DELTA HI-TECH, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan

The following description of the Delta Hi-Tech, Inc. (the "Company") 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

1. **General**. The Plan is a defined contribution plan covering all the employees of the Company and an affiliated entity who have fulfilled the requirements for eligibility. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. **Contributions**. The Company may contribute to the Plan out of its current profits before pension and profit-sharing costs and income taxes an amount as determined by the Company's Board of Directors.

3. **Participant Accounts**. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participant's nonvested accounts, if any, and charged with an allocation of administrative expenses. Allocations are based on participant's earnings or account balance, as defined. The benefit which the participant is entitled is the benefit that can be provided from the participant's vested account.

4. **Vesting**. Plan participants are vested in the Sponsor's contribution in accordance with the Plan document.

5. **Payment of Benefits**. On termination of service a participant or their beneficiary may elect to receive the value of the vested interest in their account in accordance with the terms of the Plan and the Internal Revenue Service ("IRS") subject to the appropriate IRS regulations.

6. **Participant Loans.** Participants may borrow from their funds accounts in accordance with the plan document. The loans are secured by the balance In the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined from time to time by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

B. Summary of Accounting Policies

1. **Basis of Accounting**. The financial statements of the Plan are prepared under the accrual method of accounting and were reconciled or agreed to the Form 5500.

2. **Investment Valuation and Income Recognition**. The Plan's investments are stated at fair value or contract value as provided by the Trustee of the plan assets.

3. **Payment of benefits.** Benefits are recorded as paid.

4. **Contributions.** Participant contributions are recorded in the period in which the Company makes payroll deductions from Plan participants. The Company is currently not matching employee contributions.

B. Summary of Accounting Policies, continued

5. **Administrative Expenses.** Expenses related to the administration of the pooled separate accounts are paid by the respective accounts, and are reflected in the overall investment return of such funds or reimbursed from the non-vested fund balance. Any expenses resulting from fund transfers or from withdrawals may be deducted from participants' account balances.

6. **Estimates.** The preparation of financial statements requires management of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

7. **Concentration of Credit Risk**. The Plan's investments include bank-administered and registered investment company mutual funds that represent obligations by the counterparties to meet the terms of the financial instruments.

8. **Risks and Uncertainties.** The Plan provides for various investment options in any combination of stocks, bonds, fixed-income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

C. Cash Equivalents

The Plan considers as cash equivalents amounts held in bank checking and money market accounts.

D. Investments

The sponsor maintains the retirement assets with an Insurance Company that provides a selection of mutual funds and a guaranteed income option. Pooled separate accounts are reported at the closing net asset value per unit of participation as determined by the Plan's Custodian based upon the respective fund/portfolio as of the last business day of the Plan year. The purchase or redemption price of the units is determined based on the current net asset value per unit of participation. The value per unit is determined by the Custodian using the market values of the underlying assets or the fair values as determined by the Custodian in the absence of an available market price.

The unallocated insurance contract is stated at contract value which approximates fair value. Contract value represents the accumulated contributions and earnings, less participant withdrawals and administrative expenses.

The participants direct their account balances between stock funds and bond funds and may change their account distribution in accordance with the terms of the Trust agreement.

D. Investments, continued

The unaudited information presented as follows was certified to be complete and accurate by the Plan's custodian, within the meaning of CFR 2520.103-5 of the Department of Labor's Rules and regulations for Reporting and Disclosure under ERISA:

E. Fair Value Measurements

Accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, entitled level 1 measurements, and the lowest priority to unobservable inputs, entitled level 3 inputs. Level 2 inputs include quoted prices for similar assets or liabilities in active markets and inputs other than quoted prices that are derived or observable for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value end.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

E. Fair Value Measurements, continued

Unallocated insurance contract (Guaranteed investment contract): Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets:

At December 31, 2009

	Level 1	Level 2	Level 3	Total
Mutual funds	$	788,390		788,390
Non-interest bearing cash	7,269			7,269
Unallocated insurance contract at fair value			7,936	7,936
Reduction to contract value			(673)	(673)
Loan account			37,903	37,903
	$ 7,269	788,390	45,166	840,825

At December 31, 2008

	Level 1	Level 2	Level 3	Total
Mutual funds	$	613,870		613,870

Loan account			41,295	41,295
	$ 10,149	613,870	48,730	672,749

F. Tax Status

The Internal Revenue Service has determined and informed the Company, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

G. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

H. Related-Party Transactions

Certain plan investments are shares of mutual funds managed by John Hancock Insurance Co.. John Hancock is the Custodian of the Plan assets and, therefore, these transactions qualify as party-in-interest transactions. A portion of the administrative fees presented on the accompanying statement of changes in net assets were paid to John Hancock.

I. Loans

The Plan allows the participant to borrow a specified percentage of their account balance. Loans bear interest and are repayable in accordance with the terms specified by the Plan. The Plan reserves the right to change the ability to borrow or the loan terms.

J. EXPENSES
