REPORT OF INDEPENDENT AUDITORS

To the Participants and Trustees of
Northern California Pension Plan

We have audited the accompanying statements of net assets available for benefits of Northern California Pension Plan (the Plan) as of April 30, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Plan's management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Northern California Pension Plan as of April 30, 2010 and 2009, and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting - The accompanying financial statements are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation, Transactions and Income Recognition -

General - Investments are carried at fair value, which is determined, presented and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC 820), *Fair Value Measurements and Disclosures,* effective May 1, 2008. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumptions about inputs that market participants would use in pricing the investments developed, based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels, based on the inputs, as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active, quoted prices for similar investments in active markets or model-based valuations for which all significant assumptions are observable and can be corroborated by observable market data.

Level 3 - Valuations based on unobservable inputs that are supported by little or no market activity and are significant to the overall fair value measurement. Values are determined using proprietary pricing models, discounted cash flow models that include the investment entities' own judgments and estimations, or some other pricing method using unobservable inputs.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

In determining fair value, FASB ASC 820 allows various valuation approaches. The specific methods for each of the Plan's investment classes are presented below.

Inputs and Valuation Methods -

Pooled separated account (Transamerica Bond Fund): The fair value is determined based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities. (Level 2)

Investments held in insurance company general account (Stable Value Fund): These are interest-based funds that are valued daily based on stated interest rates and the underlying investments in the portfolio, which approximates fair value. (Level 2)

Investments held in insurance company general account (Transamerica GIC): The investments in Transamerica guaranteed investment contracts (Transamerica GIC) are carried at fair value, which is calculated by the insurance company by discounting the related cash flows based on current yields of similar investments with comparable durations. (Level 3)

Valuation Methods, Consistency - The valuation techniques used in the accompanying financial statements have been consistently applied.

Transactions and Income Recognition - Interest income is recorded on the accrual basis.

Contributions Receivable - Employer contributions due and not paid prior to the year-end are recorded as contributions receivable. Allowance for uncollectible accounts is considered unnecessary and is not provided. Contributions due as a result of payroll audits are recorded when received.

Benefits Paid to Participants - Benefits paid to participants are recorded upon distribution.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Investment Contracts - Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Risks and Uncertainties - The Plan invests in mutual funds and an investment contract. Such investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty with respect to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 2. DESCRIPTION OF THE PLAN

The Plan was established during 1983 as a result of collective bargaining agreements between local unions in the San Francisco Bay Area affiliated with the International Brotherhood of Teamsters, Chauffeurs, Warehousemen & Helpers of America and various employer associations to provide retirement, death and disability benefits for eligible participants. The Plan is financed entirely by employer contributions, as specified in the collective bargaining agreements. The Plan is a multiemployer defined contribution pension plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Under current provisions of the Plan, any employee who has been employed in a covered job is eligible for participation in the Plan. A job is a covered job if a participating employer is required to contribute to the Plan for employees working in that job under a collective bargaining or other contribution agreement.

A separate account is maintained for each employee. Each account is credited with employer contributions made on their behalf and an allocation of net Plan earnings. Effective for hours worked on April 1, 1988, and thereafter, the right, title and interest of any employee in and to their employer-contributed account shall be vested after one hour of contributed service. The participants do not direct their investments.

Participants should refer to the summary plan description for more information.

NOTE 3. PRIORITIES UPON TERMINATION

Although it has not expressed any intent to do so, the Trustees have the right to terminate the Plan subject to the provisions of ERISA. Benefits would be distributed to the participants and their beneficiaries as if the Plan had not been terminated.

NOTE 4. TAX STATUS

The Plan obtained its latest determination letter dated February 14, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements under Section 401(a) of the Internal Revenue Code and was, therefore, exempt from federal income taxes under the provisions of Section 501(a). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 5. FUNDING POLICY

The participating employers contribute such amounts as are specified in the collective bargaining agreements. The Plan meets the minimum funding requirements under ERISA.

NOTE 6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with Transamerica Life Insurance Company (Transamerica), whereby deposits are put into either a guaranteed investment contract (fixed-dollar investment) account or the Transamerica Stable Value Fund or the Transamerica Bond Fund, a pooled separate account. The accounts reflect contributions made under the contract, plus earnings, less withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is pooled with Transamerica's general assets for investment purposes. During each calendar month of a contract year that the Plan makes a deposit under the guaranteed investment contract, a separate account is established under the contract. Each separate account established under this contract earns interest at the annual rate of interest in effect at the time the account is established. A guaranteed annual interest rate is established for each calendar month in a contract year. The rates guaranteed under each account ranged from 1.80% to 4.80% as of April 30, 2010, and 3.40% to 4.80% as of April 30, 2009. Under the contract, the Plan may choose maturity periods of two or four years for each separate account. Maturity dates of new, reinvested or rolled-over funds may be periodically changed upon election by the Plan.

NOTE 6. INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONT'D)

The pooled separate account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses by Transamerica.

Since the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2010	2009
Based on actual earnings:		
Guaranteed investment contract	2.33 %	4.65 %
Stable Value Fund	2.94	3.47
Based on interest rate credited to participants:		
Guaranteed investment contract	2.33	4.65
Stable Value Fund	2.94	3.47

As of April 30, 2010 and 2009, Transamerica held $3,227,854 and $3,195,927, respectively, of the Plan's funds under the terms of the above contracts. During the contract years ended April 30, 2010 and 2009, the Plan earned $152,315 and $100,840, respectively, on these investments.

NOTE 6. INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONT'D)

The following summary presents the fair value of each of the investment categories:

	April 30, 2010	April 30, 2009

REPORT OF INDEPENDENT AUDITORS ON ADDITIONAL INFORMATION

To the Participants and Trustees of
Northern California Pension Plan

Our audit of the financial statements of Northern California Pension Plan (the Plan) for the year ended April 30, 2010, was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information included in Schedule H - Financial Schedules (IRS For 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The Schedule H - Financial Schedules (IRS Form 5500) is additional information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This information is the responsibility of the Plan's management. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.
