Notes to Financial Statements - Modified Cash Basis

November 3, 2010 and December 31, 2009

Note 1 - Description of plan:

The following description of The Healthfield, Inc. (the Company) HUGS\$ Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company who have completed three months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was merged into the Gentiva Health Services Retirement Savings Plan effective October 15, 2010. All assets were transferred by November 3, 2010.

Contributions

Each year, participants were able to contribute up to 15% of pretax annual compensation, as defined in the Plan. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributed to the Plan an amount determined at its discretion. The Company chose to make a basic matching contribution to the Plan by matching participant salary reduction contributions to the Plan by participant in an amount up to 6% of each participant's compensation (as defined in the Plan) for each year.

Investment options

Participants were permitted to direct the investment of their accounts (both employee and Company contributions) under the Plan among several investment funds, each with varying opportunities and risks. Participants initially designated their investment options on the participant election form provided by the plan administrator. To the extent that participants failed to provide investment options, their accounts under the Plan were invested in the Principal Money Market Account.

Participants were able to change their investment options at any time.

Note 1 - Description of plan - continued:

Participant accounts

Each active participant's account was credited with the participant's contribution, an allocation of the Company's contribution, and plan earnings, and was charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. Forfeited balances of terminated participant's nonvested accounts were reallocated among active participants based on participant earnings. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon was based on years of continuous service. A participant was 100% vested in the Company's discretionary contribution portion of their account plus actual earnings thereon upon the completion of five years of credited service, or in the event of normal retirement, death, or disability.

Withdrawals and distributions

Amounts contributed through salary reduction were able to be withdrawn by, or distributed to, a participant only upon (i) termination of employment, or (ii) attaining the age of 59 1/2. Withdrawals prior to attaining age 59 1/2 were not permitted except in the event of death, disability, or as a hardship distribution. Hardship distributions were only made upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need.

Participant loans

Participants were able to borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by any outstanding loan balance on the date the new loan was made, or 50% of the account balance, as defined. The loans were secured by the balance in the participant's account and bore a reasonable fixed rate of interest determined by the plan administrator. Principal and interest was repaid ratably not less than quarterly with a maximum term of five years. There were no new loans permitted as of January 1, 2007.

November 3, 2010 and December 31, 2009

Note 2 - Summary of significant accounting policies:

Basis of presentation

The Plan adopted Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 168, The FASB Accounting Codification (Codification) and Hierarchy of Generally Accepted Accounting Principles (GAAP) (SFAS No. 168). SFAS No. 168 requires that the Codification become the source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. The adoption of SFAS No. 168 did not have a material impact on the Plan's financial statements or disclosures.

Basis of accounting

The financial statements of the Plan have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. GAAP. Accordingly, investment income is recognized when received, disbursements are recognized when made, and employer contributions are accrued at year-end.

Investment valuation

Net appreciation (depreciation) in fair value of investments includes unrealized and realized gains and losses. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results may differ from those estimates.

Risks and uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

November 3, 2010 and December 31, 2009

Note 2 - Summary of significant accounting policies - continued:

Payments of benefits

Benefits were recorded when paid.

Administrative expenses

Expenses incurred in the administration of the Plan may have been, but need not be, paid by the Company. If the Company elected not to pay such expenses, those expenses would have been paid by the Plan.

Subsequent events

The Plan has evaluated subsequent events through December 30, 2010, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of November 3, 2010, have been incorporated into these financial statements.

Note 3 - Plan merger:

On December 29, 2006, the Company decided to freeze the Plan effective December 31, 2006. They intended to merge the Plan with and into the Gentiva Health Services Retirement Savings Plan, upon a favorable determination from the Internal Revenue Service (IRS) regarding untimely contributions (see Note 8) and corrective distributions (see Note 9). In December 2009, the Company received a favorable determination from the IRS.

Note 4 - Income tax status:

The IRS has determined and informed the Company by a letter dated May 28, 2008 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and thus, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt.

Note 5 - Fair value measurements:

The Plan's investments are valued at fair value based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at November 3, 2010 and December 31, 2009.

