Estimates - In preparing the financial statements on a modified cash basis of accounting, the plan administrator is required to make certain estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, the disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates and assumptions.

C. Investment Valuation and Income Recognition - Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurement and Disclosures*, addresses issues relating to the definition of fair value, the methods used to measure fair value and expanded disclosures about fair value measurements. The definition of fair value in FASB ASC 820 focuses on the price that would be received to sell an asset or paid to transfer a liability, not the price that would be paid to acquire an asset or received to assume a liability. The methods used to measure fair value should be based on the assumptions that market participants would use in pricing an asset or a liability. Fair value disclosures required by FASB ASC 820 are disclosed in Note 5.

Under the terms of the trust agreement between JPMorgan Chase Bank, N.A. (the Trustee) and the Plan, the Trustee holds all fund assets on behalf of the Plan, including cash and cash equivalents. The Plan's assets are invested in registered investment companies, common stocks, bonds, a collective marketable bond fund, and a limited partnership and all are reported at fair value.

Interest and dividend income earned by the Plan's assets is recognized when credited by the Trustee. Unrealized appreciation or depreciation of investments and realized gains and losses are recognized as components of net appreciation in fair value of investments.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses are determined using the specific identification method.

D. Cash and Cash Equivalents - Cash and cash equivalents consist of money market funds managed by JPMorgan Chase Bank, N.A. These money market funds are carried at cost (which approximates fair value) and are considered to be a party-in-interest asset.

E. Contributions - Contributions from the Company are recognized when received.

F. Benefits - Benefits are recognized when cashed by participants.

G. Administrative Expenses - Administrative expenses are borne by the Company.

H. Reclassifications – Certain reclassifications of 2009 information have been made to conform to the 2010 presentation.

**RETIREMENT INCOME PLAN FOR EMPLOYEES OF
GRANGE MUTUAL CASUALTY COMPANY**

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

- I. Risks and Uncertainties - The Plan invests in various types of investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of such securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits - modified cash basis.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term could be material to the financial statements.

- J. Subsequent Events - The Plan was evaluated for subsequent events through September 30, 2010, which is the date financial statements were available to be issued. There were no subsequent events that require adjustment to or disclosure in the financial statements.

Note 3. Obligation for Pension Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent that they are deemed attributable to employee service rendered to the valuation date. Contributions to the Plan are made by the Company in such amounts as have been actuarially determined to fund current costs. Funding for the Plan was calculated using the projected unit credit cost method. Minimum funding requirements as set forth in ERISA have been met.

The actuarial present value of accumulated plan benefits as of and for the plan years beginning April 1, 2009 and 2008 is determined by Watson Wyatt and Company and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability for payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant assumptions underlying the actuarial present value of accumulated plan benefits at April 1, 2009 and 2008 included: (a) assumed rate of return of 8.0% on plan investments; (b) assumed mortality rates based upon the RP-2000 Combined Healthy Mortality Tables for males and females; and (c) assumed retirement using stratified rates from age 55 to 70. The foregoing actuarial assumptions are based on the presumption that the Plan will continue.

**RETIREMENT INCOME PLAN FOR EMPLOYEES OF
GRANGE MUTUAL CASUALTY COMPANY**

NOTES TO FINANCIAL STATEMENTS

Note 3. Obligation for Pension Benefits (Continued)

If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of April 1, 2009 and 2008 is as follows:

	<u>2009</u>	<u>2008</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 10,001,151	\$ 8,219,654
Other participants	44,210,012	41,445,382
	<u>54,211,163</u>	<u>49,665,036</u>
Nonvested benefits	3,148,273	3,303,733
	<u>3,148,273</u>	<u>3,303,733</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 57,359,436</u>	<u>\$ 52,968,769</u>

The net increase in the actuarial present value of accumulated plan benefits for the years ended April 1, 2009 and 2008 resulted from:

	<u>2009</u>	<u>2008</u>
Actuarial present value of accumulated plan benefits at the beginning of the plan year	\$ <u>52,968,769</u>	\$ <u>48,711,670</u>
Increase (decrease) during the year attributed to:		
Benefits accumulated	3,802,583	3,606,985
Actuarial losses	1,677,129	1,380,646
Increase for interest due to decreases in discount period	4,325,141	4,007,646
Change in actuarial assumptions	-	(292,016)
Benefits paid	<u>(5,414,186)</u>	<u>(4,446,162)</u>
Net increase	<u>4,390,667</u>	<u>4,257,099</u>
Actuarial present value of accumulated plan benefits at the end of the plan year	<u>\$ 57,359,436</u>	<u>\$ 52,968,769</u>

Changes in actuarial assumptions in 2008 were due to changing the compensation increase assumption to an age-based table and the turnover assumption to a service based table.