- Units of the guaranteed interest accounts are stated at fair value which represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

The Healthfield, Inc. HUGS\$ Retirement Plan

Notes to Financial Statements - Modified Cash Basis - Continued

November 3, 2010 and December 31, 2009

Note 5 - Fair value measurements - continued:

- Pooled separate accounts:
 - General - Units of the pooled separate accounts are stated at fair value as reported by the Trustee based on quoted market prices of the underlying investments.
 - Real estate - An independent consultant (the Valuation Consultant) selected by Principal Real Estate oversees and administers the appraisal process for the U.S. Property Separate Account (USPSA). Real estate investments are stated at fair value as determined by the Valuation Consultant and approved by USPSA management. Appraisals are performed for each investment annually by independent third party MAI certified appraisers with all appraisals being performed in accordance with the Uniform Standard of Professional Appraisal Practice. Thereafter, values are updated daily by the Valuation Consultant based on changes in factors such as occupancy levels, lease rates, overall market conditions, and capital improvements. Determination of estimated fair value involves subjective judgment because the actual fair value of real estate can be determined only by negotiation between the parties in a sales transaction.

Since appraisals take into consideration the estimated effect of physical depreciation, historical cost depreciation and amortization on real estate related assets has been excluded from net investment income.

The value of real estate properties undergoing development have been prepared giving considerations to costs incurred to date and to key development risk factors including entitlement risk, pricing risk, event risk and valuation risk. The fair value of properties undergoing development includes the timely recognition of estimated entrepreneurial profit after such consideration.
- Participant loans are valued at amortized cost, which approximates fair value.

The Healthfield, Inc. HUGS\$ Retirement Plan

Notes to Financial Statements - Modified Cash Basis - Continued

November 3, 2010 and December 31, 2009

Note 5 - Fair value measurements - continued:

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As described in Note 1, the Plan merged into the Gentiva Health Services Retirement Savings Plan effective October 15, 2010, therefore, the fair value of assets at November 3, 2010, was \$0.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value by major categorization for debt and equity securities on the basis of nature and risk of the investments as of December 31, 2009.

Note 6 - Party-in-interest transactions:

Certain Plan investments were guaranteed interest accounts and shares of pooled separate accounts managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan and qualifies as a party-in-interest. Fees paid by the Plan for investment management services amounted to \$55,662 and \$67,189 for the period ended November 3, 2010 and year ended December 31, 2009, respectively.

Note 7 - Investments and information certified by the custodian:

Principal Life Insurance Company (Principal) is the custodian for the Plan. Principal holds the Plan's investment assets and executes transactions. The plan administrator has obtained certification from Principal that investment information as of November 3, 2010 and December 31, 2009, and for the period ended November 3, 2010 is complete and accurate.

*Indicates investment is less than 5% of net assets as of November 3, 2010.

During 2010, the Plan's investments in guaranteed interest accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$14,295.

During 2010, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,079,127.

Note 8 - Untimely contributions:

Various 401(k) contributions from July 30, 2004 through December 22, 2006, totaling \$2,791,427 were withheld from the participants' pay but not sent to the Plan's custodian on a timely basis by the Company.

In order to correct these prohibited transactions, the Company calculated lost earnings based on a weighted average calculation of investment performance provided by the Plan's custodian. The amounts were corrected in April 2010.

Note 9 - Corrective distributions:

The Plan failed to pass the Average Deferral Percentage (ADP) test and the Actual Contribution Percentage (ACP) test for the 2006 and 2005 plan years.

Notes to Financial Statements - Modified Cash Basis - Continued

Note 9 - Corrective distributions - continued:

In order to correct the failure of the ADP and ACP tests for the 2006 and 2005 plan years, as permitted under applicable IRS guidance, the employer opted to correct the testing failures by using the One-To-One correction method which generally requires an excess contribution amount to be refunded to highly compensated employees and a qualified non-elective contribution to be paid by the Company to the Plan in the same amount and allocated to certain non-highly compensated employees. For the 2006 plan year, the excess and non-elective contributions were each \$35,792 and were refunded and paid in April 2010. For the 2005 plan year, the excess and non-elective contributions were each \$41,092 and were refunded and paid in April 2010.

Note 10 - Plan correction:

In April of 2010, the Company completed the execution of the VCP corrections. The Plan was merged into the Gentiva Health Services Retirement Savings Plan effective October 15, 2010, with the transfer of assets being completed on November 3, 2010.