Note 4. Investments

The following investments represented 5% or more of net assets available for benefits as of March 31, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Vanguard Institutional Equity Index Fund	\$ 32,466,577	\$ 19,905,493
State Street Global Advantage Bond Fund	11,798,918	11,887,598
GMO International Opportunity Equity III Fund	9,027,665	4,578,509
JPMorgan Prime Money Market Fund Agency Shares	-	5,022,522

During the plan years ended March 31, 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	<u>2010</u>	<u>2009</u>
Registered investment companies	\$ 12,486,554	\$ (16,802,026)
Common stocks	3,511,312	(3,532,418)
Bonds	294,890	(354,620)
Collective marketable bond fund	913,879	359,762
Limited partnership	608,508	(891,349)
	<u>\$ 17,815,143</u>	<u>\$ (21,220,651)</u>

Note 5. Fair Value

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

**RETIREMENT INCOME PLAN FOR EMPLOYEES OF
GRANGE MUTUAL CASUALTY COMPANY**

NOTES TO FINANCIAL STATEMENTS

Note 5. Fair Value (Continued)

- Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. In 2010, the Plan adopted disclosure guidance which requires greater disaggregation of the categories of debt and equity securities as of March 31, 2010. There have been no changes in the methodology used at March 31, 2010 and 2009:

- Registered investment companies: Valued at the net asset value (NAV) of shares held by the plan at the end of the year.
- Common stocks: Valued at observable market quotations for identical assets and are priced on a daily basis.
- Bonds: Valued at closing price reported in the active market in which the individual security is traded.
- Collective marketable bond fund: Valued based on the fair value of the underlying investments within each account, which represents the net asset value of the units held by the Plan at year end. The account manager's objective is to approximate the performance of the Barclays Capital U.S. Aggregate Bond Index over the long-term. There are no unfunded commitments related to the collective marketable bond fund and units are redeemable at net asset value.
- Limited partnership: Based on values provided to the trustee by the investment manager. The limited partnership fair value has been determined using the NAV per share of the investment. Inputs are unobservable and result in disclosure at Level 3. The investment manager's objective is to provide capital appreciation by investing primarily in equity securities. There are no unfunded commitments related to the limited partnership and units are redeemable at net asset value.
- Cash and cash equivalents: Value of money market mutual fund where cost approximates fair value.

GRANGE MUTUAL CASUALTY COMPANY**

NOTES TO FINANCIAL STATEMENTS

Note 5. Fair Value (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2010 and 2009:

Note 6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated April 1, 2002 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and, therefore, is exempt from federal income taxes. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

**RETIREMENT INCOME PLAN FOR EMPLOYEES OF
GRANGE MUTUAL CASUALTY COMPANY**

NOTES TO FINANCIAL STATEMENTS

Note 7. Plan Termination

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it has the right to take such actions, subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits (as described in the Plan) and the level of benefits guaranteed by and the financial condition of the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets of the Plan and the PBGC guaranty, while other benefits may not be provided for at all.

If the termination is the result of the bankruptcy or near bankruptcy of the Company and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the PBGC will take over the Plan and will pay those benefits that it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount which, together with Plan assets, will satisfy all benefits accumulated to the date of the Plan termination.

Note 8. Information Certified by Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the plan administrator has received certifications from the Trustee that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits – Modified Cash Basis and Note 4 as of March 31, 2010 and 2009, except for \$1,773,045 and \$3,575,668 of cash and cash equivalents as of March 31, 2010 and 2009, respectively.
- Investment activity, as shown in the Statements of Changes in Net Assets Available for Benefits – Modified Cash Basis and Note 4 for the years ended March 31, 2010 and 2009 except for \$7,956 and \$33,648 in interest income, \$8,555,414 and \$8,000,000 in employer contributions and \$5,465,993 and \$5,413,793 in benefit payments, respectively.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year) – Modified Cash Basis as of March 31, 2010, except for \$1,773,045 of cash and cash equivalents.
- Schedule H, Line 4j – Schedule of Reportable Transactions – Modified Cash Basis for the year ended March 31, 2010, except for \$9,555,874 of purchases and \$11,358,497 of sales.

**RETIREMENT INCOME PLAN FOR EMPLOYEES OF
GRANGE MUTUAL CASUALTY COMPANY**

NOTES TO FINANCIAL STATEMENTS

As permitted by the election noted above, the Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedules.

Note 9. Related Party Transactions

The Plan holds cash and cash equivalents with JPMorgan Chase Bank, N.A., the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of contributions per the financial statements to the Form 5500:

	Years ended March 31,	
	2010	2009
	<hr/>	<hr/>
Contributions per the financial statements	\$ 8,555,414	\$ 10,832,847
Plus: Contributions for the plan years ended March 31, 2010 and 2009 that were paid in August 2010 and May 2009, respectively	4,596,458	5,555,414
Less: Contributions for the plan years ended March 31, 2009 and 2008 that were paid in May 2009 and August 2008, respectively	(5,555,414)	(2,832,847)
Balance, end of year	<hr/> <u>\$ 7,596,458</u>	<hr/> <u>\$ 13,555,414</u>

Reconciliations between the financial statements and Schedule B of the Form 5500 are needed because the financial statements are prepared on the modified cash basis of accounting, whereas Schedule B of the Form 5500 reports the contributions on the accrual basis of accounting.

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of April 1, 2009

See Schedule SB, Part V for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

For the April 1, 2009 actuarial valuation, the average retirement age is 64 as shown below.

Disabled mortality

The healthy mortality tables for males and females as prescribed by the Treasury are used for determination of the funding target and target normal cost.

Compensation increases

Future compensation is based on the following representative age-based table:

Age	Annual Increase
Under 25	8.0%
25-29	7.6%
30-34	6.6%
35-39	5.6%
40-44	4.8%

55-59	3.8%
Above 59	3.5%

Future increases in Social Security

For purposes of determining target normal cost and the additional funding target for maximum deductible contribution purposes, the national average wage index is assumed to increase by 3.50% per annum.

Future increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Form of payment

75% of participants reaching retirement are assumed to elect a lump sum payment; with the assumed interest rate in effect at distribution equal to valuation rate (funding target and target normal cost) and the "applicable mortality" under IRC Section 417(e)(3). All remaining participants are assumed to elect the normal form.

Lump sums were valued using the substitution of annuity form under Proposed IRC §1.430(d)-1(f)(4) without application of generational mortality and without recognition of the phase-in of IRC §417(e)(3) assumptions. The rates used for actual lump sum disbursements during the current plan year are:

1st segment rate 3.96%
 2nd segment rate 4.60%
 3rd segment rate 4.40%.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of male and 50% of female participants are assumed to be married and male spouses are assumed to be three years older than female spouses.

Employees

It was assumed that there will be no new or rehired employees.

Plan compensation

Compensation assumed paid in the current year beginning on the valuation date is the current annual rate of pay.

Asset method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.52%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.52%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.19%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.19%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant data

Employee data was supplied by Grange as of the census date via a secure transfer system. Data on persons receiving benefits was supplied by Grange via a secure transfer system.

Tax policy

The actuarial valuation performed for the plan year ending March 31, 2010 is used to determine the maximum deductible contribution for the tax year ending December 31, 2009.

Benefits not included in valuation

We believe that we have reflected all significant Plan provisions in this valuation.

Nature of actuarial calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favourable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Changes in assumptions since last actuarial valuation

Other than the prescribed changes in the interest rate and mortality, there were no other changes in assumptions since the prior valuation.

Summary of Principal Plan Provisions

Plan Sponsor

Grange Mutual Casualty Company

Plan

Retirement Income Plan for Employees of Grange Mutual Casualty Company

EIN/PN

31-4192970/001

Effective Date and Most Recent Amendment

The effective date is April 1, 1958 and has been as amended and restated effective April 1, 2006. The Plan was amended to apply the pay and benefit limit provisions from EGTRRA retroactively. Effective January 1, 2007 the Plan was closed to new participants hired on or after January 1, 2007.

Plan Year

The twelve-month period ending March 31, 2010.

Coverage and Participation

Each employee who has reached age 21 with one year of service shall become a participant on the following April 1 or October 1. Effective January 1, 2007 the Plan was closed to new participants hired on or after January 1, 2007. Employees hired before January 1, 2007 may participate upon meeting the Plan's eligibility requirements. In addition, a participant who is re-employed on or after January 1, 2007 shall not resume active participation in the Plan.

Benefit Service

For a full time employee, Benefit Service is credited based on elapsed time of continuous employment to years and completed months.

Plan Name:	Retirement Income Plan for Employees of Grange Mutual Casualty Company
EIN / PN:	31-4192970 / 001
Plan Sponsor:	Grange Mutual Casualty Company
Valuation Date:	April 1, 2009

For a part-time or temporary employee, one year of Benefit Service is credit for each Benefit Computation Period in which the employee completed 1,000 hours of service.

Vesting Service

One year of Vesting Service is credited for each Vesting Computation Period in which the employee completes 1,000 hours of service.

Final Average Compensation/Salary

"Final average pay" equals the average of regular monthly salary during the 60 consecutive months within the participant's last 120 months of employment which produce the highest average. The maximum compensation considered for any year is subject to qualified plan limits.

Normal Retirement Benefit

Eligibility:

Eligible at age 65 with five years of Plan participation. (Normal Retirement Date is the first of the month following this date.)

Benefit:

The pension benefit available at normal retirement is based on the following formula:

	1.375% of final average pay plus 0.625% of final average pay over Social Security Covered Compensation	times	Benefit Service up to 20 years
plus	0.5% of final average pay plus 0.5% of final average pay over Social Security Covered Compensation	times	Benefit Service from 20 to 35 years
plus	0.5% of final average pay	times	Benefit Service from 35 to 40 years

The benefit produced by the above formula will be held to a minimum of the benefit accrued as of March 31, 1989 determined in accordance with the provisions of the prior plan.

The benefit for a participant who retires or terminates on or after April 1, 1994 will not be less than his accrued benefit determined as of March 31, 1994 (subject to the pre-1994 compensation limitation of \$235,840) plus accruals on or after April 1, 1994 based on compensation subject to current qualified plan limits.

Plan Name: Retirement Income Plan for Employees of Grange Mutual Casualty Company
 EIN / PN: 31-4192970 / 001
 Plan Sponsor: Grange Mutual Casualty Company
 Valuation Date: April 1, 2009

Employees formerly covered under the Ohio State Grange Plan receive the greater of: (1) benefits calculated under the Grange Mutual Plan with service beginning at January 1, 1993; or (2) benefits calculated under the Grange Mutual formula using both Ohio State Grange and Grange Mutual service (with a guarantee of the accrued Ohio State Grange benefits as of December 31, 1992), less the benefits paid under the terminated Ohio State Grange Plan.

Deferred Retirement

Eligibility:

Eligible if employment continues after the Normal Retirement Date.

Benefit:

The deferred retirement benefit is the greater of the accrued benefit as of the Normal Retirement Date, actuarially increased for each full calendar month of employment after such date, payable at actual retirement, or the accrued benefit at actual retirement.

Accrued Benefits

The benefit determined under "Normal Retirement" based on Benefit Service and Average Compensation at the given date as though employment terminated on such date and payable as a single life annuity commencing at normal retirement age.

Early Retirement Benefit

Eligibility:

Eligible at age 55 with five years of vesting service.

Benefit:

The early retirement benefit is the accrued normal retirement benefit, based on benefit service at early retirement, reduced by 1/180 per month for the first 60 months and 1/360 per month for the next 60 months that commencement precedes Normal Retirement Date.

Disability Benefit

Eligibility:

Eligible after ten years of vesting service.

Plan Name:	Retirement Income Plan for Employees of Grange Mutual Casualty Company
EIN / PN:	31-4192970 / 001
Plan Sponsor:	Grange Mutual Casualty Company
Valuation Date:	April 1, 2009

Benefit Before Normal Retirement:

The participant continues to accrue Benefit Service while receiving payments from the company's long term disability insurance plan.

Benefit After Normal Retirement:

The disability retirement benefit is computed in the same fashion as the vested termination benefit.

Death of Disabled Participant Prior to Normal Retirement:

Treated the same as a death benefit for participants in active service.

Vested Benefits Upon Termination of Service**Eligibility:**

Eligible after five years of vesting service.

Benefit:

The vested termination benefit is the accrued normal retirement benefit based on benefit service at termination and payable at Normal Retirement Date; or if elected, payable as early as age 55 reduced by 1/180 per month for the first 60 months and 1/360 per month for the next 60 months that commencement precedes Normal Retirement Date.

Death Benefits for Participants in Active Service

Eligibility: Eligible at any age with five years of vesting service.

Benefit: The pre-retirement death benefit is paid to the spouse, who receives a monthly lifetime pension equal to 50% of the reduced amount the participant would have received if he had retired as of the date of his death with the 50% joint and survivor form of annuity in effect, except that if the participant dies prior to age 55, the benefit will be payable commencing on the first day of the month following the date upon which the participant would have attained age 55.

Plan Name:	Retirement Income Plan for Employees of Grange Mutual Casualty Company
EIN / PN:	31-4192970 / 001
Plan Sponsor:	Grange Mutual Casualty Company
Valuation Date:	April 1, 2009

Optional Forms of Retirement Income in Lieu of Normal Form

The normal form is a straight-life annuity; however, a married participant will receive his benefit in the form of a 50% joint and survivor annuity (actuarially reduced from the straight-life amount) unless he elects otherwise.

In lieu of the normal form, a participant may elect to receive a reduced amount of benefit payable during the lifetime of the participant, and following his death a percentage (not to exceed 100%) will be payable to his surviving joint annuitant for life.

In addition, a lump sum payment option is available to a participant retiring under the normal retirement, deferred retirement, or early retirement provisions.

1994 Voluntary Early Retirement Program

Employees who retired under the 1994 window program received a monthly supplement of \$400 payable until age 65 and early retirement benefits payable in full at the current age, plus a special pension service bonus.

Changes in Plan Provisions since Last Actuarial Valuation

None.
